150-Year-Old Cathedral of the Holy Cross Receives First-Ever Renovation

The Cathedral of the Holy Cross has been a staple in Boston’s Catholic community and has played host to many significant events in U.S. history including 1964’s requiem mass to mourn the assassination of President John F. Kennedy, Pope John Paul II’s first trip to the United States in 1979 and an interfaith service where President Obama addressed the nation after the 2013 Boston Marathon bombing.

Generations of use had taken a toll on the cathedral and with any historic structure, the renovation process can be full of surprises. The project teams needed to be capable of creatively finding solutions that could repair any bumps that came up along the way with ease and respect to the original building.

The flooring portion of this project included the installation of 20,000 square feet (1,858 m²) of 18” x 18” (45.7 x 45.7 cm) tile and the floor needed to be perfectly flat. By using a combination of STRATA™, NXT® and HYDRO BAN® Board, the installers were able to level the floor, set the subfloor and set the tile.

Most of the products selected for use have received multiple certifications and declarations for sustainable living, including Health Product Declarations (HPD), Environmental Product Declarations (EPD) and UL GREENGUARD Certifications for low chemical emissions.

PRODUCT USED:
STRATA™, SPECTRALOCK® PRO Premium Grout®, HYDRO BAN Board, PERMACOLOR® Select®, MULTIMAX™ Lite, NXT Level

The TWA Hotel at New York’s JFK Airport Soars to New Heights

If any one word describes the old TWA terminal at New York’s John F. Kennedy International Airport, it is “cool.” Constructed in 1962, under the auspices of architect Eero Saarinen and Howard Hughes (the film maven dubbed “The Jovial Gentleman”), the TWA Flight Center evoked every element of 1960s style and the dawn of the jet age. The terminal was designated a New York City Landmark and is on the National Register of Historic Places.

The original Flight Center is flanked by two new low-rise hotel buildings with 512 guestrooms. The TWA Flight Center is the only hotel inside JFK. The project general contractor, Burner Construction – New York, turned to Pyramid Floor Covering and the LATICRETE SUPERCAP System to help with both delivering flat floors to build out on and to save critical time.

Construction supervisors describe, “JFK is a very complex location to operate in, we have to work with the Port Authority and Jet Blue all day, every day to get materials, equipment and manpower in and out of the plotline. It’s a mountain of planning and logistics. Having LATICRETE SUPERCAP has shortened our logistics challenge tremendously. No fixed stationary pumps, no hand mixing, no small bags, no waste, and we’re compliant with the new OSHA responsible crystalline silica rules, that helps keep our workers and plotline safe. It allows all the following trades to get back on the floor the next day. They are a nimble team, in and out with virtually no disruption. That’s not the norm on a construction site, the time savings are tremendous, the payback is savings weeks and even months on our schedule.”

The SUPERCAP System combines LEED contributing, GREENGUARD certified, low alkali, self-healing cement-based technology with a computer-controlled mobile blending unit.

For over 65 years, LATICRETE has led the industry with pioneering advancements — developing high-performance building materials for architects and construction professionals worldwide. From time-tested to ground-breaking, our broad product portfolio provides superior quality and value. We are fully committed to innovation, growth, and a complete system component approach.

Tile & Stone Installation and Care Systems

Ensure a successful installation each and every time with the most comprehensive assortment of innovative tile and stone installation materials available worldwide. LATICRETE® industry-leading products provide complete system solutions from the substrate up through the grout for virtually any type of tile or stone installation in commercial, industrial, and residential applications.

Product categories include surface preparation, waterproofing, sound control, anti-fracture, adhesives, grouts, sealers and cleaners, and shower system components—all designed to work together, providing a comprehensive installation.

CSI Division 9

Masonry Installation and Care Systems

Keep up with the increasing popularity of adhered masonry veneers. Trust your installations to a complete productivity-boosting system designed to deliver superior, long-term performance on masonry projects of all types including residential, commercial, and industrial applications.

Unlike traditional methods and materials, the Masonry Veneer Installation System (MVIS™) is engineered to provide a permanent, high-strength installation that uses a revolutionary waterproofing air and water barrier membrane to provide a barrier against air and water penetration into the structure. The MVIS is designed for thin-brick, manufactured stone and natural stone veneers for interior and exterior applications. Complementary products include sealers and cleaners for stone and pavers.

CSI Divisions 4 & 7

Resinous/Decorative Finishes

Offer unparalleled integral colors, textures, and finishes with high-performance coatings, overlays, and restoration solutions that give owners exceptionally attractive, durable, decorative floors. LATICRETE decorative finishes allow you to deliver vivid color and gloss with high impact and wear resistance, quick turnaround, and low maintenance.

CSI Divisions 3 & 9
Surface Preparation

A quality finished floor starts with a properly prepared surface—one that guarantees a long-lasting, durable installation. LATICRETE time-tested surface preparation products are formulated to preserve quality by protecting installations from water vapor transmission, sound transmission, and cracks. They provide a perfectly level substrate to accommodate a variety of floor finishes including vinyl, wood, carpet, and tile.

Our innovative products are engineered to ensure substrates will easily accept finishes with minimal time and maximum cost-effectiveness, no matter how challenging your subflooring project may be.

CSI Divisions 3 & 9

SUPERCAP® System

The SUPERCAP® System is a time-saving, cost-effective method for finishing new concrete or capping existing slabs by combining a LEED-contributing, UL GREENGUARD Gold Certified, low-alkali, self-leveling, cement-based technology with a patented computer-controlled mobile blending unit (pump truck).

This proven Lean tool provides benefits right from the start of concrete placement in division 3 and flows through to division 9. With the ability to blend 30,000 pounds (13,608 kg) per hour and deliver material up to 50 stories high, this revolutionary system benefits the entire project by providing predictable results that save time and money, and while improving overall quality.

CSI Division 3 & 9

Industry-Leading Training and Support

UL GREENGUARD Gold Certification

LATICRETE® low-VOC products are independently certified. Our products help you contribute toward LEED certification.

LEED Support

Our online project certification tool automatically generates required LATICRETE product information for your specific LEED project submittals. Additional LEED information and calculations are available at laticrete.ecoscorecard.com.

