Globally Proven Construction Solutions
THE DUBAI FRAME

“The Dubai Frame, built to represent a huge picture frame, is a giant rectangular structure located in Zabeel Park. The location of the Dubai Frame plays an important part and was carefully chosen to allow visitors a panoramic view, of both old and new Dubai. This gives the visitors the advantage of taking a snapshot of both sides of the city from one unique spot.”

Designed by award-winning architect Fernando Donis, who also designed Dubai’s Porsche Design Towers and the Dubai Renaissance Tower, the aesthetic and architectural landmark creates a bridge between the past and the present, is in the form of a frame, with two towers a 150m in height and 93m in width, which are connected by a 100 square meter bridge at the top.

PRODUCT USED:
- 254 Platinum Adhesive
- SPECTRALOCK PRO Grout
- SPECTRALOCK DAZZLE

Industry-Leading Training and Support

UL GREENGUARD
Gold Certification

LATICRETE® low-VOC products are independently certified. Our products help you contribute toward LEED certification.

LEED Support

Our online project certification tool automatically generates required LATICRETE product information for your specific LEED project submittals. Additional LEED information and calculations are available at laticrete.ecoscorecard.com.

LATICRETE
Architectural Guidebook

Use this informative online tool to get complete specifications and details for your projects. You can access it at: www.laticrete.com/ag

Training and Education

LATICRETE will hold continuing education seminars right from your office. You can also attend product and installation technology seminars at one of our training centers or a location of your choice.

Consult our website at www.laticrete.com for the most current versions of product data sheets, warranties, and MSDS sheets. Content of this brochure is for informational purposes only. Refer to individual product data sheets and warranties for complete information. United States Patent No.: 6,784,229 B2 (and other Patents). United States Patent No.: 6,631,748 (and other Patents). Not available for sale in Canada.

www.me.laticrete.com
For over 60 years, LATICRETE® has led the industry with pioneering advancements—developing high-performance building materials for architects and construction professionals worldwide. From time-tested to ground-breaking, our broad product portfolio provides superior quality and value. We are fully committed to innovation, growth, and a complete system component approach.

**Tile & Stone Installation Systems**

Ensure a successful installation each and every time with the most comprehensive assortment of innovative tile and stone installation materials available worldwide. LATICRETE® industry-leading products provide complete system solutions from the substrate up through the grout for virtually any type of tile or stone installation in commercial, industrial, and residential applications.

**Flooring System**

Offer unparalleled integral colors, textures, and finishes with high-performance coatings, overpayments, and restoration solutions that give owners exceptionally attractive, durable, decorative floors. LATICRETE® decorative finishes allow you to deliver vivid color and gloss with high impact and wear resistance, quick turnaround, and low maintenance.

The LATICRETE® SUPERCAP® System is a time-saving, cost-effective method for finishing new concrete or capping existing slabs by combining a LEED-contributing, UL GREENGUARD Gold Certified, low-alkali, self-leveling, cement-based technology with a patented computer-controlled mobile blending unit (pump truck).

**Floor and Stone Care Products**

Properly protect your natural stone, tile and grout with LATICRETE® Floor and Stone Care products. This complete line of specially formulated products has everything you need to protect, enhance and clean your stone, tile and grout, and keep them looking as beautiful as the day they were installed.

A quality finished floor starts with a properly prepared surface—one that guarantees a long-lasting, durable installation. LATICRETE time-tested surface preparation products are formulated to preserve quality by protecting installations from water vapor transmission, sound transmission, and cracks. They provide a perfectly level substrate to accommodate a variety of floor finishes including vinyl, wood, carpet, and tile.

Improve the long-term durability, performance, and appearance of concrete surfaces with our complete line of protection and repair solutions. Curing and sealing treatments, floor hardeners and densifiers, polished concrete systems, and stain protection products work together to ensure your concrete floor is safe, resilient, and easy to maintain.

Refer to the STONETECH® Catalogue to know more about our floor and stone care products.

Refer to the FLOORING CATALOGUE TO KNOW MORE ABOUT OUR FLOORING PRODUCTS
**LATICRETE® OFFERS THE BEST SYSTEM WARRANTIES* IN THE INDUSTRY**

Unmatched Peace of Mind

LATICRETE takes pride in delivering comprehensive system warranty packages and superior service through industry-leading support. With training from our highly experienced technical support team and quick, easy access to supportive online tools, we provide everything you need to ensure high-performance solutions.

**TECHNICAL INFORMATION**

Technical assistance and information is available by calling the LATINCRETE Technical Service Line:

**LIMITED WARRANTY**

Subject to the conditions and limitations stated below, LATICRETE®, MIDDLE EAST LLC. (“LATICRETE”) warrants that the products listed on this document will be free from manufacturing defects and will not break down or deteriorate under normal usage for a period of ten (10) years from the date of purchase when installed in accordance with LATICRETE’s written specifications and industry standard guidelines. For this limited warranty to apply, the applications that comprise the installation must be performed with the products listed in this document for each application (refer to chart).

**DISCLAIMER:** THIS LIMITED WARRANTY IS GIVEN IN LIEU OF ANY OTHER WARRANTY, EXPRESSED OR IMPLIED. THERE ARE NO WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WARRANTIES BASED ON SAMPLES OR ORAL STATEMENTS, WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE OF THIS DOCUMENT. IMPLIED WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR A PARTICULAR PURPOSE ARE EXCLUDED.

**EXCLUSIVE REMEDY**

The sole and exclusive remedy for a breach of this limited warranty is replacement of only the specific portion of the installation that is proven to be defective*. LATICRETE will pay for replacement of its own products and replacement of finishing materials, as well as for labor for the replacement installation, but LATICRETE will not pay more, calculated on a square-foot basis, for the replacement than the original purchase price of the portion being replaced. LATICRETE will not pay for replacement of any portion of the installation that is not proven to be defective. In the event that the sole and exclusive remedy described above fails of its essential purpose, LATICRETE’s liability is limited to the dollar value, on a square-foot basis, of the original purchase price of the portion being replaced. Notwithstanding the previous paragraphs, exterior facades with ceramic tile or stone installed over substrates with steel or wood framing do not qualify for this limited warranty – see Data Sheet 230.15 for such applications.

**EXCLUSIONS**

LATICRETE is not responsible for workmanship not in accordance with LATICRETE’s instructions and industry standard guidelines. Cracking due to structural movement, excessive deflection or other failure in the substrate is also not covered.

LATICRETE is not LIABLE FOR ANY INCIDENTAL DAMAGES OR CONSEQUENTIAL DAMAGES, INCLUDING LOSSES DUE TO DELAYS, INFLICTED BY THE PURCHASER OR ANY OTHER PARTY.

*NOTE:* Efflorescence is a normal condition of portland cement mortars and is not a defective condition.

**NO ASSIGNMENT**

This limited warranty is not transferable or assignable

**HOW TO MAKE A CLAIM**

To make a claim under this limited warranty, you must notify LATICRETE in writing within thirty (30) days of the discovery of the alleged manufacturing defect. At LATICRETE’s option, you may be required, as a condition of this limited warranty, to provide proof of product purchase and use.

Address your claim to:

LATICRETE MIDDLE EAST LLC.,

P.O. Box: 86028, Ras Al Kheima, U.A.E.

