SAFETY DATA SHEET

1. Identification

Product identifier STONETECH® Enhancer Pro™ Sealer

Other means of identification None.

Recommended use of the chemical and restrictions on use

Recommended use Sealer.

Restrictions on use Not available.

Details of manufacturer or importer

Company name LATICRETE International

Address 1 Laticrete Park, N

Bethany, CT 06524

Telephone (203)-393-0010

Contact person Steve Fine

Website www.laticrete.com

Emergency phone number Call CHEMTREC day or night

USA/Canada - 1.800.424.9300

Mexico - 1.800.681.9531

Outside USA/Canada

1.703.527.3887

Supplier

Company name LATICRETE Australia

Address P.O. Box 508

Virginia Business Mail Centre

29 Telford Street

VIRGINIA QLD 4014

Australia

Emergency phone number 1.703.527.3887

2. Hazard(s) identification

Classification of the hazardous chemical

Physical hazards Flammable liquids Category 3

Skin corrosion/irritation Category 2

Health hazards Specific target organ toxicity following single exposure Category 3 narcotic effects

Aspiration hazard Category 1

Environmental hazards Hazardous to the aquatic environment, acute hazard Category 2

Hazardous to the aquatic environment, long-term hazard Category 2

Label elements, including precautionary statements

Hazard symbol(s)

Flame Exclamation mark Health hazard Environment
Signal word: Danger

Hazard Statement(s): Flammable liquid and vapour. Causes skin irritation. May cause drowsiness or dizziness. May be fatal if swallowed and enters airways. Toxic to aquatic life with long lasting effects.

Precautionary Statement(s):

**Prevention**
Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe mist or vapour. Wash thoroughly after handling. Avoid breathing vapours. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Avoid release to the environment.

**Response**
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTRE/doctor if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician. Do NOT induce vomiting. Collect spillage.

**Storage**
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up.

**Disposal**
Dispose of contents/container in accordance with local/regional-national/international regulations.

3. Composition/information on ingredients

<table>
<thead>
<tr>
<th>Mixture</th>
<th>Identity of chemical ingredients</th>
<th>CAS number and other unique identifiers</th>
<th>Concentration of ingredients</th>
</tr>
</thead>
<tbody>
<tr>
<td>Naphtha (petroleum), hydrotreated heavy</td>
<td>64742-48-9</td>
<td>70 - 80</td>
<td></td>
</tr>
</tbody>
</table>

Composition comments: All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

**Description of necessary first aid measures**

**Inhalation**
Move into fresh air and keep at rest. If breathing stops, provide artificial respiration. Get medical attention if any discomfort continues.

**Skin contact**
Flush thoroughly with water for at least 15 minutes. Wash skin with soap and water. Get medical attention if irritation develops and persists.

**Eye contact**
Flush thoroughly with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention immediately.

**Ingestion**
Immediately rinse mouth and drink plenty of water. Keep person under observation. If person becomes uncomfortable take to hospital along with these instructions. Get medical attention if symptoms occur.

**Personal protection for first-aid responders**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

**Symptoms caused by exposure**
Skin irritation. Irritation of nose and throat. Irritating to mucous membranes. Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.

**Medical attention and special treatment**
Treat symptomatically.

5. Fire-fighting measures

**Extinguishing media**
Extinguish with alcohol-resistant foam, carbon dioxide or dry powder.

**Unsuitable extinguishing media**
Do not use a solid water stream as it may scatter and spread fire.

**Specific hazards arising from the chemical**
During fire, gases hazardous to health may be formed. Solvent vapours may form explosive mixtures with air.

**Special protective equipment and precautions for fire fighters**
Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
In case of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Move containers from fire area if you can do it without risk.

**Hazchem Code**

3Y

**General fire hazards**

The product is flammable, and heating may generate vapours which may form explosive vapour/air mixtures.

### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel**

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate. Do not breathe mist or vapour. Avoid contact with skin and eyes. Local authorities should be advised if significant spillages cannot be contained. Stay upwind. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak. Ventilate closed spaces before entering. Use personal protection recommended in Section 8 of the SDS.