LATICRETE Architectural Guidebook

Use this informative online tool to get complete specifications and details for your projects. You can access it at: www.laticrete.com/ag

Training and Education

LATICRETE Training Classes and Continuing Education Classes are available through various platforms. Check our website regularly for the latest offerings and updates at: www.laticrete.com/training.

Antimicrobial technology protects the treated article against mold and mildew deterioration. Antimicrobial technology is not designed to replace normal cleaning practices or protect users.
Learn Industry Standards from Experts in the Field and from the Comfort of your Home or Office.

LATICRETE offers intensive training programs that were specifically developed for industry distributors, dealers and other industry professionals. Programs are offered through multiple platforms:

- **LATICRETE Profit Through Knowledge (PTK)** classes held at LATICRETE Technical Training Centers throughout the US (in person training classes through LATICRETE Technical Services)
- **LATICRETE Profit Through Knowledge Webinars**
- **LATICRETE Connectados & Connectados PLUS Global Training Webinars**
- **LATICRETE University**
    - **LATICRETE Product Knowledge (PK) seminars** are available locally through your LATICRETE Technical Sales Representatives. Contact your local LATICRETE Technical Sales Representative for additional information.

Check www.laticrete.com/training for more information.

**BENEFITS**

- Expand knowledge of how to select and recommend the most suitable installation materials
- Increase knowledge of LATICRETE® products
- Learn trade definitions, performance requirements, and industry standards
- Learn how to solve and avoid job problems
- Participate in hands-on product demonstrations

**SEMINAR LOCATION**

LATICRETE Technical Training Centers are located throughout the US at various LATICRETE office locations. Check our web site regularly for class information and locations.

**PROGRAM INCLUDES**

Tile, Stone, Masonry Veneer Installation Systems, Resinous Flooring, Surface Preparation and Construction Chemical industry installation methodology and respective LATICRETE Product knowledge installation training conducted by the LATICRETE Technical Services Department. Experienced instructors use classroom instruction, hands-on product demonstrations and virtual tools to provide the latest LATICRETE installation and product training.

**LEARN ONLINE AT YOUR LEISURE**

LATICRETE is proud to announce its new eLearning program, LATICRETE UNIVERSITY.

LATICRETE UNIVERSITY makes it possible for anyone within the industry to train on industry standards and Profit Through Knowledge (PTK) Technical Seminars from the comfort of their home or office. Training has become necessary to learn about new products and modern technology. Traveling and leaving your business behind to attend training is not always easy or possible. Now anyone in your company can receive the quality information, previously possible only during live training sessions, within a short period of time and without leaving the job for an extended period of time.

LATICRETE UNIVERSITY presents vital industry and product information in short, easy segments that can be taken at any time, 24/7. You can learn about new products and industry standards right away without the delay of waiting for a scheduled event or for a representative to visit your location.

Here’s how it works:

1. You listen to and observe a short tutorial.
2. You take a short test that will measure your knowledge retention.
3. Upon the successful completion of a segment, you print a certificate or have it emailed to you for your employee training records.

Note — You can pause and resume your training at any time. You can re-take training to sharpen your knowledge.

To access the LATICRETE UNIVERSITY, www.laticrete.com/training, create a user profile and begin your training.

For further information, log onto www.laticrete.com/training, or contact LATICRETE at +1.203.393.0010, ext. 1235; Fax: +1.203.393.1948; or seminars@laticrete.com
LATICRETE Offers a Complete System Solution for Virtually Every Tile and Stone Application.

For more than half a century architects, engineers, and developers have trusted LATICRETE with their tile and stone installation needs. Let our experience, product quality, and technical support assist you on your next project—whatever the application.
LATICRETE has successfully provided the technology for innovative, permanent installations of tile and stone finishes. Architecturally specified and preferred by professional installers, LATICRETE provides solutions for virtually every application.

- LATICRETE® products are industry accepted, code approved, and backed by 100% labor and materials system warranties, thereby assuring a successful installation each and every time.
- LATICRETE membranes, adhesives, grouts, and sealants are weather-resistant and freeze/thaw stable when cured.
A component of the Plaza and Deck System, this lightweight subsurface mat drains infiltrated water and reduces the potential for mineral deposits.

FEATURES/BENEFITS:
- Provides three times the drainage rate of a conventional 2" (50 mm) crushed gravel bed
- Extra Heavy service rating per ASTM C627 (TCNA)

PACKAGING:
- 200 ft² (19 m²)
- 6 rolls per pallet
- 30 lbs/roll (13.6 kg/roll), 230 lbs/pallet (104.3 kg/pallet)
The Next Generation Uncoupling Mat for use under residential and commercial ceramic tile and stone installations, replacing traditional underlayment materials. Enhances the mechanical bond of adhesive mortar for faster drying and shorter wait times for grouting. Available in the standard STRATA_MAT™ 1/8” (3 mm) version and STRATA_MAT XT 5/16” (8 mm) thickness. Use STRATA_MAT XT when installing typical 1/4” to 3/8” (6 to 9 mm) thick tile adjacent to 3/4” (19 mm) hardwood flooring.

FEATURES/BENEFITS:
- Eliminates transmission of in-plane substrate cracks of up to 1/8” (3 mm)
- Lightweight, easy to carry, and fast to install with standard tools
- Use the appropriate mortar for the tile; polymer modified or unmodified mortar
- Moisture Sensitive Tile and Stone, allows for installation of green marble and moisture sensitive stones with LATAPOXY® 300 thin-set mortar

PACKAGING FOR STRATA_MAT:
- 323 ft² roll — 45” x 86’ (30 m² — 1.1 m x 26.2 m) 12 rolls per pallet
- 150 ft² roll — 45” x 40’ (13.9 m² — 1.1 m x 12.2 m) 20 rolls per pallet

PACKAGING FOR STRATA_MAT XT:
- 150 ft² roll — 45” x 40’ (13.9 m² — 1.1 m x 12.2 m) 6 rolls per pallet

**Mortar Hydration Vents**
Accelerates thin-set curing for faster dry time of porcelain and larger format tiles — grout the next day

**STRATA_MAT XT**
At 5/16” (8 mm) thick STRATA_MAT XT creates an even transition between typical 1/4” to 3/8” (6 to 9 mm) thick tile and 3/4” (19 mm) thick hardwood flooring.

