

Introducing LATICRETE® Hydro Ban™

LATICRETE® Hydro Ban™ is a thin load bearing waterproofing and anti fracture membrane that combines optimum performance and unmatched productivity. LATICRETE Hydro Ban does not require the use of fabric in the field, coves or corners plus it bonds directly to drains and pipe penetrations allowing for increased productivity and faster installation time! In addition, LATICRETE Hydro Ban allows for flood testing in only 24 hours and is backed by a 10 Year System Warranty. With four decades of waterproofing experience, you can trust in LATICRETE on your next project.

LATICRETE Hydro Ban Features:

- No fabric required*
- Flood test in 24 hours*
- Bonds directly to Copper, Steel, Stainless Steel and PVC
- Single component
- Paint Brush, Roller or trowel applied
- Lighter color for easier inspection
- Foot traffic in 4-6 hours
- Prevents the growth of stain causing mold and mildew growth with Microban® antimicrobial protection

*see DS 663.0 for specific information

LATICRETE Hydro Ban can be used for interior and exterior residential and commercial installations as well as continuously submersed applications such as swimming pools, fountains & spas. It can be applied over all common building substrates with unmatched adhesion when compared to the competition.

LATICRETE is a global leader in the manufacture of environmentally responsible tile and stone installation systems. Produced and available in major population centers worldwide, the LATICRETE brand is known, respected and trusted for industry leading innovation and superior technical support.