Antimicrobial technology protects the treated article against mold and mildew deterioration. Antimicrobial technology is not designed to replace normal cleaning practices or protect users.
Industry and product information in short, easy segments train from the comfort of your home or office anytime, fast and easy to access and complete.

LATICRETE offers intensive training programs that were specifically developed for tile and stone industry distributors, dealers and other industry professionals.

**BENEFITS**
- Increase understanding of the tile and stone installation industry
- Expand knowledge of how to select and recommend the most suitable installation materials
- Increase knowledge of LATICRETE® products
- Learn trade definitions, performance requirements, and industry standards
- Learn how to solve and avoid job problems
- Participate in hands-on product demonstrations

**DAILY SCHEDULE**
The LATICRETE seminars run Thursdays and Fridays from 9 a.m. to 5 p.m. Experienced instructors utilize both classroom instruction and hands-on product demonstrations. You will also be able to meet with key LATICRETE personnel. Time is allocated for questions and discussion at the end of each day’s presentation. Optional social activities and sightseeing excursions are also planned.

**Program Includes**
- All transportation between the airport and the LATICRETE Visitor Center
- Lodging at the LATICRETE Visitor Center
- All technical information and product catalogs
- Daily transportation to and from the Visitor Center to the LATICRETE Technical Training Center and return
- Certificates and unique promotional items

**SEMINAR LOCATION**
LATICRETE MIDDLE EAST LLC.
P.O. BOX 86028, Ras Al Khaimah, U.A.E.
Tel. +971 7 244 6396, Fax: +971 7 244 5915

LATICRETE TECHNICAL SEMINARS CONTENT
- Selecting the Proper Installation Systems
- Industry Standards
- Substrates (Preparation/Requirements)
- Types of Tile and Stone
- Waterproofing Membranes
- Latex Portland Cement Mortars
- Epoxy and Cement Grouts
- Epoxy Adhesives
- Sales and Marketing Techniques
- Hands-on Product Demonstrations

**SEGMENTED DISTRIBUTOR TRAINING PROGRAMS**
Seminars begin at 8:00 a.m. and go to 5:00 p.m. A question and discussion period is held at the end of the day’s presentation.

**LATICRETE “ON THE ROAD” SEMINARS IN MIDDLE EAST & AFRICA**
These sessions run for one day at LATICRETE distributors around the Middle East & Africa. Seminars begin at 8:00 a.m. and go to 5:00 p.m. A question and discussion period is held at the end of the day’s presentation.

**LEARN ONLINE AT YOUR LEISURE**
LATICRETE is proud to announce its new eLearning program, LATICRETE UNIVERSITY. LATICRETE UNIVERSITY makes it possible for anyone within the industry to train on industry standards and Profit Through Knowledge (PTK) Technical Seminars from the comfort of their home or office. Training has become necessary to learn about new products and modern technology. Traveling and leaving your business behind to attend training is not always easy or possible. Now anyone in your company can receive the quality information, previously possible only during live training sessions, within a short period of time and without leaving the job for an extended period of time.

Here’s how it works:
1. You listen to and observe a short tutorial.
2. You take a short test that will measure your knowledge retention.
3. Upon the successful completion of a segment, you print a certificate or have it emailed to you for your employee training records.

Note — You can pause and resume your training at any time. You can re-take training to sharpen your knowledge.

To access the LATICRETE UNIVERSITY, www.laticrete.com/training, create a user profile and begin your training.
LATICRETE® Offers a Complete System Solution for Virtually Every Tile and Stone Application.

For more than half a century architects, engineers, and developers have trusted LATICRETE with their tile and stone installation needs. Let our experience, product quality, and technical support assist you on your next project—whatever the application.

**EXTERNAL FACADES**

- Waterproofing Membrane: HYDRO BAN®
- Adhesive: 254 Platinum / LATAPOXY® 300
- Sealant At Joints: Latasil
- Grout: Spectrlock® Pro Grout® / Permacolor® Grout®
- Sealer: Protected Tile / Stone: (Bulletproof®/Impregnator Pro®)
- Plaster (226 Thick Bed Mortar with 3701 Mortar Admix)

**EXTERNAL HARD-SCAPE – OPTION 1**

- LATICRETE® Exterior Grade Sealer
- Protected Marble/Granite (Bulletproof®/Impregnator Pro®)
- Spectrlock® Pro Grout
- 220 Marble & Granite Thick Bed Adhesive (upto 40mm)
- Concrete

**EXTERNAL HARD-SCAPE – OPTION 2**

- Spectrlock® Pro grout / Permacolor® Grout®
- LATICRETE® Exterior Grade Sealer
- Protected Marble/Granite (Bulletproof®/Impregnator Pro®)
- Bond with Slurry of 254 Platinum tile adhesive
- 3701 fortified mortar bed (thickness upto 40mm)

* United States Patent No.: 6,881,768 (and other Patents).
† United States Patent No.: 6,784,229 (and other Patents).
For the detailed information, Contact our technical team/mail a mail to enquiry@laticrete.me

WALLS AND FACADES

- PERMACOLOR® Grout / Stellar Ready to use grout
- 254 Platinum HYDRO BAN®
- Properly prepared concrete, backer board, or masonry substrates (if substrate requires leveling, use 3701 Fortified Mortar)

LATICRETE® Offers a Complete System Solution for Virtually Every Tile and Stone Application.
LATICRETE has successfully provided the technology for innovative, permanent installations of tile and stone finishes. Architecturally specified and preferred by professional installers, LATICRETE provides solutions for virtually every application.

- LATICRETE® products are industry accepted, code approved, and backed by 100% labor and materials system warranties, thereby assuring a successful installation each and every time
- LATICRETE membranes, adhesives, grouts, and sealants are weather-resistant and freeze/thaw stable when cured

**INTERNAL WALL**

LATICRETE® Adhesive:
- 254 Platinum for Vitrified Tiles
- 325 Premium Tile Adhesive for Ceramic Tiles

Spectralock® Pro Grout

LATICRETE® Sealer and Cleaner Protected Tile / Stone

**COMMERCIAL AND INDUSTRIAL FLOORS AND WALLS**

- 254 Platinum or LATAPOXY® 300 Adhesive
- HYDRO BAN
- LATAPOXY® 300 Epoxy Adhesive / 254 Platinum
- Spectralock® Pro Grout / Permacolor® Grout
- HYDRO BAN® / 9235
- LATAPOXY® 300 Epoxy Adhesive / 254 Platinum
- Spectralock® Pro Grout / Permacolor® Grout

**WET AREAS AND CONTINUOUS UNDERWATER SUBMERSION**

- LATAPOXY® 300 Epoxy Adhesive / 254 Platinum
- Spectralock® Pro Grout / Permacolor® Grout
- HYDRO BAN® / 9235

**SWIMMING POOL SYSTEMS**

- Glass Mosaic Tiles
- Spectralock® Pro Grout
- 254 Platinum Tile Adhesive
- Waterproofing Membrane: HYDROBAN® / 9235
- 3701 Fortified Mortar Bed

NOTE: For complete application information and limitations consult related Product Data Sheets and Execution Statements related to this detail, and applicable industry standards. As a professional courtesy, LATICRETE offers technical services free of charge. The user maintains all responsibility for verifying the applicability and suitability of the technical service or information provided.
3701 FORTIFIED MORTAR BED

A one-step polymer-fortified blend of raw materials, Portland cement, and graded aggregates.