**Easy Layout**
Chalk lines are easily visible

**Mechanical Bond**
Thin-set mortar forms a mechanical bond to STRATA_MAT™ surface for greater strength

**Instant Coverage Verification**
Translucent color indicates proper mortar coverage
Surface Preparation

A quality finished floor starts with a properly prepared surface — one that guarantees a long-lasting, durable installation. LATICRETE® time-tested surface preparation products are formulated to preserve quality. They provide a perfectly level substrate to accommodate a variety of floor finishes including vinyl, wood, carpet, and tile.

**FEATURES/BENEFITS:**
- High flowing and easy-to-use
- Can be placed from 1/8” to 2”
- Pourable and pumpable
- Inorganic; will not contribute to mold/mildew growth
- Suitable surface for most finished floor goods as soon as 48 hours
- Can be applied directly over concrete testing at RH of 100% or less per ASTM F2170

**PACKAGING:**
50 lb (22.7 kg) bag; 48 bags per pallet

A high quality, cement-based, fiber reinforced, free-flowing underlayment for use in leveling wide variety of substrates including concrete, plywood, OSB and more. Rapid setting formula produces a flat, smooth and hard surface for the installation of finished flooring after 12 hours. **NXT® Level Plus** can be placed from 1/8 – 1-1/4” (3 – 32 mm) in a single lift.

**FEATURES/BENEFITS:**
- Suitable surface for most floor goods as soon as 12 hours
- Can be applied over plywood and OSB without the use of a metal lath
- Fiber reinforced
- Low-shrinkage
- High compressive strengths
- Equipped with MICROBAN®
- Suitable surface for most finished floor goods
- Can be applied directly over concrete testing at RH of 100% or less per ASTM F2170
- Pumpable

*NXT® Level is also available in version with new DUST LOCK™ Technology, dramatically reducing onsite dust during transportation of the product as well as while mixing. Special order item. Please contact your LATICRETE Technical Sales Representative.
This premium self-leveling overlay is suitable as a high-strength wear surface or underlayment. Surface can be polished in 24 hours revealing a medium-coarse aggregate with an appealing salt and pepper appearance.

FEATURES/BENEFITS:
- Durable, attractive and low maintenance cementitious wear-surface with a salt and pepper finish
- Ultimate compressive strength (over 7,000 PSI 48.3 MPa)
- Polishable to a finished wear-surface in as little as 24 hours
- Low-shrinkage
- Pourable and pumpable

PACKAGING:
50 lb (22.7 kg) bag; 56 bags per pallet

A cement-based, high quality, fast drying dual purpose self-leveling underlayment/interior decorative wear surface topping. For application over a wide variety of substrates including concrete, VCT, and tile. Can be placed from 1/16” to 1-1/4” (1.5 – 32 mm) in a single lift.

FEATURES/BENEFITS:
- Dual purpose; for use as an attractive interior wear surface or as a high performance underlayment
- Pourable and pumpable
- Can be topically stained or integrally colored to match specific design needs
- Can be polished
- Apply finished flooring in as soon as 6 hours

PACKAGING:
50 lb (25 kg) bag/56 bags per pallet
2,200 (998 kg) Supersack

**NXT® PRIMER**

Refer to Data Sheet 502.0  

A concentrated water-based primer, applied before installing NXT® self-leveling underlayments. Penetrates deeply into substrates and maximizes bond strength.

**FEATURES/BENEFITS:**
- Multi-purpose and can be used on a wide range of substrates
- Broom, roller, or spray applied

**PACKAGING:**
1 gal (3.8 L) jug, 4 jugs per carton, 28 cartons per pallet  
5 gal (18.9 L) plastic pail, 36 per pallet  
245 gal (927.4 L) heavy-duty intermediate bulk container (IBC)

*NXT® Primer is sold as a concentrate. To estimate quantity of primer for a job, select the type of SUITABLE SUBSTRATE from the table, then look up Approximate Coverage Per Gallon Concentrate. Divide Square Footage by Approximate Coverage Per Gallon Concentrate to estimate the number of gallons of primer that will be required.

Approximate Coverage

- **2 Gallon (7.6 L) Kit:** 180–266 ft² (16.7–24.7 m²) at 12–18 mils (0.3–0.5 mm)
- **10 Gallon (38 L) Kit:** 900–1330 ft² (83.6–123.6 m²) at 12–18 mils (0.3–0.5 mm)

Yield/coverage may vary slightly depending on the surface profile and field conditions.

**NXT® EPOXY PRIMER**

Refer to Data Sheet 029.3  
0909-0302-2/0909-0010-2

A two-component, high-solids epoxy primer applied with a sand broadcast for use with NXT Level DL, NXT Level SP or other decorative wear surfaces.

**FEATURES/BENEFITS:**
- Ultimate bond for decorative wear surfaces
- Easily roller applied
- Provides a barrier between decorative wear surfaces and substrate below
- Reduced pinholes in the decorative topping

**PACKAGING:**
2 gal (7.6 L) kit  
10 gal (38 L) kit
A premium quality, fast-drying, trowel-applied cement-based underlayment designed for skim-coating, smoothing, and leveling prior to the installation of floor coverings. Install finished flooring as soon as 20 minutes after application.

FEATURES/BENEFITS:
- Exceptional workability - easy to trowel, creamy consistency, smooth finish
- Rapid setting formula - apply finished flooring in as soon as 20 minutes
- Apply from feather edge to 1" (25 mm)
- Enhanced pot life

PACKAGING:
10 lb (4.5 kg) plastic bag; 4 bags per carton
Tin tie resealable feature

Be ready to tackle any NXT® and SUPERCAP® self-leveling underlayment/overlayment application with this high quality tool kit. Achieving smooth and consistent results on any project. No matter how big or small, LATICRETE has you covered.

