# STRATA_MAT™

## Features
- Replaces traditional underlayment materials
- Instant coverage verification
- Prevents the main cause of cracked tiles
- Lightweight alternative to cement backer board
- No mess, no fuss
- Adhesive hydration vents
- Fast and easy layouts
- Provides vapour management

## Benefits
- Ensures the lasting beauty and functionality of tiled floors.
- translucent color immediately indicates adhesive coverage under STRATA_MAT.
- Eliminates transmission of in-plane substrate cracks of up to 3 mm.
- Each 18.6 kg roll covers 30m²
- Cuts with utility knife or scissors (no saws and no dust).
- Accelerates thin-set curing for faster dry time of porcelain and larger format tiles — grout the next day.
- STRATA_MAT lays flat with minimal memory and chalk lines are highly visible.
- Adhesive hydration vents provide a controlled evacuation of any excess vapour from a concrete slab to protect tiled surface.

## Uses
- A high performance uncoupling mat for use under ceramic tile and stone installations, for both residential and commercial applications.

## Suitable Substrates
- Concrete
- Cement terrazzo
- Cement render
- Existing tile or stone
- Cement backer board^*
- Gypsum underlayment or light weight concrete*  
- Cement mortar beds
- Resilient Flooring
- OSB
- Exterior glue plywood

## Packaging
- 1.1 m x 12.2 linear metre roll; 12 rolls per pallet
- 1.1 m x 26.2 linear metre roll; 6 rolls per pallet

---

* If gypsum or light weight concrete is used follow the manufacturer’s recommendation regarding priming and/or special surface preparation before installing STRATA_MAT.  
* Consult cement backer board manufacturer for specific installation recommendations.
