191 SCHLUTER SYSTEMS' NEW PROFILES

### Schluter creates two new countertop profiles

Schluter Systems has released two new countertop profiles, the Rondec-CT and Dilex-AHK. The Rondec-CT is a double-rail edging profile featuring a recessed section with dove-tailed grooves for field or accent tile bonding. The Dilex-AHK is a cove-base profile for countertop/back-splash transitions, inside wall corners and floor/wall transitions with strict hygienic requirements, Schluter says. *Circle 191 on the Reader Inquiry Card.*

197 MAPEI'S ULTRALITE MORTAR

### MAPEI presents its new Ultralite mortar

MAPEI introduces its latest tile and stone installation product with Ultralite mortar, designed to replace mastics as well as thin set, medium-bed and non-sag mortars. Ultralite mortar uses Easy Glide Technology for superior troweling and reduced fatigue, according to the company. The mortar incorporates BioBlock mold and mildew inhibitor. *Circle 197 on the Reader Inquiry Card.*

193 LATICRETE'S STONE SOLUTIONS

### Laticrete premieres Stone Solutions installation system

Laticrete International has created the Stone Solutions installation system, which features Latapoxy 310 Stone Adhesive, the Latapoxy 310 Cordless Mixer and a variety of thin-bed adhesives designed for ceramic tile and stone installations for both commercial and residential applications. The system uses Laticrete's SpectraLOCK grout, which is designed to help provide vibrant, consistent color with no shading, blotching or cracking. *Circle 193 on the Reader Inquiry Card.*

187 SUMMITVILLE TILES' LANDMARK SERIES

### Summitville Tiles debuts Landmark series to Thin Brick line

Summitville Tiles introduces the Landmark series, five new color blends as part of the company's Thin Brick line. This addition offers a rustic, handcrafted look to building brick surfaces. Thin Brick is made from select clays and shale, and can be installed in multiple ways, according to the company. *Circle 187 on the Reader Inquiry Card.*

195 CUSTOM BUILDING PRODUCTS' PRISM SURECOLOR GROUT

### Custom Building Products debuts Prism SureColor Grout

Custom Building Products has unveiled Prism SureColor Grout, a cement-based grout using the company's CustomLite lightweight technology. Prism SureColor is formulated to eliminate efflorescence and shading, regardless of environmental conditions or type of tile, Custom says. *Circle 195 on the Reader Inquiry Card.*

189 TEC'S 1FLEX CRACK ISOLATION MORTAR

### TEC introduces fast-set version of 1Flex Crack Isolation Mortar

TEC introduces a new, fast-set version of the company's 1Flex Crack Isolation Mortar, delivering the properties of both a one-step, crack-isolation system and a fast-setting mortar with a high performance bond, according to TEC. 1Flex Fast Set is designed to help provide an outstanding bond with virtually all ceramic and natural stone tile. It also carries a heavy duty commercial floor rating. *Circle 189 on the Reader Inquiry Card.*