FEATURES/BENEFITS:
- No need for latex admix
- Add water for a thick bed mortar or render
- No need for job site measuring and mixing of sand and cement
- An alternative to 3701 Mortar Admix combined with 226 Thick Bed Mortar

PACKAGING:
20 kg bag; 72 bags per pallet

MIXING:
Mix a 20 kg of 3701 Fortified Mortar to 2 - 2.5 L of water. Mix to a stiff, semi-dry consistency. Mix ratio may vary dependent upon weight of finish.

86 LATILEVEL™ UNDERLAYMENT

86 LatiLevel™ is a cementitious powder that is mixed with water to produce a free-flowing self-leveling underlayment mortar for rapid leveling of interior sub-floors.

FEATURES/BENEFITS:
- From feather edge to 38 mm thickness in one pour
- Economical and easy to use
- Fast setting
- Long heal times for extended workability
- Water resistant, non-shrinking
- Compatible with most adhesives
- Pumpable, free-flowing; eliminates sanding and troweling

PACKAGING:
50 kg bag; 27 bags per pallet

MIXING:
Place 11.5 L of clean potable water into a clean pail. Add one 50kg bag of 86 LatiLevel slowly into the pail; mix as the material is poured. Use a high-speed mixer (500 rpm) and mix thoroughly for one minute for a smooth creamy mix with no clumps. Follow all mixing instructions on bag. Be sure to not add too much water. Mix no more than two bags at a time with appropriate water.

Approximate Coverage

10 YEAR Warranty
Approximate Coverage As thick bed mortar

For extremely porous dry substrates, may be applied full strength, yielding approximately 97 m² per pail or dilute 1:1 by volume with clean potable water to yield approximately 194 m² per pail.

Warranty

10 YEAR

**ADMIX & PRIMER**

Refer to Data Sheet: 86AP.me

LATICRETE Admix & Primer is a latex primer for use with LATICRETE 86 LatiLevel™. A re-emulsifiable bonding agent designed to be used with LATICRETE self leveling underlayment and overlayment. Product is for interior use only.

**FEATURES/BENEFITS:**
- Easy to use
- Reduces pinholes
- Allows for proper hydration of self leveling underlayment & overlayment
- Increases bond strength

**PACKAGING:**
20 L pail; 36 pails per pallet.

226 Thick Bed Mortar is a factory prepared blend of carefully selected raw materials, portland cement and graded aggregates. 226 Thick Bed Mortar was designed for use with 3701 Mortar Admix to produce a latex portland cement mortar that has exceptional strength. 3701 Fortified Mortar Bed is an approved substitute for 226 Thick Bed Mortar mixed with 3701 Mortar Admix.

**FEATURES/BENEFITS:**
- Can be used to build concrete patches, stucco and plaster mortars
- Can be used to level, ramp or slope

**PACKAGING:**
3701 Mortar Admix:
20 L pail; 36 pails per pallet.

226 Thick Bed Mortar:
20 kg bag; 72 bags per pallet.

**MIXING:**
Mixing Mortar Bed—Dry Pack Consistency for floors. Mix a 20 kg of 226 Thick Bed Mortar to 2 — 2.4 L of 3701 Mortar Admix. 20 L of 3701 Mortar Admix mixes with approximately 8 - 10 bags of 226 Thick Bed Mortar, yielding approximately 4 m² at 25 mm thick. Mix to a stiff, semi-dry consistency (refer to bag for mixing hints). Mix ratio may vary dependent upon weight of finish.

**Approximate Coverage As thick bed mortar**

4 m² at 25 mm thick per 1 x 20 L pail of admix and 10 x 20 kg bags mortar.

www.me.laticrete.com | 13
AQUA BARRIER™ is a two part polymer modified cementitious waterproof slurry comprising of a liquid polymer part and cement based powder part. When mixed together and applied it cures to a flexible elastomeric membrane. It is applied to concrete and masonry water retaining structures to prevent water infiltration.

FEATURES/BENEFITS:

- Excellent Waterproofing.
- Highly Flexible, accommodate thermal movement of substrate.
- Superior Crack-Bridging.
- High resistance to chloride and other salts.
- Breathable - stops water ingress but allows substrate to breathe.
- Superb adhesion with substrates.
- Protects against carbonation.
- Use with Aqua Barrier Net for waterproofing balconies, basins, terrace, swimming pools and areas under stress.

PACKAGING:

White Liquid (part A) = 8 Kg Nett.
Grey powder (part B) = 20 Kg Nett.
Total Pack Weight = 28 Kg Nett.

Color (Mixed): Grey

MIXING:

Pour the liquid into a mixing pail. Add the powder slowly into the liquid while mixing. Use a suitable mixing paddle in a slow speed drill (400 - 600rpm). Mix until a lump-free, slightly viscous slurry is obtained. This should be achieved within 2-3 minutes.

Approximate Coverage

2 Ltr / m² for 2 mm total thickness 250 ft² (23.2 m²)

A thin, load-bearing waterproofing designed specifically for the special requirements of ceramic tile, stone and brick installations. A self-curing liquid rubber polymer and a reinforcing fabric are quickly applied to form a flexible, seamless waterproofing membrane that bonds to a wide variety of substrates.

FEATURES/BENEFITS:

- Industry approved as a shower pan liner
- Provides anti-fracture protection up to 3 mm
- Can be installed using a paint roller or brush
- Non-hazardous; meets LEED and VOC requirements

PACKAGING:

Full Unit:
20 L pail of liquid, 36 units per pallet
1 carton Waterproofing/Anti-Fracture Fabric, packed separately;

Warranty
10 YEAR

Approximate Coverage

Per Full Unit 300 ft² (27.9 m²)
HYDRO BAN®
Standards: ANSI A 118.10 & A 118.12
Refer to Data Sheet 9255.me, 663.0 and 663.5

A thin waterproofing anti-fracture membrane that combines optimum performance and unmatched productivity. HYDRO BAN is rapid drying allowing for a faster tiling time and flood testing in just 2 hours* after final cure, as well as faster flood testing in cold temperatures and over mortar beds. Save yourself time and money, and complete your installations faster with greater ease.

FEATURES/BENEFITS:
- Flood test in 24 hours
- Bonds directly to metal and plastic plumbing fixtures
- No fabric required*
- Anti-fracture protection up to 1/8” (3 mm)
- IAPMO and ICC approved
- E-TAG 022 certified

PACKAGING:
Commercial Unit: 18.9 L pail liquid 36 units per pallet

HYDRO BAN® Standards: ANSI A 118.10 & A 118.12
Refer to Data Sheet 9255.me, 663.0 and 663.5

302 WATERPROOF SLURRY
Standards: EN 14891 Class :C3N OP
Refer to Data Sheets 302.me

302 is a high quality Polymer fortified cementitious waterproofing slurry. This product meets & exceeds requirements for ZDB - Merkblatt / DIN 18156 - 2 IBH.

FEATURES/BENEFITS:
- Excellent bond on the substrates and good adhesion under water impact.
- Smooth & creamy slurry. Easy to apply.
- Ready to use just mix with water.
- Good sealing properties against water under high hydrostatic pressure.
- Good abrasion and scrap resistance. Can withstand foot traffic without protective cover.
- Good climate resistance.
- Rooftop waterproofing and energy saving reflective coating (L 302 White)

PACKAGING:
20 Kg bags, 63 bags per pallet.
Colors: Grey & White

MIXING:
Place clean potable water into a clean pail, Add 302 powder, Use approximately 6 Litres of water for 20 Kg bag of powders. Mix with a slow speed mixer for 5.8 - minutes to a slurry consistency. Allow mix to slake for 5 — 10 minutes. Remix it for 1 minute.

