

CLINICAL PLUS

Coatings equipped with CLINICAL PLUS silver ion antimicrobial technology* are formulated for high antibacterial resistance, ideal for areas where sanitary coatings are required.

Features & Benefits

- Silver ion antimicrobial technology inhibits the growth of bacteria that can cause product degradation, discolouration, and odours
- Antimicrobial properties remain active for the lifetime of the floor coating — even when damaged or worn
- Hygienic, easy to clean seamless floor to wall protection
- Resistant to stains and spills
- Safe, nonslip flooring
- Withstands heavy foot traffic
- Available in pigmented and transparent versions

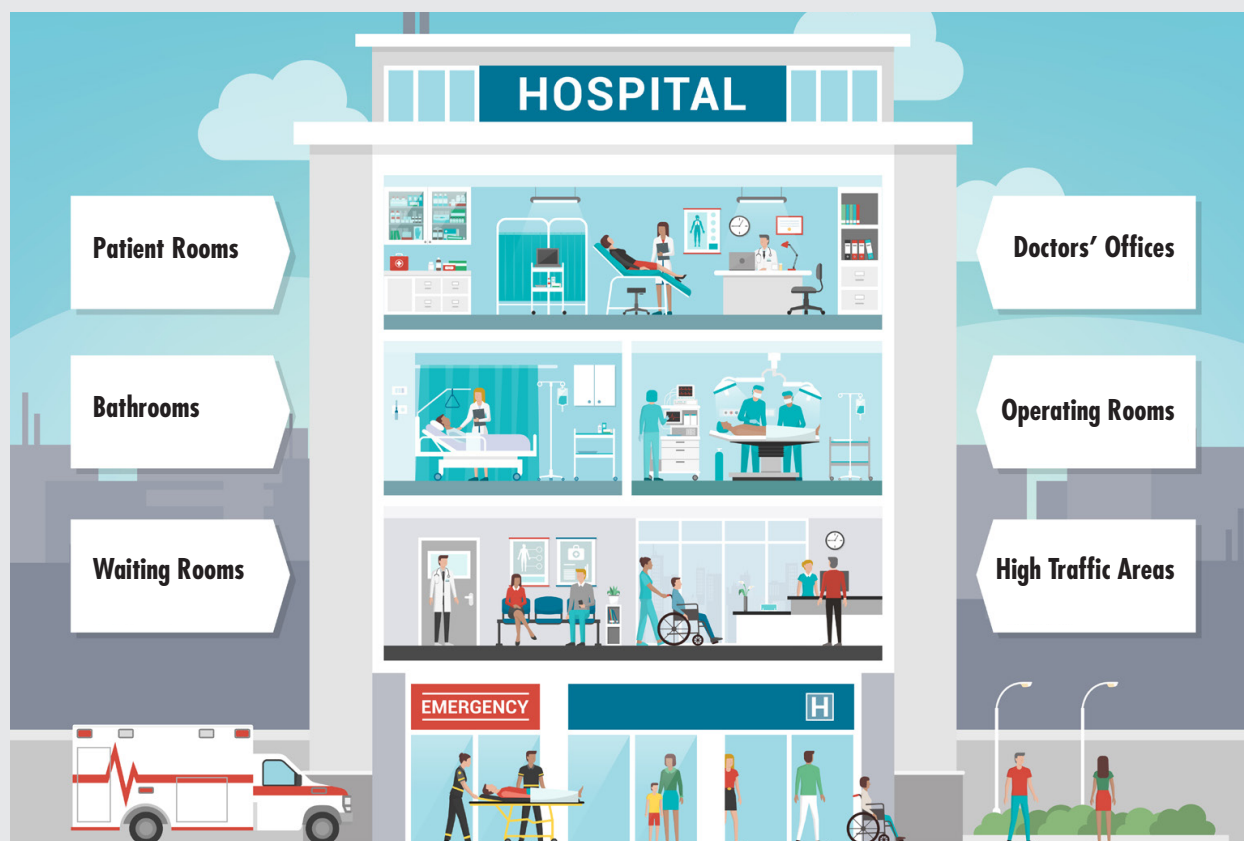

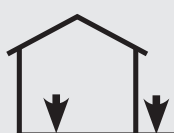

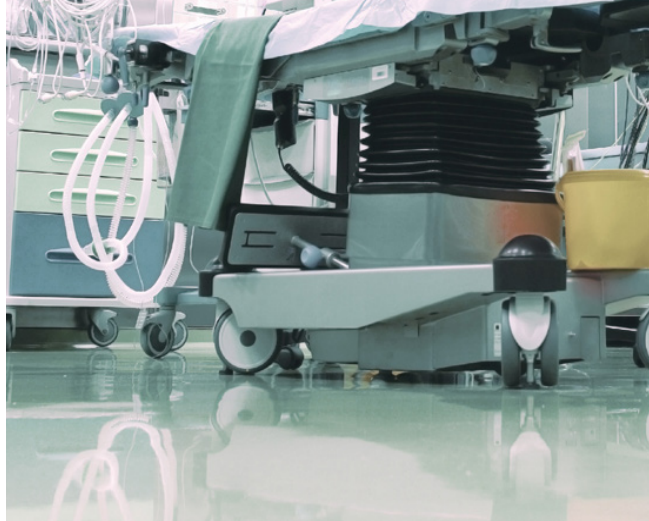

Application Benefits

- Integral to the coating itself — no need to mix CLINICAL PLUS on-site
- Quick-drying — walkable in just a few hours
- One day installation with next-day return to service
- Customizable, beautiful aesthetics
- Low VOC emissions, low odour coatings — minimal odour during and after installation

*Antimicrobial technology protects the treated article against mould and mildew deterioration. Antimicrobial technology is not designed to replace normal cleaning practices or protect users.
