**HYDRO BAN® SLURRY**

HYDRO BAN SLURRY is a cement based, one component, polymer fortified, waterproof material that mixes with water and easily applies with brush, roller or trowel.

### FEATURES

<table>
<thead>
<tr>
<th>FEATURES</th>
<th>BENEFITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Resists negative hydrostatic pressure.</td>
<td>Resists up to 2.5 BARS of negative hydrostatic pressure on retaining walls, in basements and cement slabs on-ground.</td>
</tr>
<tr>
<td>“Extra Heavy Service” rating</td>
<td>Per TCNA performance levels (RE: ASTM C627 Robinson Floor Test).</td>
</tr>
<tr>
<td>Rapid drying</td>
<td>Faster time to tile.</td>
</tr>
<tr>
<td>Easily applied with roller, brush.</td>
<td>Easy to apply, no special techniques involved.</td>
</tr>
<tr>
<td>Supports direct adhesion.</td>
<td>Install tile, brick and stone directly onto the membrane.</td>
</tr>
<tr>
<td>Part of the HYDRO BAN waterproofing system</td>
<td>Can be used under HYDRO BAN in swimming pools where negative hydrostatic pressure resistance is required.</td>
</tr>
<tr>
<td>Bonds directly to metal, PVC and ABS plumbing fixtures.</td>
<td>No need to use multiple materials around pipe penetrations or drains.</td>
</tr>
</tbody>
</table>

### Suitable Substrates

- Concrete
- Concrete & Brick Masonry
- Cement Mortar Beds
- Cement Plaster
- Ceramic Tile & Stone*
- Cement Terrazzo*
- Cement Backer Board**

* If skim coated with a Latex Thin-Set Mortar.  
** Consult cement backer board manufacturer for specific installation recommendations and to verify acceptability for exterior use.

### Uses / Advantages

- Interior and exterior.  
- Garden fountains and water features.  
- Retaining walls and basements.  
- Driveways and landscaped works.  
- Where substrate moisture is problematic.

### Available Colour

Grey

### Packaging

20 kg bag, 56 bags per pallet.