**TOOL KIT** INCLUDES:
- 15 gallon mixing barrel
- Slip-in spiked shoe — size large
- Gauge rake frame
- Gauge rake set
- Spiked roller with frame
- Oval mixing paddle
- Spreader smoother
- 2 qt measuring container
- 3 piece pole

*Kit is sold as a whole unit. Not available separately.
This is a surveying tool to determine floor flatness and also helps you to calculate the correct amount of self leveling underlayment material needed for your job. This tool can be used with SUPERCAP® and NXT® products from LATICRETE.

**FEATURES/BENEFITS:**
- Rugged self-contained kit is light, portable, compact and easy to set up and use
- Single person operation
- Durable and easy to use hose reel — 157 ft (47.8 m) hose range is abrasion and crush resistant
- All-inclusive — requiring no tripods, transits, bubble levels or lasers
- Versatile and accurate (within +5/64” (2 mm)) to work around corners — no line-of-sight required
- Measures height differences in “blind areas”, flatness (level) and variable elevations

**LATICRETE NIVCOMP DIGITAL LEVEL INCLUDES:**
- Rugged, protective case
- Self-leveling device (reel, hose, handheld display unit)
- Rods
- Cradle
- Magnet attachment for overhead work
- End cap
- Operators manual

Customizable pins ensure your self-leveling underlayments pour will be to a specific, accurate depth. This tool can be used with SUPERCAP and NXT products from LATICRETE.

**FEATURES/BENEFITS:**
- Memory plastic snaps back — if bent, self-adhesive strip keeps pins in place
- Minimize waste by pouring self-leveling underlayments to a specific, accurate depth
- Dual measurement indicator marks in both inches and millimeters
- When used in conjunction with the NIVCOMP™, simply read the proper height on the NIVCOMP then cut the LEVELPEG to match
- Time saver — very fast and flexible to learn and use

**QUANTITY:**
1,000 pins per box

**SIZE:**
2-1/2” (64 mm)
A single-coat, 100% solids, liquid applied 2-part epoxy coating specifically designed for controlling the moisture vapor emission rate from new or existing concrete slabs. It requires minimal to no surface preparation. VAPOR BAN™ Primer ER will perform as a primer prior to installing self-leveling underlayments. Combining two steps into one.

**FEATURES/BENEFITS:**
- Exceeds ASTM F3010 standard
- Reduces MVER ≤25 to below 3 lbs/1000 ft²/24 hrs (170 µg/(s • m²))
- Can be applied over new concrete in as little as 5 days
- UL GREENGUARD GOLD CERTIFIED
- Use on concrete up to 100% RH/14 pH

**PACKAGING:**
A: 0.75 gal/B: 1.74 gal (Kit/A: 2.8 L/B: 6.6 L)
2 steel pails

Shower Installation Systems
The HYDRO BAN® Shower Pan provides you with the convenience of a smaller, easier to handle multi-piece pre-fab shower pan for waterproofing shower applications.

The HYDRO BAN Shower Pan Kit provides a cost-effective solution for waterproofing shower applications. The shower installation kit includes all the key components for a waterproof shower.

**FEATURES/BENEFITS:**
- Pre-sloped shower pan eliminates the need for traditional mud bed installations
- Lightweight and durable, easy to transport and handle during shower installation
- Can quickly and easily be modified to size on site
- For peace of mind installs, the sheet membrane exceeds ANSI A118.10 requirements, is IAPMO approved and is tested to ASTM E96/E96M Procedure E-0.06 Perms — approved for steam showers/steam rooms as single membrane
- Membrane is pliable to conform easily to any substrate.
- Do it your way — allows installers to finish walls using HYDRO BAN Board or liquid sheet membranes over cement backer board

**PACKAGING:**
Carton Packaging — Varies per size

HYDRO BAN® PRE-SLOPED SHOWER PAN
Refer to Data Sheet 031.0
See Price Book

A component of the HYDRO BAN® line of products for rapid shower installations. Packaged with HYDRO BAN Preformed Curb and 1 tube of HYDRO BAN Adhesive and Sealant.

FEATURES/BENEFITS:
- Comes with a factory installed drain/waste line connection and drain assembly
- Pre-sloped, ready-to-tile pan — no need for traditional mud bed installations
- Can quickly be modified to size on site
- Factory installed, code-approved waterproofing meets ANSI A118.10 requirements
- Code approved; meets IAPMO-PS-106
- Available in custom sizes

HYDRO BAN® Linear Drains are sold separately.

Available Sizes

| 36” x 60” (91 cm x 152 cm) PVC, ABS or BRS center drain |
| 36” x 48” (91 cm x 122 cm) PVC, ABS or BRS center drain |
| 48” x 60” (122 cm x 152 cm) PVC, ABS or BRS center drain |
| 48” x 48” (122 cm x 122 cm) PVC, ABS or BRS center drain |
| 38” x 66” (96 cm x 168 cm) PVC, ABS or BRS off center drain |

Custom sizes available with 4 week lead time

HYDRO BAN LINEAR PRE-SLOPED SHOWER PAN
Refer to Data Sheet 085.0
See Price Book

A component of the HYDRO BAN line of products for rapid shower installations. Packaged with HYDRO BAN Preformed Curb and 1 tube of HYDRO BAN Adhesive and Sealant.

FEATURES/BENEFITS:
- Pairs with HYDRO BAN Linear Drains
- Pre-sloped, ready-to-tile pan — no need for traditional mud bed installations
- Length can quickly be modified to size on site
- Factory installed, code-approved waterproofing meets ANSI A118.10 requirements
- Code approved; meets IAPMO-PS-106
- Available in custom sizes

Available Sizes

| LINEAR PRE-SLOPED SHOWER PAN SIZES |
| APPLICABLE LINEAR DRAIN SIZES |
| 34” x 66” (86 cm x 168 cm) | 32” (81 cm) |
| 38” x 66” (97 cm x 168 cm) | 36” (91 cm) |
| 44” x 66” (112 cm x 168 cm) | 42” (107 cm) |
| 50” x 66” (127 cm x 168 cm) | 48” (122 cm) |

Custom sizes available with 4 week lead time

HYDRO BAN® Drain Grates are sold separately in brushed, polished and oil rubbed bronze finishes. When ordering a HYDRO BAN Pre-Sloped Shower Pan, check with your local code official to determine whether a PVC, ABS or BRS (Brass) drain connection is required. Custom sizes available with a 4 week lead time from receipt of site drawing and Purchase Order. Contact your local LATICRETE Sales Rep for further information.

