

flooring products

patented dual-cure® polyaspartics

Sparta-Flex®

Highly durable & UV resistant two-component polyaspartic coating. Available in high and semi-gloss finishes as well as 14 standard colors.

- Rapid installation with next-day return to service
- Superior wear & chemical resistance
- Low temperature cure

Sparta-Flex® XT™

Ultra-high performance polyaspartic coating with advanced chemical and stain resistance properties.

- Available in clear as well as 14 standard colors
- 92% Solids with ultra low odor and < 50 VOC
- Ideal for use as a high performance top-coat material
- LEED eligible

Sparta-Flex® PURE™

VOC-free and odor-free polyaspartic coating, ideal for indoor environments requiring no solvent odor. Available in clear as well as 14 standard colors.

- Excellent working time for high solids polyaspartic
- Rapid cure with next-day return to service
- Suitable for institutional applications where minimal odor installation is required
- LEED eligible

epoxy primers & resurfacers

Aqua-Flex WB/FC™

Fast cure two-component water-based primer. Terrific adhesion to concrete with no odor & 0-voc.

- 2-hour cure for limited application time-frames
- Promotes excellent adhesion between concrete substrate and Sparta-Flex PURE® and XT™ coatings

HP SurfaceBuild SL™

High quality 100% solids self-leveling epoxy. Used in conjunction with various HP Sparta-cote flooring systems as a “build coat”.

- Resurface rough or damaged concrete
- Provides for added thickness & build

Hydro-Shield SL™ Moisture Primer

Two-component moisture tolerant primer. Utilizes enhanced 100% solids epoxy to reduce the passage of water vapor and moisture.

- Suitable for high moisture slabs
- Ideal for new concrete > 5 days old.

concrete repair & joint filler

Spartacote® Fast Fix™

Rapid set dual-component concrete repair material. Apply neat or with aggregate to create a high strength permanent concrete repair.

- Rigid within 15 minutes
- Compressive strength of + 4000 psi

Spartacote® Joint-Flex 75™

Dual-Component polyurea joint filler

- Fast setting with a rubber like hardness
- For use in joints or to seam threshold between foundation and slab

chip media & aggregates

Vinyl & MICA Chip Media

Decorative vinyl or mica chips used in various flooring systems to create a terrazzo-like appearance.

- Numerous colors and blends offer customized finish
- Provide added thickness & durability
- MICA chips offer brilliant reflectivity

Colored Quartz Aggregates

Highly durable colored quartz aggregates for use in a variety of HP Sparta-cote flooring systems.

- UV stable, suitable for interior or exterior use
- Optimal for situations requiring a durable & textured surface

Sparta-Grip™ Traction Additive

Ultra-tough yet lightweight resin based traction additive designed to be dispersed into Sparta-Flex® Sparta-Flex® XT™ and Sparta-Flex® PURE™ top-coats.

- Ultra-lightweight suspended additive increases abrasion resistance.

Diamond-Topp™ Wear Coat Additive

Designed for extremely heavy-traffic applications, this specialized additive is dispersed into Sparta-Flex® coatings.

- Provides for a lightly textured matte finish and may be used as a top-coat over any HP Sparta-cote® flooring system.

decorative concrete

Abstract Concrete Dye™

High quality liquid dispersed concrete dye. Formulated to be applied directly to prepared concrete and then coated with Sparta-Flex® clear top-coats.

- 15 intense colors that can be applied alone or in conjunction with one-another for a unique application

AlpenGlow™ Metallic Pigments

Synthetically produced metallic pigment additive for Sparta-Flex® Sparta-Flex® XT™ and Sparta-Flex® PURE™ coatings.

- Adds incredible color brilliance and depth to any flooring system.

HP Sparta-cote offers the most complete line of integrated high performance polyaspartic coating systems available to assist you in creating a cleaner, longer lasting and sustainable environment.

commercial & industrial resinous flooring

HP Spartacote® coating systems

HP Spartacote offers a full line of patented dual-cure® polyaspartic coatings for concrete. Our high performance commercial and industrial flooring systems provide owners with superb concrete protection & longevity in even the most demanding heavy-traffic situations. Specifiers and designers may select from a multitude of colors, blends and finishes to create customized resinous flooring solutions to compliment any environment.