Approximate Coverage (20 Kg bag)

In addition to the conventional means of applying HYDRO BAN®, the airless spraying technique can be used as an alternate means of application. HYDRO BAN can be effectively sprayed to increase productivity up to three times or four times on large projects. Any airless sprayer can be used that will deliver up to 3300 PSI (22.8 MPa) using a maximum tip size of 0.031” (0.79 mm). See TDS 410 for further information on the application of HYDRO BAN with an airless sprayer.

* See Data Sheet 9255.me for complete product information. HYDRO BAN® can be flood tested in 2 hours when cured at 70°F (21°C) or above and 50% R.H. It can be flood tested in 24 hours when cured at 60°F - 68°F (16°C - 20.6°C) and up to 70% R.H. The time to flood testing starts when the second coat has completely cured from a light sage green to a darker olive green color.

¥ Refer to caution section for more information on curing.
170 Sound & Crack Isolation Mat is a high performance acoustical underlayment system that muffles impact noises through ceramic tiles, stone and other hard surfacing materials.

**FEATURES/BENEFITS:**
- Isolates cracks up to 1/8" (3 mm)
- IIC rating – 14 per ASTM E2179
- LIGHT RATING per ASTM C627 (TCNA)
- Contains 89.5% post-consumer recycled content

**PACKAGING:**
- 3mm (thick) - 20 rolls per pallet,
- 5mm (thick) - 18 rolls per pallet.

| Approximate Coverage per roll | 3mm - 13.9 m² | 5mm - 11.15 m² |

---

125 Sound & Crack Adhesive is a superior crack prevention and sound isolation adhesive mortar. 125 Sound & Crack Adhesive is a single component adhesive mortar which takes the place of costly time consuming membrane or mat systems by allowing for faster more effective tile or stone installations.

**FEATURES/BENEFITS:**
- Easy to use—just mix, spread, and set surface materials
- Eliminates the labor, cost, and time associated with peel- and-stick mats, rubber sheets, or liquid and fabric systems
- Passes ANSI A118.12 anti-fracture performance up to 1/8” (3 mm)
- Meets ISO 13007-1 C1ES2 classification
- EXTRA heavy floor rating per ASTM C627 (TCNA)
- Sound control IIC of 17 as tested to ASTM E2179
- Contains 33% post-consumer recycled content

**PACKAGING:**
- 25 lb (11.4 kg) bags; 56 bags per pallet

**MIXING**
Add 2.8 to 3.3 L of water into the pail, add the 11.3 kg of powder, and mix for 2 minutes. Mix with a slow speed mixer to a smooth, trowelable consistency. Allow mortar to slake for 5–10 minutes and remix for an additional minute. Remix without adding any more water or powder. During use, stir occasionally to keep mix fluffy. DO NOT temper with water.

---

170 SOUND & CRACK ISOLATION MAT
Standards: ASTM E2179 ANSI A 118.13
Refer to Data Sheet 170.me

125 SOUND & CRACK ADHESIVE
Standards: ANSI A 118.12, ASTM E2179
Refer to Data Sheet 125.me

Approximate Coverage per 25 lb (11.3 kg) bag
(When back-buttering tile for sound control applications, there will be a significant decrease in coverage).

For all installations requiring sound protection, use a 1/4” x 3/8” (6 mm x 9 mm) or a 1/2” x 1/2” (12 mm x 12 mm) notched trowel along with back-buttering tiles.

For installations requiring only anti-fracture protection, a 1/4” x 1/4” (6 mm x 6 mm) or 1/4” x 3/8” (6 mm x 9 mm) trowel may be used for maximum coverage.

*See Data Sheet 025.0 for complete warranty information.

* See Data Sheet 230.10 for complete warranty information.
SUPERSET is a macromolecule based polymer concentrate to be mixed with water and used with cement for installing ceramic tile, vitrified tile and natural stone using the traditional cement slurry method of installation. It is very economical and works as a great enhancer for cement slurry bonding with tiles and stones removing the need for water curing.

**PACKAGING:**
500ML pouches; 10 pouches per carton, 72 cartons per pallet
Colors: white

**MIXING:**
Only 500 ml to be mixed in water and used with 50 Kg bag of cement
**LATAPOXY® 310 STONE ADHESIVE**

Standards: ANSI A 118.3 EN 12004 & ISO 13007 with a classification of R2T

Refer to Data Sheets 310.me

A strong, two-component epoxy adhesive for spot-bonding large format tile and stone on vertical surfaces. Easier and faster than traditional methods of veneer installation.

**FEATURES/BENEFITS:**
- For interior or approved exterior applications
- Both standard and rapid version for faster curing
- No drilling, cutting kerfs, or setting pins
- Allows for quick plumb adjustment while stone is in place to compensate for uneven walls and stone thickness variations
- Won’t deteriorate over time
- ANSI A118.3 and ISO 13007-1 R2T classification

**PACKAGING:**

**Full Unit Kit:** 10 L: All components packed in one carton
- 5 L Part A pail, 5 L Part B pail
- 32 cartons per pallet, Available in standard and rapid version

**Mini Unit Kit:** 2 gal (8 L): units packed in one carton
- 8 mini jars of Part A 0.5 L, 8 mini jars of Part B 0.5 L, 32 cartons per pallet
- Available in standard and rapid versions

**Cartridge Packs:** 9 L Cartridge Pack (for use in LATAPOXY® 310 Cordless Mixer):
- 15 x 600 ml cartridge packs of Part A and Part B per carton, 27 cartons per pallet, Available in standard and rapid versions

**SHIPPING LIMITATION:** All shipments via ground only, no air shipment allowed.

LATAPOXY® 300 ADHESIVE

A high-strength, three-part, 100% solids epoxy adhesive formulated for chemical-resistant installations of quarry tile, brick, and packing house tile.

FEATURES/BENEFITS:
- Prevents curling of moisture-sensitive marbles and agglomerates
- For mesh mount glass mosaics and resin-backed tile and stone
- Will not stain white or light colored marble
- Meets ANSI A118.3, EN 12004 and ISO 13007-1 R2 classification

PACKAGING:
All components packed in one pail; Net weight - 11.1 Kg, Gross weight - 12.1 Kg; Makes 6.8 L of mortar. 48 pails per pallet.

LATALASTIK

Latalastik is a two component epoxy-polyurethane adhesive modified for installation of ceramic, mosaic and stone when high adhesion and flexibility is required.

FEATURES/BENEFITS:
- High adhesion and flexibility
- Non-slip
- Contain no solvents
- Does not cause deformation of material sensitive to water

PACKAGING:
Pails of 5 kg of Part A and 2 kg of Part B - 60 units per pallet

MIXING
Pour the contents of Part B (hardener) in a clean pail, add part A (resin) and mix with a whisk drill at low speed (about 300 rpm). Mix from the bottom up until to obtain an homogeneous mixture and color. Do not mix different quantity from the batches to avoid any errors in the mixing ratio because it would cause an incorrect hardening.