HYDRO BAN® PREFORMED SEATS
Refer to Data Sheet 032.0
See Price Book

A component of the HYDRO BAN® line of waterproof products for rapid shower installations. All HYDRO BAN Prefomed Seats are 20" (51 cm) high.

FEATURES/BENEFITS:
- High-density expanded polystyrene with a waterproof finish
- Lightweight and strong
- Ready-to-tile, waterproof surface
- Easy to install

Available Sizes

| 16" x 16" (41 cm x 41 cm) triangle |
| 23" x 23" (58 cm x 58 cm) triangle |
| 16" x 16" (41 cm x 41 cm) convex |

All HYDRO BAN Prefomed Seats are 20" (51 cm) high.

HYDRO BAN® PREFORMED NICHES
Refer to Data Sheet 033.0
See Price Book

A component of the HYDRO BAN line of waterproof products for rapid shower installations. Custom sizes available with a 4 week lead time from receipt of site drawing and Purchase Order. Contact your local LATICRETE Sales Representative for further information.

FEATURES/BENEFITS:
- Lightweight, strong, high-density, expanded polystyrene
- Simple to install
- Ready-to-tile, waterproof surface
- Ideal for bathrooms and kitchens

Available Sizes

| 12" x 12" (30 cm x 30 cm) square |
| 12" x 12" & 12" x 6" |
| 8" x 12" (20 cm x 30 cm) and 8" x 6" (20 cm x 15 cm) narrow combo |
| 12" x 20" (15 cm x 51 cm) mega |

HYDRO BAN® PREFORMED BENCH

A component of the HYDRO BAN® line of products for rapid shower installations. Can be installed anywhere a tiled bench is needed.

All HYDRO BAN Preformed Benches are 20" (51 cm) in height. Custom sizes available with a 4 week lead time from receipt of site drawing and purchase order. Contact your local LATICRETE Sales representative for further information.

FEATURES/BENEFITS:
- Lightweight, high-density expanded polystyrene with a waterproof finish
- Simple to install; ready to tile
- Can be installed anywhere a tiled bench is needed

HYDRO BAN® BOARD

A lightweight construction panel designed to be used in bonded tile or stone installations. Made with a high density extruded polystyrene core coated on both sides with a heavy duty waterproof layer for maximum performance. Tab washers are only required for ceiling installations.

FEATURES/BENEFITS:
- Lightweight, easy to carry — save on labor and freight
- Heavy duty waterproof membrane with XPS core - triple protection from water intrusion and ready to tile
- Low permeability — approved for steam rooms and steam showers
- No tab washers required for floors and walls - faster, less expensive installation

HYDRO BAN Board is priced by the sheet but sold by the bundle.

Available Sizes

| HYDRO BAN Preformed Bench is 20" (51 cm) high |
| 35" x 11.5" (89 cm x 29 cm) rectangle |

Custom sizes available with a 4–week lead time

**LIFETIME Warranty**
Components of the HYDRO BAN® line of waterproof products for rapid shower installations.

**FEATURES/BENEFITS:**
- Lightweight, high-density expanded polystyrene
- Waterproof finish
- Ready to tile

**HYDRO BAN PRE-SLOPED EXTENSION**
- Extension comes 24" x 48" (61 x 122 cm)
- Can be added onto the HYDRO BAN Pre-Sloped Shower Pan when a larger pan is required

**HYDRO BAN PRE-SLOPED RAMP**
- Ramp has a 1" in 8" (2.5 cm in 20 cm) slope and can be used for remodeling ADA compliant showers

**HYDRO BAN PREFORMED CURBS**
- 5' (152 cm) long, 3 3/4" (10 cm) high, 3.5" (9 cm) wide

**HYDRO BAN PREFORMED OVERLAY CURBS**
- Fits over a traditional 2" x 4" (5 x 10 cm) curb construction
- Available in 2 lengths:
  - 4' (122 cm)
  - 8' (244 cm)

**HYDRO BAN SHEET MEMBRANE**
- Two convenient roll sizes for large and small installations. Can be used in steam showers as a vapor barrier/waterproofing membrane.

**FEATURES/BENEFITS:**
- Easy to cut and embed — conforms easily to irregular substrates
- Durable polypropylene surface fused to the core for optimal bond strength and integrity
- Allows for usage of polymer-modified or unmodified mortar — use proper mortar for the job
- Code approved; meets ANSI A118.10

HYDRO BAN® Prefomed Corners make waterproofing fast, easy and reliable. Use in conjunction with HYDRO BAN Sheet Membrane, Sealing Tape and Collars. Use in combination with HYDRO BAN Board for steam showers.

FEATURES/BENEFITS:
- Sturdy and pliable, conforms easily

PACKAGING:
Inside Corners: 2 per package — 12 per carton
Outside Corners: 2 per package — 12 per carton
PREFORMED SHOWER SYSTEM AND DRAINS

HYDRO BAN® COLLARS AND MIXING VALVE SEAL

Refer to Data Sheet 041.0
9455-0034-PC/9455-0938-MV

Pre-formed to ensure an easier and more secure installation. (Can also be used with HYDRO BAN® liquid applied waterproofing membrane.) Use in combination with HYDRO BAN Board for steam showers.

FEATURES/BENEFITS:
- Interior applications
- Showers or tub surrounds
- Complete line of accessories — single source supply

PACKAGING:
3/4" (20 mm) Pipe Collar — 1 per bag
4-1/2" (114 mm) Mixing Valve, 10 per carton

HYDRO BAN® COLLARS AND MIXING VALVE SEAL

Refer to Data Sheet 080.7
9455-0034-DC/9455-0112-DC

Available Sizes
3/4" (20 mm) Pipe Collar for use with 1/2" - 3/4" pipe (12.7 - 20 mm) packaged individually, 12 per carton
4-1/2" (114 mm) Mixing Valve Collar packaged individually, 10 per carton

The HYDRO BAN Deep Drawn Drain Collars are available in 3/4" (19 mm) and 1-1/2" (38 mm) depths and a 17" (43 cm) diameter.