**For emergency responders**

Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

#### Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not contaminate water.

#### Methods and materials for containment and cleaning up

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop the flow of material, if this is without risk. Prevent entry into waterways, sewers, basements or confined areas. Keep combustibles (wood, paper, oil etc) away from spilled material. This product is miscible in water.

Large Spills: Dike the spilled material, where this is possible. Following product recovery, flush area with water. Cover with plastic sheet to prevent spreading. Absorb spillage with non-combustible, absorbent material.

Small Spills: Clean surface thoroughly to remove residual contamination.

Never return spills in original containers for re-use.

#### Other issues relating to spills and releases

Clean up in accordance with all applicable regulations.

### 7. Handling and storage

#### Precautions for safe handling

The product is flammable, and heating may generate vapours which may form explosive vapour/air mixtures. Do not handle or store near an open flame, heat or other sources of ignition. Do not breathe mist or vapour. Avoid contact with skin, eyes and clothing. Do not smoke. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Use only in well-ventilated areas. Avoid prolonged exposure. Use Personal Protective Equipment recommended in section 8 of the SDS. Wash thoroughly after handling. Handle and open container with care.

#### Conditions for safe storage, including any incompatibilities

### 8. Exposure controls and personal protection

#### Control parameters

Follow standard monitoring procedures.

#### Occupational exposure limits

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

<table>
<thead>
<tr>
<th>Components</th>
<th>Type</th>

</thead>
<tbody>
<tr>
<td>Naphtha (petroleum), hydrotreated heavy (CAS 64742-48-9)</td>
<td>TWA</td>
<td>300 mg/m3</td>
</tr>
<tr>
<td></td>
<td></td>
<td>50 ppm</td>
</tr>
</tbody>
</table>

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Exposure guidelines**

Follow standard monitoring procedures.
Explosion proof exhaust ventilation should be used. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment. Provide easy access to water supply or an emergency shower.

Individual protection measures, for example personal protective equipment (PPE)

**Eye/face protection**
Wear goggles/face shield.

**Skin protection**
Wear protective gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.

**Hand protection**
Protective shoes or boots. Wear appropriate chemical resistant clothing. Structural firefighters protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations. Wear chemical protective equipment that is specifically recommended by the Personal Protective Equipment manufacturer.

**Other**
Protective shoes or boots. Wear appropriate chemical resistant clothing. Structural firefighters protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations. Wear chemical protective equipment that is specifically recommended by the Personal Protective Equipment manufacturer.

**Respiratory protection**
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In case of inadequate ventilation or risk of inhalation of vapours, use suitable respiratory equipment.

**Thermal hazards**
Wear appropriate thermal protective clothing, when necessary.

**Hygiene measures**
Handle in accordance with good industrial hygiene and safety practices. Wash hands before breaks and immediately after handling the product. When using, do not eat, drink or smoke. Launder contaminated clothing before reuse. Remove and isolate contaminated clothing and shoes.

### 9. Physical and chemical properties

**Appearance**
Clear liquid.

**Physical state**
Liquid.

**Form**
Liquid.

**Colour**
Clear.

**Odour**
Slight hydrocarbon.

**Odour threshold**
Not available.

**pH**
No data available.

**Melting point/freezing point**
Not applicable.

**Initial boiling point and boiling range**
> 149 °C (> 300.2 °F)

**Flash point**
28.0 °C (82.4 °F) Closed cup

**Evaporation rate**
Not applicable.

**Flammability (solid, gas)**
Not applicable.

**Upper/lower flammability or explosive limits**

| Flammability limit - lower (%) | Not available. |
| Flammability limit - upper (%) | Not available. |

**Vapour pressure**
Not available.

**Vapour density**
Not available.

**Relative density**
0.809

**Solubility(ies)**

| Solubility (water) | Insoluble in water. |
| Partition coefficient (n-octanol/water) | Not available. |
| Auto-ignition temperature | Not available. |
| Decomposition temperature | > 200 °C (> 392 °F) |