Approximate Coverage Per cartridge

1 Liter covers approximately 7 - 9m² depending on the porosity of the surface. Varies widely depending on the porosity of the material being treated.

www.me.laticrete.com
Premium one-step, polymer-fortified, thin-set mortar that provides unsurpassed strength and versatility. Ideal for interior, exterior, thin porcelain tile and thin porcelain tile panels, and submerged applications on virtually all substrates and applications. For interior and exterior use.

**FEATURES/BENEFITS:**

- Ideal for gauged (thin) porcelain tile panels
- Exceptional bond strength
- Superior for exterior and submerged applications
- Great for difficult-to-bond porcelain tiles, glass mosaics, large format glass, and large, thin porcelain tile
- Easy to trowel; assures proper coverage on both the substrate and the veneer
- Long open time, allowing flexibility on the job-site
- Exceeds ANSI A118.4, ANSI A 118.11 and ANSI A 118.15 requirements
- Meets ISO 13007-1 C2TES1 P1 classification
- Also available in Rapid Grade

**PACKAGING:**

20 kg bag; 72 bags per pallet
Colors: grey and white

**MIXING:**

Mix approximately 4 L - 4.2 L of water per (20 Kg) bag

*Interior use only.*

335 Premium + Tile Adhesive

Standards: ANSI A 118.4, ANSI A 118.11 & (C2TE S1) EN 12004 / ISO 13007
Refer to Data Sheet 335.me

335 is a high performance, polymer fortified, Flexible, Thixotropic Adhesive for installing Tile & Stone. This product meets and exceeds requirement for ANSI A 118.4, ANSI A 118.11 & Euro Norms (C2TES1) 2004, ISO 13007

**FEATURES/BENEFITS:**
- Proven high performance
- Suitable for Heavy stones and glass mosaic
- Flexible - Smooth and creamy
- Easy to apply - Ready to use just mix with water
- Extended open time
- Water & heat resistant
- Strong bond and durable
- Shock resistance

**PACKAGING:**
20 kg bag; 72 bags per pallet
Colors: grey and white

317 FLOOR & WALL

Standards: Meets ANSI A118.4 strength requirements
Refer to Data Sheet 317.me

This smooth and creamy, sanded thin-set mortar can be used for interior and exterior applications on floors and walls over masonry, concrete, cement backer board, mortar beds and gypsum wallboard* mix with LATICRETE® Latex Admix for exterior use. Meets ANSI A118.4† strength requirements.

FEATURES/BENEFITS:
- Excellent for use in swimming pools, fountains and water features.
- Excellent non-sag formula for wall applications
- Smooth, easy to trowel formula
- Dual purpose, for walls and floors

PACKAGING:
20 kg bag; 72 bags per pallet
Colors: grey and white

315 TILE ADHESIVE

Standards: ANSI A 118.1
Refer to Data Sheet 315.me

315 is a bagged cementitious powder. It is mixed with either water or latex admixture for installing ceramic and Porcelain tiles and stone using the thin-set method of installation for wall and floor*.

FEATURES/BENEFITS:
- High tack – Will hang tile without slippage
- Dual purpose, for walls and floors
- Ready to use, just mix with water except for exterior facades.
- Long open time - when mixed with Latex Admix
- High water resistant - when mixed with Latex Admix
- Strong bond and durable.

PACKAGING:
20 kg bag; 72 bags per pallet
Colors: grey and white

MIXING:
Mix approximately 4.2 L - 4.6 L of LATICRETE® Latex Admix or water per 20 Kg bag.

Warranty

305 is an economical, bagged cementitious powder to be mixed with water for installing Ceramic tile using the thin-set method of installation.

FEATURES/BENEFITS:
- Ready to use, just mix with water.
- Good open time.
- Good bond and durable.

PACKAGING:
20 kg bag; 72 bags per pallet
Colors: grey and white

MIXING:
Mix approximately 4.2 - 4.4 Lit Latex Admix or Water per (20 Kg) bag

4237 Latex Additive is a specially designed latex additive for use with 211 Crete Filler Powder to make high strength latex thin-set bed up to 3 mm and medium bed up to 15 mm mortars. For installing all types of ceramic tile and natural stone and agglomerates.

Also for use with portland cement to make slurry bond coats for mortar beds and with thin set mortars to give improved performance and longer open time.

FEATURES/BENEFITS:
- Designed to be used together
- For installing ceramic tiles, porcelain tiles, adhered masonry veneer, brick, and stone on concrete, brick, block, and masonry surfaces
- Extra heavy service rating per ASTM C627 (TONA)
- Exceeds ANSI A118.4 shear strength
- Can be used in wet and submerged applications
- Available in standard or rapid grades

PACKAGING:
4237 Latex Additive:
20 L pail; 36 pails per pallet.

211 Powder:
20 kg bag; 72 bags per pallet.
Colors: grey or white

MIXING:
For use as a thin-set mortar:
Mixing Ratio approximately 4.6 - 5.0 Lit Latex additive per 20Kg 211 Crete Filler powder.

A one-step polymer fortified tile and stone adhesive specifically formulated for large format regular and ungauged stone or tiles.

**FEATURES/BENEFITS:**

- Build up to 40mm without shrinkage or setting problems
- No need for latex additives
- Premixed — no job site blending of powders required
- Safe-Non-flammable; safe to store and mix
- Economical — saves time and money
- Versatile-wet and dry areas
- Good segregation resistance
- Excellent substrate adhesion and durability

**PACKAGING:**

- 20 kg bag ; 72 bags per pallet
- Colors: grey and white

**MIXING:**

- Mix approximately 3.5-4.0 Lit of water per (20 Kg) bag

STELLAR™ Grout is a ready to use, flexible, UV resistant, hybrid technology, high performance premium grout which offers excellent color uniformity, durability, stain protection, and beautiful grout joints in an easy-to-use, non-sag formula, with no hassle of mixing two packs or any other liquids like water or latex liquid.

FEATURES/BENEFITS:
■ Single Component
■ UV Stable and flexible
■ Non-sag formula for floors and walls
■ Very Easy to install and clean
■ Chemical/stain and temperature resistant
■ No — odor during application
■ Highly Durable

PACKAGING:
5 Kg pail; 60 packs per pallet

See Grout and Sealant Color Chart on page 37 for a list of available colors
Refer to page 38 - 39 for grout coverage.

www.me.laticrete.com | 25
One of the best performing cement-based grouts, for both floors and walls, and joint widths of 1.5 mm to 12 mm.

FEATURES/BENEFITS:
- Consistent color
- The maximum performance available in a cement-based grout
- Contains Kevlar® for strength and durability
- Easy to install; just mix with water—no additive required
- For both interior and exterior applications
- Meets ANSI A118.7
- Meets ISO classification CG2WA

COLORS:
Available in 27 colors. See Grout and Sealant Color Chart on page 68 for a list of available colors

PACKAGING:
10 kg bag, 100 bags per pallet.

MIXING
Approximately 1.5 - 1.9 l of water for per 10 kg bag.

For dense, durable grout joints between 1.5 mm and 9 mm. Designed for use with 1776 Grout Admix Plus or water.