HP Spartacote Advantages:

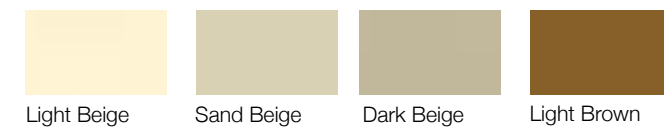

- One-day installation & next-day return to service
- Superior chemical and stain resistance
- UV stable & non-yellowing
- No voc & odor-free applications
- Outstanding adhesion to concrete & steel
- High durability
- Interior or exterior use
- Low temperature cure
- No hot-tire pickup

Sparta-Guard™ solid-color coatings

Superior resistance to punishing industrial traffic, skydrol and other harsh chemicals. Popular where cleanliness is a must. A logical choice for demanding environments such as aviation hangers, manufacturing and shop floors.

Sparta-Guard™

HP Spartacote offers Reac-Tint™ aspartic pigments which provide optimal color hide & performance.

quartz & vinyl chip seamless flooring

Don't Just Coat It, Spartacote It!™

Sparta-Quartz™ quartz flooring

Highly-durable colored quartz aggregates are layered between Sparta-Flex® coatings to create an attractively textured floor. Ideal for parking decks, stadiums and commercial kitchens.

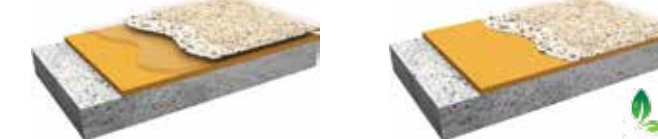

Sparta-Quartz™

Sparta-Quartz PURE™ VOC-Free / Odor-Free

Sparta-Chip™ seamless flooring

A unique terrazzo-like finish that provides owners with reduced maintenance and long-term durability. Popular in retail locations, schools and high-end residential garages.

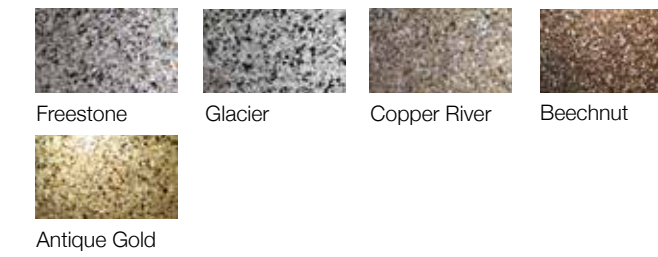

Sparta-Chip™

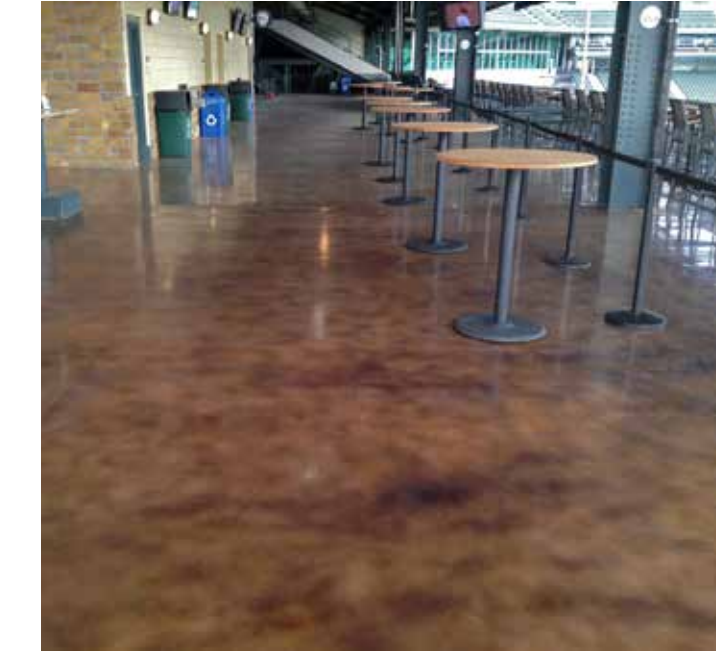

Sparta-Chip PURE™ VOC-Free / Odor-Free

MICA-Chip™ seamless flooring

Decorative MICA-based chips used in various flooring systems to offer a terrazzo-like appearance.

decorative concrete

Sparta-Stain™ decorative flooring

Incorporates liquid dispersed concrete dyes with Sparta-Flex® clear sealers for a highly artistic yet durable surface. Often considered an alternative to polished concrete in situations requiring superior chemical & stain resistance.

Sparta-Stain™

Alpen-Glow™ metallic pigments

Combines synthetically produced metallic pigments with Sparta-Flex® coatings to produce brilliant color intensity & depth. A truly unique finish designed to compliment the most exclusive of environments.

Alpen-Glow Metallics™