**Viscosity**
Not available.

**Other physical and chemical parameters**

| VOC | 632 g/l |
10. Stability and reactivity

**Reactivity**
The product is non-reactive under normal conditions of use, storage and transport.

**Chemical stability**
Stable under normal temperature conditions. Risk of ignition.

**Possibility of hazardous reactions**
Hazardous polymerisation does not occur.

**Conditions to avoid**
Heat, sparks, flames, elevated temperatures.

**Incompatible materials**
Strong oxidising agents. Strong acids.

**Hazardous decomposition products**
Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

11. Toxicological information

**Information on possible routes of exposure**

- **Inhalation**
  Vapours may cause drowsiness and dizziness.

- **Skin contact**
  Causes skin irritation.

- **Eye contact**
  May cause eye irritation on direct contact.

- **Ingestion**
  Ingestion may cause irritation and malaise.

**Symptoms related to exposure**
Skin irritation. Irritation of nose and throat. Irritating to mucous membranes.

**Acute toxicity**
May cause discomfort if swallowed.

13. Disposal considerations

Disposal methods
Dispose of this material and its container to hazardous or special waste collection point. Do not incinerate sealed containers. Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

Residual waste
Dispose of in accordance with local regulations.

Contaminated packaging
Dispose of in accordance with local regulations. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

ADG

UN number | 3295
---|---
UN proper shipping name | Hydrocarbons, liquid, n.o.s. (Naphtha (petroleum), hydrotreated heavy)
Transport hazard class(es) | 3
Class | 3
Subsidiary risk | -
Packing group | III
Environmental hazards | Yes
Hazchem Code | 3Y
Special precautions for user | Read safety instructions, SDS and emergency procedures before handling.

RID

UN number | 3295

UN proper shipping name | HYDROCARBONS, LIQUID, N.O.S. (Naphtha (petroleum), hydrotreated heavy)
Transport hazard class(es) | 3
Class | 3
Subsidiary risk | -
Label(s) | 3
Packing group | III
Environmental hazards | Yes
Marine pollutant | Yes
Read safety instructions, SDS and emergency procedures before handling.
Not available.
IATA classification is not relevant as the material is not transported by air.

15. Regulatory information

National regulations
This Material Safety Data Sheet was prepared in accordance with the Australia National Code of Practice for the Preparation of Material Safety Data Sheets (NOHSC: 2011.)

Australia Medicines & Poisons Appendix E
HYDROCARBONS, LIQUID (CAS 64742-48-9)

Australia Medicines & Poisons Schedule 5
HYDROCARBONS, LIQUID, INCLUDING KEROSENE, DIESEL (DISTILLATE), MINERAL TURPENTINE, WHITE PETROLEUM SPIRIT, TOLUENE, XYLENE AND LIGHT MINERAL AND PARAFFIN OILS (BUT EXCLUDING THEIR DERIVATIVES) (CAS 64742-48-9)

High Volume Industrial Chemicals (HVIC)
Naphtha (petroleum), hydrotreated heavy (CAS 64742-48-9) 1000 - 9999 TONNES See the regulation for additional information.

Importation of Ozone Deleting Substances (Customs(Prohibited imports) Regulations 1956, Schedule 10)
Not listed.

National Pollutant Inventory (NPI) substance reporting list
Not listed.

Prohibited Carcinogenic Substances
Not regulated.

Prohibited Substances (National Model Regulation for the control of Workplace Hazardous Substances, Schedule 2 NOHSC:1005 (1994) as amended)
Not listed.

Restricted Importation of Organochlorine Chemicals (Customs(Prohibited Imports) Regulations 1956, Schedule 9)
Not listed.

Restricted Carcinogenic Substances
Not regulated.

International regulations

Stockholm Convention
Not applicable.

Rotterdam Convention
Not applicable.

Kyoto protocol
Not applicable.

Montreal Protocol
Not applicable.

Basel Convention
Not applicable.