Preformed drain collars are designed to use with HYDRO BAN Sheet Membrane when a shower pan is installed using 3701 Fortified Mortar Bed or similar materials. The HYDRO BAN Drain Collar enables the installer to easily waterproof a shower pan when using a divot method with mortar around a clamping ring drain assembly.

FEATURES/BENEFITS:
- Interior applications
- Topically waterproofed shower pans
- Easily conforms around clamping ring assembly

PACKAGING:
HYDRO BAN Deep Drawn Drain Collars 3/4" (19 mm), 10 per carton
HYDRO BAN Deep Drawn Drain Collars 1 1/2" (38 mm), 10 per carton
HYDRO BAN® LINEAR DRAINS

HYDRO BAN® Linear Drains are available in a tile-in version providing a seamless continuous tiled floor appearance — virtually making the drain disappear and an attractive brushed, polished or oil rubbed bronze finish offset oval design. Also, available in the HYDRO BAN Linear Drain line is the wedge wire in brushed and polished finishes. Ideal for large format tile or stone installations for shower floors installed along the wall or at intermediate locations. The HYDRO BAN Linear Drain is a two piece drain with a trough and removable grate sold separately. These linear drains are available with a standard vertical waste line a horizontal side outlet or a with a threaded connector (to connect to a clamping ring assembly) in eight standard lengths.

HYDRO BAN® Bonding Flange Drains and the HYDRO BAN Bonding Flange Tile Drain are low profile floor drains specifically designed for bonded waterproofing installations with HYDRO BAN waterproofing membrane, the grates are 4” x 4” (10 x 10 cm) to match most common tile sizes.

**FEATURES/BENEFITS:**
- Grates are 4” x 4” (10 x 10 cm) to match most common tile sizes
- Attaches to 2” (50 mm), 3” (76 mm) and 4” (102 mm) waste lines
- Tile-in grate available to match floor tile
- Eliminates pre-slope and primary shower pan for a faster installation
- Made from heavy duty PVS or ABS and 304 stainless steel to provide long lasting performance
- HYDRO BAN® waterproof membrane bonds directly to PVC or ABS flange
- Integrates seamlessly with portland cement mortar beds waterproofed with HYDRO BAN

[www.laticrete.com](http://www.laticrete.com)
A thin waterproofing anti-fracture membrane that combines optimum performance and unmatched productivity. HYDRO BAN® is rapid drying allowing for a faster tiling time and flood testing in just 2 hours* after final cure. Save yourself time and money, and complete your installations faster with greater ease.

**FEATURES/BENEFITS:**
- Flood test in 2 hours*
- Bonds directly to metal and plastic plumbing fixtures
- No fabric required*
- Anti-fracture protection up to 1/8” (3 mm)
- IAPMO and ICC approved

In addition to the conventional means of applying HYDRO BAN®, the airless spraying technique can be used as an alternate means of application. HYDRO BAN® can be effectively sprayed to increase productivity up to three times or four times on large projects. Any airless sprayer can be used that will deliver up to 3300 PSI (22.8 MPa) using a maximum tip size of 0.031” (0.79 mm). See TDS 410 for further information on the application of HYDRO BAN® with an airless sprayer.

**PACKAGING:**
- **Commercial Unit:** 5 gal (18.9 L) pail liquid 36 units per pallet
- **Mini Unit:** 4 x 1 gal (3.8 L) pails of liquid packed in a carton 30 cartons per pallet

* See Data Sheet 663.0 for complete product information. HYDRO BAN® can be flooded tested in 2 hours when cured at 70°F (21°C) or above and 50% R.H. It can be flooded tested in 24 hours when cured at 50 – 60°F (10 – 20.6°C) and up to 70% R.H. The time to flood testing starts when the second coat has completely cured from a light sage green to a darker olive green color.
HYDRO BAN® QUICK CURE WATERPROOFING

A rapid, thin, liquid applied ready-to-use waterproofing membrane that is ANSI A118.10 Compliant. Featuring Wet-Cure technology, this allows curing even in humid, cold and damp environments. HYDRO BAN® Quick Cure allows for flood testing in as soon as 30 minutes* allowing contractors to install a shower system all in one day.

FEATURES/BENEFITS:
- Interior
- Shower pans, stalls and tub surrounds
- Thin; only 0.012" (0.3 mm) thick when cured
- Wet-Cure Technology — Can be used in humid, cold and damp environments.
- Allows for flood testing in 30 min. at 70°F (21°C) or higher *
- Bonds directly to metal, PVC and ABS plumbing fixtures
- Exceeds ANSI A118.10
- No solvents, non-flammable
- Eco-friendly, Low VOC

PACKAGING:
1 gal (3.8 L) Pail

HYDRO BAN CEMENTITIOUS WATERPROOFING MEMBRANE

A one component, polymer fortified, cement based waterproofing material that mixes only with water. HYDRO BAN Cementitious Waterproofing Membrane handles negative and positive hydrostatic pressure up to 2 BARS (29 PSI (.2 MPa)) when applied at 40 Mils (1 mm) thick. Flood test within 2 hours. Passes ANSI A118.10 Waterproofing and ANSI A118.12 Crack Isolation (with mesh/fabric up to 1/8" (3 mm)).

FEATURES/BENEFITS:
- Exterior
- Swimming pools, fountains, water features, spas and hot tubs
- Flood testing in 2 hours at 70°F (21°C) or higher *
- Can be used under pool plasters
- Bonds directly to metal, PVC and ABS plumbing fixtures
- Anti-fracture protection of up to 1/8" (3 mm)
- Exceeds ANSI A118.10 and A118.12 (with mesh) ISO 13007-5 CMP

PACKAGING:
30 lb (13.6 kg) Bag

Approximate Coverage

1 Gallon Unit: 134 ft²/gal (12.4 m²/3.8 L)
At 40 mil (1mm) Thick - 120 ft² (11.2 m²)

* at 70°F (21°C) or higher.
**9235 WATERPROOFING MEMBRANE**

Refer to Data Sheets 236.0 and WPAF.5
9235-0001-2/9235-0401-2

A thin, load-bearing waterproofing designed specifically for the special requirements of ceramic tile, stone and brick installations. A self-curing liquid rubber polymer and a reinforcing fabric are quickly applied to form a flexible, seamless waterproofing membrane that bonds to a wide variety of substrates.