FEATURES/BENEFITS:
- When mixed with 1776 Grout Admix Plus eliminates shading and blotching caused by minerals and organic particles in domestic water
- Extra Heavy service rating per ASTM C627 (TCNA) when mixed with 1776 Grout Admix Plus.
- Uniform color—LATICRETE Grout colors are specially blended to be uniform in color.
- Available in a range of exciting colors that should satisfy even the most discriminating tastes.
- Meets ANSI A118.6 specification
- Meets ANSI A 118.7 when mixed with 1776 Grout Admix Plus

COLORS:
Available in 27 colors. See Grout and Sealant Color Chart on page 68 for a list of available colors

PACKAGING:
10 kg bags; 117 bags per pallet
1 kg bags - 10 bags per cartons, 68 cartons per pallet

MIXING
Approximately 1.8 - 2.0 Lit. of water/1776 Grout Admix Plus per 10 kg bag.
For dense, durable grout joints 3 mm wide or less. Designed for use with 1776 Grout Admix Plus or water.

**FEATURES/BENEFITS:**
- When mixed with 1776 Grout Admix Plus, eliminates shading and blotching caused by minerals and organic particles in domestic water.
- Can be used on soft or polished stones and glass.
- Excellent for wet and dry areas.
- Non-dusting, non-spalling and non-yellowing.
- Non-shrinking and Easy maintenance.
- Easy application and clean-up.
- No pre-soaking or wetting tile.
- Available in a range of exciting non-fading colors for interior and exterior use.
- Meets ANSI A118.6 specification.
- Meets ANSI A118.7 when mixed with 1776 Grout Admix Plus.

**COLORS:**
Available in 27 colors. See Grout and Sealant Color Chart on page 68 for a list of available colors.

**PACKAGING:**
- 10 kg bags; 100 bags per pallet
- 1 kg bags - 10 bags per cartons, 68 cartons per pallet

**MIXING**
Approximately 3.4-3.6 L of water/1776 Grout Admix Plus per 10 kg bag.
For use on floors and walls for color uniformity, durability, and stain resistance.

FEATURES/BENEFITS:
- Easy to use
- Never needs sealing
- Working time - 30 minutes
- Cleanability - 80 minute
- Meets ANSI A118.3 standards
- Adds colorful enhancements to SPECTRALOCK PRO Grout including metallic and “glow-in-the-dark”.

PACKAGING:

Mini Unit: Liquid components, Part C powder, gloves and sponge in one pail (Part A - 0.14 kg, Part B - 0.14 kg, Part C - 1 kg)
6 Pails in one carton and 20 cartons per pallet

Full Unit: Liquid components, Part C powder, gloves, and sponge in one pail (Part A - 0.58 kg, Part B - 0.58 kg, Part C - 4 kg) 48 Pails per pallet

Commercial Unit:
Equals four (4) SPECTRALOCK PRO Grout Full Units
Liquid components, gloves, and sponge in one carton / 44 cartons per pallet
and Four (4) Part C powder in one carton / 44 cartons per pallet

Note: SPECTRALOCK® Grout Part C filler powder required

COLORS:
See Grout and Sealant Color Chart on page 37 for a list of available colors

Approximate Coverage
Refer to page 38 - 39 for grout coverage.
SPECTRALOCK® DAZZLE™

Refer to Data Sheet 256.0
See Price Book

Adds colorful enhancements to SPECTRALOCK® PRO Grout† including metallic and “glow-in-the-dark”.

FEATURES/BENEFITS:
- Unlimited imaginative applications!
- Accentuates interior and exterior walls and floors, plain tile and stone, metallic tiles, glass tiles, mosaics, stone and listellos, pools and spas, bathrooms, hallways, and entryways

PACKAGING:
1 x jar DAZZLE; 2 per carton

COLORS:
- 1270 Lemonade
- 1271 Limeade
- 1272 Pretty In Pink
- 1273 Tangerine
- 1274 Blue Hawaii
- 1275 Purple Haze
- 1276 Ruby Slippers
- 1277 Candied Apple
- 1295 Gold
- 1296 Silver
- 1297 Copper
- 1298 Mother-of-Pearl
- 1299 Glow-in-the-Dark

3701 Mortar Admix is a specially designed latex admixture for use with thin-set mortars, cement grouts, cement mortar beds, and other cement mixes.

**FEATURES/BENEFITS:**
- Greatly improved compressive strength
- Lower water absorption
- Improved adhesion
- More plastic mortars
- Resistant to thermal and seismic shock
- Can be used for repairs and patching concrete

**PACKAGING:**
20 L pail; 36 pails per pallet

**3642 LATEX CONCENTRATE**

Standards: Conforms to ANSI A 118.4 (when mixed with 226 Thick bed mortar)

Refer to Data Sheet 3642.me

LATAPOXY® 2000 Industrial Epoxy Grout is a highly chemical resistant industrial grade epoxy grout for: ceramic tile, pavers, floor brick, packing house tile, and stone. 2000 Industrial Epoxy Grout is supplied as factory proportioned kits consisting of epoxy resin, hardener, and silica filler.

**FEATURES/BENEFITS:**
- High chemical resistance
- Improved temperature resistance
- Maximum physical strength
- Equipped with anti-microbial technology
- Highly resistant to bacteria attack
- Exceeds ANSI 118.3 (Epoxy) and ANSI 118.5 (Furan) performance requirements
- Water cleanable & Fast curing
- Cures at low temperature

**PACKAGING:**
11.8 Kg (Gross) pail; 36 pails per pallet

10 YEAR Warranty

**MIXING**
Pour 2000 Industrial Epoxy Grout Part A and Part B into a clean mixing pail and mix thoroughly by hand or with a slow speed mixer (<300 RPM) until liquids are completely blended.

**Approximate Coverage**
Refer to page 38 - 39 for grout coverage.
A 100% silicone sealant for use in coves, corners, changes in plane, and expansion joints in exterior and interior applications of tile and stone.

**FEATURES/BENEFITS:**
- Can be used in swimming pools and other wet areas
- Conforms to ASTM C920 and ASTM C794 adhesion properties
- Ideal for bathrooms, kitchens, floors and other areas where sealant (caulk) is needed

**COLORS:**
Available in 40 colors. See Grout and Sealant Color Chart on page 68 for a list of available colors

**PACKAGING:**
305 ml cartridges
6 cartridges per carton, 240 cartons per pallet

---

**LATASIL™ 9118 PRIMER**
Refer to Data Sheet 6528.1
9118-0601-2

Increases adhesion for porous stone, submerged, and permanent wet areas.

**FEATURES/BENEFITS:**
- Ultimate bond for decorative wear surfaces
- Easily roller applied
- Provides a barrier between decorative wear surfaces and substrate below
- Required for applications where LATASIL™ will be used with porous stone, submerged and permanent wet areas

**PACKAGING:**
240 ml bottle; 5 bottles per carton; 50 cartons per pallet

---

190 Sealer, commonly used for porous surfaces, is an invisible, penetrating sealer that protects against stains, soiling, discoloration and efflorescence. The clear, non-flammable solution will turn to an invisible water repellant coating when cured. When used on grout joints, brick masonry or porous tile it will reduce staining and water absorption. Will not change the color of the tile, masonry or grout.

**FEATURES/BENEFITS:**
- Protects grout joints against soil and stains
- Reduces water absorption of tile grout, mortar, ceramic tile, brick & stone.
- Seals and protects grout, tile, quarry tile, brick and stone.
- Weather resistant — protects tile and brick installations from weather and frost.
- Easy to apply — no special tools required.
- Water base — non-flammable.

