LATICRETE

SAFETY DATA SHEET

1. Identification

Product identifier LATAPOXY® 310 Stone Adhesive Part A Cartridge

Other means of identification None.

Recommended use Adhesive.

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer:	Importer/ Supplier/ Distributor information: Company
LATICRETE	LATICRETE Middle East LLC
International.	P.O. Box. 86028, Ras Al Khaimah,
1 Laticrete Park N.	United Arab Emirates
Bethany CT 06524	Phone: +971 7 244 6396
PHONE:203-393-0010 Chemtrec 1.800.424.9300	Contact Person : Mohmed Rafiq. M

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Skin corrosion/irritation Category 1B

Serious eye damage/eye irritation Category 1
Sensitization, skin Category 1

Reproductive toxicity Category 2

Environmental hazards

Hazardous to the aquatic environment, acute Category 2

hazard

Hazardous to the aquatic environment, Category 2

long-term hazard

Label elements

Signal word Danger

Hazard statement Causes severe skin burns and eye damage. May cause an allergic skin reaction. Suspected of

damaging fertility or the unborn child. Toxic to aquatic life with long lasting effects.

Precautionary statements

Prevention Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after

handling. Contaminated work clothing should not be allowed out of the workplace. Obtain special

instructions before use. Do not handle until all safety precautions have been read and

understood. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid release to the environment.

Response IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off

immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to

do. Continue rinsing. Immediately call a POISON CENTRE/doctor. Collect spillage.

Storage Store locked up

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards None known.

SDS ME

3. Composition/information on ingredients

Mixtures

emical name	CAS number	%
Calcium carbonate, synthetic	471-34-1	20 - 22
Nonyl Phenol	84852-15-3	5 - 7
Fatty acids, tall-oil, reaction products with tetraethylenepentamine	68953-36-6	3 - 4
4,4'-Methylenebis(cyclohexyla mine)	1761-71-3	1 - 2
Tetraethylene pentamine	112-57-2	0.5 - 1.5

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if any discomfort continues.

Skin contact

Take off immediately all contaminated clothing. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse. Get medical attention immediately.

Eve contact Immediately flush

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion

Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content

doesn't get into the lungs. Get medical attention if any discomfort continues.

Most important symptoms/effects, acute and delayed Rash. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Indication of immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Symptoms may be delayed. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital.

General information

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing media

Alcohol resistant foam. Water fog. Dry chemical powder. Carbon dioxide (CO2).

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

Heating may cause the release of ammonia vapors.

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions

General fire hazards

In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers.

No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills in original containers for re-use. For waste disposal, see Section 13 of the SDS.

Environmental precautions

Avoid release to the environment. Do not discharge into drains, water courses or onto the ground.

Environmental manager must be informed of all major releases.

7. Handling and storage

Precautions for safe handling Do not handle until all safety precautions have been read and understood. Do not breathe mist or

vapour. Do not get in eyes, on skin, on clothing. Persons susceptible for allergic reactions should not handle this product. Use with adequate ventilation. Wear appropriate personal protective

equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

 $\label{thm:container} \textbf{Keep container tightly closed. Store in a cool and well-ventilated place. Store away from $(V_{\rm cool})$ and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are the store of the cool and $(V_{\rm cool})$ are th$

ities incompatible materials.

8. Exposure controls/personal protection

Occupational exposure limits

Canada. Alberta OELs (Occupational Health & Safety Code, Schedule 1, Table 2)

ComponentsTypeValueCalcium carbonate,
synthetic (CAS 471-34-1)TWA10 mg/m3

 Canada. Quebec OELs. (Ministry of Labor - Regulation respecting occupational health and safety)

 Total dust.

synthetic (CAS 471-34-1)

No biological exposure limits noted for the ingredient(s).

Biological limit values
Appropriate engineering
controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles). Face-shield. Wear a full-face respirator, if

needed.

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other Wear appropriate chemical resistant clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Physical state Solid. Paste. Form Colour Light red. Ammonia. Odour **Odour threshold** Not available. Not applicable. Not applicable. Melting point/freezing point Initial boiling point and boiling Not available. range

Non flammable. Flash point **Evaporation rate** Not applicable. Flammability (solid, gas) Not available. Upper/lower flammability or explosive limits

Flammability limit - lower

Not available.

Flammability limit - upper

(%)

Not available.

Vapour pressure Not applicable. Vapour density Not applicable. 1.5 g/ml

Relative density

Solubility(ies)

Solubility (water) Insoluble. Partition coefficient Not available.

(n-octanol/water)

Not available. **Auto-ignition temperature Decomposition temperature** Not available. Not available. Viscosity

10. Stability and reactivity

Reactivity Corrosive to certain metals. Copper Aluminium. Zinc.

Chemical stability Material is stable under normal conditions.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Heat, flames and sparks. Contact with incompatible materials.

Alkali metals. Oxidizing agents. Strong acids. Incompatible materials

Hazardous decomposition

products

Carbon dioxide (CO2). Carbon monoxide. Nitrogen oxides.

11. Toxicological information

Information on likely routes of exposure

Inhalation May cause respiratory irritation.

Skin contact Causes skin burns. May cause an allergic skin reaction.

Eye contact Causes serious eye damage.

Ingestion May cause burns of the gastrointestinal tract if swallowed.

Symptoms related to the physical, chemical and toxicological characteristics Rash. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling, and blurred

vision. Permanent eye damage including blindness could result.

Information on toxicological effects

May cause discomfort if swallowed. Acute toxicity

Skin corrosion/irritation Causes severe skin burns and eye damage.

Serious eye damage/eye

irritation

Causes serious eye damage.

Respiratory or skin sensitisation Canada - Alberta OELs: Irritant

> Irritant Calcium carbonate, synthetic (CAS 471-34-1)

No data available. Respiratory sensitisation

Skin sensitisation May cause an allergic skin reaction.

No data available to indicate product or any components present at greater than 0.1% are Germ cell mutagenicity

mutagenic or genotoxic.

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. Carcinogenicity

Suspected of damaging fertility or the unborn child. Reproductive toxicity

Specific target organ toxicity -

single exposure

No data available.

Specific target organ toxicity -

repeated exposure

No data available.

Aspiration hazard Not classified. No data available. **Chronic effects**

12. Ecological information

Toxic to aquatic life with long lasting effects. **Ecotoxicity**

Persistence and degradability No data is available on the degradability of this product.

No data available for this product. Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

Tetraethylene pentamine (CAS 112-57-2) 1.503

Not available. Mobility in soil

Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructionsCollect and reclaim or dispose in sealed containers at licensed waste disposal site. This material

and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international

regulations.

Local disposal regulations Dispose of in accordance with local regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal.

Since emptied containers may retain product residue, follow label warnings even after container is

emptied.

14. Transport information