**FEATURES/BENEFITS:**
- Industry approved as a shower pan liner
- Provides anti-fracture protection up to 1/8” (3 mm)
- Can be installed using a paint roller or brush
- Meets LEED and VOC requirements
- Interior and exterior

**PACKAGING:**

**Full Unit:**
- 6 gal (22.7 L) pail of liquid
- 1 carton Waterproofing/Anti-Fracture Fabric, packed separately; 36 units per pallet

**Mini Unit:**
- 2 gal (7.6 L) jug of liquid and Waterproofing/Anti-Fracture Fabric, packed together in one pail 48 pails per pallet

<table>

**Per Mini Unit**
- 50 ft² (4.6 m²)

**HYDRO BARRIER™**

Refer to Data Sheet 105.0
9256-0035-2/9256-0401-4

A thin, load-bearing, self-curing, liquid rubber polymer easily applied to form a flexible, seamless waterproofing, anti-fracture membrane.

**FEATURES/BENEFITS:**
- Approved by IAPMO for use as shower pan liner
- Requires fabric in the coves and corners or change of plane for waterproofing applications only
- Allows for flood testing in 24 hours

**PACKAGING:**

**Full Unit:**
- 3.5 gal (13.2 L) pail liquid; 48 full units per pallet

**Mini Unit:**
- 4 x 1 gal (3.8 L) pail liquid; 30 cartons per pallet

Waterproofing/Anti-Fracture Membrane Fabric sold separately (item# S-09235-NF-19)
LATAPoxy®
WATERPROOF FLASHING MORTAR
Refer to Data Sheet 070.0
0024-0001-2

A 3-component epoxy-based flashing to waterproof seams, gaps, or joints between a substrate, metal and PVC pipes, drains, and flashing.

FEATURES/BENEFITS:
- For use under ceramic tile, stone, or brick
- For rapid installations that require a fast-curing waterproof flashing
- Easy to apply using a trowel

PACKAGING:
3.5 gal (13.2 L) pail with 2 Part A 1.4 lbs. (0.65 kg), 2 Part B 1.15 lbs (0.5 kg) and 2 Part C 5.5 lbs. (2.5 kg); 48 units per pallet

Approximate Coverage
45 ft²/unit (4.2 m²) at 1/8” (3 mm) thick, depending on application

BLUE 92 ANTI-FRACTURE MEMBRANE
AND CRACK SUPPRESSION KIT
Refer to Data Sheets 647.0, 648.0, and WPAF.5
9200-0001-2/9200-0001-2-4

A 2-part system that forms a flexible, full-coverage membrane that reduces crack transmission from the substrate to floor finishes.

FEATURES/BENEFITS:
- Easy to install; cleans up with water
- EXTRA heavy service rating per ASTM C627 (TCNA)
- Passes ANSI A118.12 anti-fracture performance up to 1/8” (3 mm)

PACKAGING:
Kit: 2 gallon (7.6 L) jug of liquid, 1 each 15” (38 cm) wide roll of Waterproofing/Anti-Fracture Fabric packed together in one carton; 36 cartons per pallet.

Full Unit: 5 gallon (19 L) pail liquid; 1 carton Waterproofing/Anti-Fracture Fabric, packed separately, 36 units per pallet.

Approximate Coverage
75 linear ft/unit (23 m) at 15” (37.5 cm) wide
300 ft² (28 m²) per full unit
**FRACTURE BAN™ SC**

Refer to Data Sheet 544.0
9209-0035-2

FRACTURE BAN™ SC is a thin, load bearing, self-curing liquid rubber polymer that can be easily applied in a single coat to form a flexible seamless anti-fracture membrane.

**FEATURES/BENEFITS:**
- Exceeds ANSI A118.12
- Anti-fracture protection of up to 1/8" (3 mm) over shrinkage and other non-structural cracks
- Rapid drying for a faster time to tile
- Single coat application

**PACKAGING:**
3.5 gal (13.2 L) pail
36 units per pallet

---

**170.3 SOUND & CRACK ISOLATION MAT**

Refer to Data Sheet 170.0
0170-0150-2

A 1/8" (3 mm) thick underlayment membrane that provides sound reduction and anti-fracture protection for tile or stone installations.

**FEATURES/BENEFITS:**
- Isolates cracks up to 1/8" (3 mm)
- IIC rating — 14 per ASTM E2179
- LIGHT RATING per ASTM C627 (TCNA)
- Contains 88.5% post-consumer recycled content

**PACKAGING:**
150 ft² (13.9 m²) roll, 20 rolls per pallet

---

Approximate Coverage

175 ft² (16.2 m²) / unit at wet coat thickness 30 - 44 mils (0.8-1.2 mm)
170.5 SOUND & CRACK ISOLATION MAT
Refer to Data Sheet 35615
0176-0120-2

A high performance anti-fracture/sound and crack isolation membrane designed to be used under thin-bed adhesive for interior floor installations of ceramic tile, marble, stone and brick to reduce the transmission of impact noise and help provide soundproofing between floors and isolate cracks in the substrate.

FEATURES/BENEFITS:
- Delta IIC rating of 22 per ASTM 2179 Delta Impact Insulation Class exceeds code requirement through independent testing
- With an IIC rating of 50, it is approved for Commercial Use per the International Building Code
- Anti-fracture membrane/sound and crack isolation eliminates transmission of cracks up to 1/8" (3 mm) from transferring to the finished floor helping to protect the tile installation from unsightly crack disfigurement
- ASTM C-627 “Moderate” Robinson floor rating allows this durable floor underlayment to be used in interior, dry, commercial and light industrial applications
- Meets ANSI A118.12 specifications
- Comprised of 89% post-consumer recycled content, it contributes to LEED credits, is eco-friendly and GREENGUARD certified
- It’s easy and quick to install with a suitable LATICRETE® thin-set mortar and standard tools

PACKAGING:
4 ft x 30 ft (120 ft²), [1.2 m x 9.1 m (11.1 m²)] roll

125 TRI MAX™
Refer to Data Sheet 024.0
0125-0025-21

125 TRI MAX™ provides incredible sound isolation protection while simultaneously protecting the tile or stone finish from any cracking by reducing the transmission of stresses in the substrate through to the tile or stone finish.