**PACKAGING:**
20 L pail; 36 pails per pallet
Also available in 1 Ltr bottle, 10 Bottles in 1 carton

LATAFINISH WALL PUTTY
GREY COARSE & WHITE FINE FINISHES
Refer to Data Sheet 5100.me

**NEW!**

**LATAFINISH WALL PUTTY**

**GREY COARSE & WHITE FINE FINISHES**

190 SEALER
Refer to Data Sheet 190.me

**LATAFINISH Grey Coarse Finish Wall Putty** is a cement based powder. After mixing with recommended quantity of water it forms a paste, which is used as a base coat. It covers surface unevenness and can be used as a layer before using LATAFINISH Wall Putty fine finish.

**Approximate Coverage:**
3 to 4 Sq.ft. (0.28 to 0.37 m²) per Kg of Powder when mixed with water, for total approximate thickness of 3 mm.
(20Kg bag of Powder will cover 5.6 to 7.4 m²)

**FEATURES/BENEFITS:**
- Smooth Finish
- Non-Flaking
- Prevents growth of fungus & algae
- Increases Paint coverage
- Strong adhesion strength
- No primer needed before applying paint

**PACKAGING:**
20 kg Bag — 72 bags per pallet
Color: White & Grey

**COARSE FINISH**

LATAFINISH Grey Coarse Finish Wall Putty is a cement based powder. After mixing with recommended quantity of water it forms a paste, which is used as a base coat. It covers surface unevenness and can be used as a layer before using LATAFINISH Wall Putty fine finish.

**Approximate Coverage:**
3 to 4 Sq.ft. (0.28 to 0.37 m²) per Kg of Powder when mixed with water, for total approximate thickness of 3 mm.
(20Kg bag of Powder will cover 5.6 to 7.4 m²)

**FINE FINISH**

LATAFINISH Wall Putty is water resistant white cement based fine powder. After mixing with recommended quantity of water it forms a fine paste, which provides a very fine finish to walls and ceiling, ideal for use on Plastered / concrete walls and ceilings. It covers unevenness & pinholes of walls and provides smooth finish dry surfaces for painting.

**Approximate Coverage:**
12 to 15 Sq.ft. (i.e. 1.1 to 1.4 Sq. M) per Kg of Powder when mixed with water, for total approximate thickness of 1.5 mm in two coats.
(20Kg bag of Powder will cover 22 to 28 Sq. M.)

www.me.laticrete.com
**PRODUCTS ON DEMAND**

**9237 WATERPROOFING MEMBRANE**
Refer to Data Sheet 9237.me

A liquid rubber waterproofing designed for use under ceramic tile and stone in intermittent wet areas such as bathrooms spas and kitchens

**FEATURES/BENEFITS:**
- Fast & Easy to install - applies like paint
- Water cleanable when fresh
- Non-flammable
- Proven history
- Non-toxic & Low odor

**290 PREMIUM FLOOR & WALL**
Refer to Data Sheet 290.me

290 Premium Floor n’ Wall Thin Set Mortar™ is a high performance bagged cementitious powder to be mixed with either water or latex admixture to install ceramic tile and natural stone using the thin-set method of installation.

**FEATURES/BENEFITS:**
- High Tack - Will hang tile without slippage
- Dual purpose, for walls and floors
- Safe-non-flammable and non-toxic during storage, application and after hardening
- Easy to Use - Plastic, workable and long open time
- High Bond Strength - 200% stronger than mastic type adhesives

**15 PREMIUM MULTI MASTIC ADHESIVE**
Refer to Data Sheet 15.me

A premixed, white, water-resistant premium latex adhesive for use on both floor and wall tile installations. Spreads easily and provides fast grab. Water cleanable and low odor.

**FEATURES/BENEFITS:**
- Creamy and smooth
- For installations over cement backer board**, gypsum wallboard, and exterior glue plywood^*
- Water-resistant
- Exceeds ANSI A136.1 Type 1 and Type 2 requirements

**73 CRETE ADMIX**
Refer to Data Sheet 73.me

73 Crete Admix is a latex admix used in place of water in Portland cement/sand mixes. Tile setting mortars made with 73 Crete Admix are more flexible and are stronger than conventional Portland cement mortars. This strong bond is especially important when vitreous and semi-vitreous tiles are installed.

**FEATURES/BENEFITS:**
- Non-flammable
- Increased flexibility
- Improved impact resistance
- Suitable for factories and loading areas
- The shock and impact resistance, it gives the setting bed

* **Interior and Exterior**

[www.me.laticrete.com](http://www.me.laticrete.com)
**282 GROUT AND MORTAR FORTIFIER**  
Refer to Data Sheet 282.me

282 Grout & Mortar Fortifier is a special latex additive for tile grouts, thin-set mortars, and cement mortar beds. Add 282 Grout & Mortar Fortifier to dry thin set mortars and grouts in place of water to improve the physical properties of the grout or mortar. A simple and economical way to make permanent, problem free installations.

**FEATURES/BENEFITS:**
- Cleans easily with water
- Safe, non-flammable, non-hazardous
- Easy Application

**LATAPOXY® SP - 100**  
Refer to Data Sheet 100.me

SP-100 is a stainless, color-fast epoxy grout specifically designed for use in floor and wall applications of ceramic tile, stone and structural glazed block. Ideal for residential kitchens, bathrooms, foyers, as well as cafeterias, institutional facilities, swimming pools, spas, rest rooms and schools.

**FEATURES/BENEFITS:**
- Sag Resistant—will not sag when used in wide joints up to 1/2" (12 mm).
- Easy to Apply—smooth and creamy.
- Uniform Color—resists blotching.
- Chemical Resistant—100% solids epoxy resists many acids, alkalis and corrosives.
- Durable—will not peel, crack or powder

**COLORS / COVERAGE**
See Grout and Sealant Color Chart on page 37 for a list of available colors
Refer to page 38 - 39 for grout coverage.

**211 CRETE FILLER POWDER S2 WITH 4237 THIN-SET ADDITIVE / RAPID**  
Standards: C2TE S2 / C2FT S2  
Refer to Data Sheet 100.me

4237 Rapid Latex Additive S2 is a specially designed latex additive for use with 211 Crete Filler Powder S2 to make high strength latex thin-set bed up to 3 mm thick and medium bed up to 15 mm thick mortars. For installing all types of ceramic tile, natural stone and agglomerates. Also for use with Portland cement to make slurry bond coats for mortar beds and for use with thin set adhesives to give improved performance.

**FEATURES/BENEFITS:**
- High strength
- Rapid setting
- Weather resistant
- Available in standards or rapid grades
Pool tiles come in thousands of colors. Now your grout does too.

With PERMACOLOR® Select ANYCOLOR™, we can match your grout to over 10,000 colors available in the Benjamin Moore® and Sherwin-Williams® palettes.

COLORS:
Available in 40 colors. See Grout and Sealant Color Chart on page 68 for a list of available colors

PACKAGING:
PERMACOLOR Select Grout Base:
11.3 kg and 5.6 kg plastic bags
PERMACOLOR Color Kit: Available in all 40 colors (10 x carton) plus top competitor colors!
Each PERMACOLOR Select Color Kit contains 2 Color Packets

PERMACOLOR® Select™ is an advanced high performance cement grout that offers the industry’s first dispersable dry pigment solution. PERMACOLOR Select is designed for virtually all types of residential and commercial installations and offers optimum performance on the most demanding exterior or interior applications. Easy to mix, grout, and clean, PERMACOLOR Select is fast setting and is suitable for joints 1/16” to 1/2" (1.5 mm - 12 mm) wide on floors or walls.

FEATURES/BENEFITS:
- Exceeds ANSI A118.7 and Achieves ISO 13007-3 CG2WAF
- No sealing required—equipped with STONETECH® Sealer Technology
- Vibrant consistent color—resists efflorescence
- Reinforced with Kevlar®—crack and shrink-resistant
- Fast setting—ready for foot traffic in as little as 3 hours

Each PERMACOLOR® Select Color Kit contains two Color Packets. Use 2 Color Packets when mixing with 25 lb (11.3 kg) PERMACOLOR Select
Use 1 Color Packet when mixing with 12.5 lb (5.7 kg) PERMACOLOR Select

With PERMACOLOR® Select ANYCOLOR™, we can match your grout to over 10,000 colors available in the Benjamin Moore® and Sherwin-Williams® palettes.

**Grout and Sealant Color Guidelines:** Grout and sealant color samples are guides only. LATICRETE does not warrant color matching to this color chart or to any color guide produced. Actual shade and texture will depend on job site conditions, lighting, installation techniques and types of tile or stone used, and may vary from this grout color chart, grout color channel kits and grout color swatch on product packaging. Verify actual appearance and compatibility with a test area before installing. Blend grouts with different control numbers. Follow ANSI A108.10/Materials and Methods Standards Association (MMISA) Bulletin #9. No claims for color shade variations will be honored.

**Available in Selected Colors:**

- Spectrolock® PRO Grout / SP 100
- Permacolor® Select and Permacolor® Grout
- Stellar
- Premium Acrylic Caulk (Shaded & Unshaded)
- 1500 Sandblasted Grout (1 kg & 10 kg)
- 1600 Unsealed Grout (1 kg & 10 kg)

*www.me.laticrete.com*
Calculated coverage indicated is approximate, based on “nominal” tile size and is provided for purposes of estimation only. Actual coverage will vary depending on job site conditions, actual tile size and installed grout joint size. Add 10% for waste, spillage and clean-up, and another 10% – 15% when grouting unglazed quarry tile. Expanded coverage tables at www.laticrete.com/coverage.
Our System is Flexible to the Demands of Your Job.

The LATICRETE® SUPERCAP® System combines our industry leading, patented pump truck technology and innovative products to deliver perfectly flat, dry floors.

Refer to the Flooring Catalogue to know more about our LATICRETE® SUPERCAP® products.

www.me.laticrete.com
LATICRETE® Resinous Flooring

Beautiful, Durable, Resinous Flooring, Engineered for long-term superior performance...

LATICRETE® polyaspartic floor coating systems are designed to meet the needs of the most demanding heavy-traffic environments.

- Seamless and impermeable coatings
- Low VOC and low odor systems
- Excellent abrasion resistance
- Fast return to service
- Non-slip textures

E - Recommended for Exterior & Interior  
I - Recommended for Interior  
N - Not recommended

1. Structurally sound, clean, free of dust, laitance, dirt, oil, grease, wax, sealers and curing compounds; maximum deflection under all loads L/360 for ceramic tile/brick or L/480 for stone w/L=length of span; concrete must be 28 days old w/7 day damp cure unless using a LATICRETE® premium latex fortified thin-set mortar.
2. For existing resilient flooring, ceramic tile, terrazzo and non-water soluble cutoff adhesive — see Technical Data Sheet 135.
3. For proper plywood floor construction see Technical Data Sheet 152.
4. Exterior use requires gauging with 3701 Mortar Admix. (Residential and light commercial installations that are not continuously submerged)
5. Use as a reinforced mortar bed or scratch coat with cleavage membrane over these substrates.
6. Exterior use limited to residential and light commercial installations that are not continuously submerged.

7. Requires gauging with 3701 Mortar Admix.
8. Requires gauging with Admix & Primer.
9. Requires gauging with a LATICRETE latex additive (see recommended combination) for all applications.
10. All concrete surfaces must be shot-blasted or mechanically abraded to ensure curing compounds, sealers, or other potential bond breakers are removed.
11. Mechanically fasten 3.4# galvanized diamond metal lath over entire substrate prior to priming.
* Horizontal use only.
** Skim coat existing ceramic tile, stone or portland cement terrazzo with a latex thin-bed mortar first.
^^ Consult LATICRETE Technical Services Department for these substrates.
† Consult LATICRETE Technical Services Department for exterior applications.

In Kenya’s capital city, stands a new icon that is a sign of a fast developing nation and one that is keen to propel Kenya into the future.

Situated in Nairobi, the Tow Rivers mall, which opened just in time for Valentine’s Day, is the largest retail shopping mall of its kind, across east and central Africa. Originally planned to cover a total area of 1.2 million square feet of land, this was later reviewed and increased to 1.7 million square feet. This was done to increase the lettable retail space to over 700,000 square feet.

Housed within this mall, French retail giant Carrefour has open its biggest store in Kenya, with 10,000 square meters floor space. The main contractor for the Carrefour supermarket was Laxmanbhai Construction Ltd. and working with Mr. Arvind Raghwani, Director at Laxmanbhai Construction, LATICRETE Africa provided a host of products for tile installations within the scope of the Carrefour project.

PRODUCT USED:

- 254 PLATINUM
- 325 PREMIUM TILE ADHESIVE
- SPECTRALOCK® PRO GROUT
- LATAPOXY® 2000 INDUSTRIAL EPOXY GROUT
- PERMACOLOR® GROUT

Check out the full story on www.laticrete.me
LATAFINISH WALL PUTTY
FINE & COARSE FINISHES

Coarse Finish  Fine Finish

- SMOOTH FINISH
- NON - FLAKING
- PREVENTS GROWTH OF FUNGUS & ALGAE
- INCREASES PAINT COVERAGE
- STRONG ADHESION STRENGTH
- NO PRIMER NEEDED BEFORE APPLYING PAINT

LATAFINISH Wall Putty is water resistant white cement based fine powder. After mixing with recommended quantity of water it forms a fine paste, which provides a very fine finish to walls and ceiling, ideal for use on Plastered / concrete walls and ceilings. It covers unevenness & pinholes of walls and provides smooth finish dry surfaces for painting.

LATAFINISH Grey Coarse Finish Wall Putty is a cement based powder. After mixing with recommended quantity of water it forms a paste, which is used as a base coat. It covers surface unevenness and can be used as a layer before using LATAFINISH Wall Putty fine finish.

The Burj Khalifa has been the tallest structure and building in the world since its topping out in late 2008. Construction of the Burj Khalifa began in 2004, with the exterior completed five years later in 2009. The primary structure is reinforced concrete. The building was opened in 2010 as part of a new development called Downtown Dubai. It is designed to be the centrepiece of large-scale, mixed-use development. The decision to construct the building is reportedly based on the government’s decision to diversify from an oil-based economy, and for Dubai to gain international recognition.

The developers of this landmark wanted the best construction products and contractors in the industry. LATICRETE was chosen to supply large quantities of its adhesives and grouts as well as its waterproof membrane for various areas of the Burj Khalifa,