FEATURES/BENEFITS:
- Anti-fracture and sound reduction in one step — install tile fast reducing labor and material cost by 15 to 20%
- Single component (just add water) making it easy to mix, spread and use
- Lightweight, 50 lb (22.7 kg) coverage in a 25 lb (11.4 kg) bag
- 36% post-consumer recycled content contributes to LEED
- Fiber reinforced producing a stronger bond
- Heavy per ASTM C627 Robinson Floor Test — TCNA so you can use it in high traffic areas

PACKAGING:
25 lb (11.3 kg) bags

COVERAGE:
73-82 ft² (6.7-7.6 m²) per bag with 1/4" x 1/4" (6 mm x 6 mm) trowel
49-54 ft² (4.6-5.0 m²) per bag with 1/4" x 3/8" (6 mm x 9 mm) trowel
37-41 ft² (3.4-3.8 m²) per bag with 1/2" x 1/2" (12 mm x 12 mm) trowel

www.laticrete.com
A high performance, pliable, light weight peel and stick membrane designed for use under ceramic tile, stone and other hard surface installations. Anti-Fracture: helps to prevent the transmission of horizontal in plane cracks from the substrate, up to 3/8” (9.5 mm), transmitting up through the tile and stone.

Sound control: FRACTURE BAN™ 40 has a $\Delta$IIC of 14 and FRACTURE BAN 90 a $\Delta$IIC of 18 through independent ASTM E2179 testing.

**FEATURES/BENEFITS:**
- Hot-applied polymer modified asphaltic adhesive coated on a 100% polyester non-woven with a 60# release liner paper
- Has a white non-woven surface for easy chalk line identification
- Acts as a water resistive barrier

**PACKAGING:**
One roll of FRACTURE BAN 40 is 40 mils (1 mm) thick
39.25 in. x 69 ft (1 m x 21 m)
24 rolls per pallet.

One roll of FRACTURE BAN 90 is 90 mils thick (2.3 mm)
39.25 in. x 30.6 ft (1 m x 9.33 m)
24 rolls per pallet.

**Approximate Coverage**
One roll of FRACTURE BAN 40 covers 225 ft² (20.9 m²)
One roll of FRACTURE BAN 90 covers 100 ft² (9.3 m²)

---

A concentrated premium quality, water-based primer designed to be applied prior to the installation of FRACTURE BAN membrane. FRACTURE BAN Primer penetrates deeply into substrates and maximizes bond strength of the FRACTURE BAN peel and stick membrane to the substrate.

FRACTURE BAN Primer is formulated as a concentrate and must be diluted 1:1 with clean potable water. When diluted, one gallon of concentrate will cover approximately 285 ft² (26.5 m²).

**FEATURES/BENEFITS:**
- Multi-purpose and can be used on a wide range of substrates
- May be broom, roller, or spray applied
- Penetrates deeply into substrates and maximizes bond strength

Do not allow FRACTURE BAN primer to freeze.

**PACKAGING:**
4 x 1 gal (4 x 3.8 L) carton, 48 per pallet
5 gal (18.9 L) plastic pail, 28 per pallet
245 gal (927.4 L) heavy-duty intermediate bulk container (IBC)

**Approximate Coverage**
When diluted, one gal (3.8 L) of concentrate will cover approximately 285 ft² (26.5 m²).
STRATA HEAT™
The most advanced floor heating system in the world!

STRATA HEAT™ Thermal Pack
Combine with thin-set to provide uniform warmth virtually eliminating cold spots.

STRATA HEAT™ Spliceless Wire
Allows multiple wire spacing combinations.

STRATA HEAT™ Mat
Uncoupling mat for easy and secure wire placement.

Wi-Fi thermostat for total control from your smartphone.

www.laticrete.com
STRATA_HEAT™ Mat
Refer to Data Sheet 026.1
Installation Instructions Data Sheet 026.1
0179-0161-H/0179-1082-H

STRATA_HEAT™ Mat combines the comfort of floor heating wire with the advantages associated with an uncoupling membrane. Warm your tile floor and enhance the mechanical bond to the substrate. STRATA_HEAT Mat will provide faster drying of the mortar while allowing for shorter time to grout. At the same time it will easily hold the STRATA_HEAT Wire in 3 or 4 peg positions for floor heating or warming installations. Just like our other uncoupling membranes it is specifically designed for use with both modified and unmodified mortars, you can use the appropriate mortar for the installations.

FEATURES/BENEFITS:
- U.S. Patented Nos. 9,777,931; 10,006,644; 10,215,423; D806,280; and patents pending. mortar hydration vents accelerate thin-set curing for faster dry time of porcelain and larger format tiles — grout the next day
- STRATA_HEAT Mat design maximizes thin-set to wire contact producing a faster heat-up time with even heat distribution
- STRATA_HEAT Wire installs easily in mat — lays flat and secure
- Optical coverage verification — translucent features allows for easy determination of mortar coverage

PACKAGING:
3'3” x 46’2” (1 m x 14 m) roll
30.3” x 3’3” (0.7 m x 1 m) per sheet, 10 sheets per box

Roll
161 ft² - 39” W x 49” 6” L (15m² - 1 m W x 15.1 m L)
Sheet
10 x 8.6 ft²— 31” W x 39” L (10 x 0.8 m² - 0.8 m W x 1 m L)

STRATA.HEAT SPLICELESS WIRE
Refer to Data Sheet 026.1
Installation Instructions Data Sheet 044.6
See Price Book

STRATA.HEAT SPLICELESS WIRE is a versatile floor heating wire designed for use under tile and stone to provide luxury and comfort. STRATA.HEAT SPLICELESS WIRE can be used with the STRATA_HEAT Mat or STRATA.HEAT Spacing Strips to meet all of your floor heating needs. It is available in 120 or 240V and fifteen convenient lengths.

FEATURES/BENEFITS:
- Can be used as primary heat source — allows multiple wire spacing combinations Heavy duty construction, outer jacket provides exceptional performance and durability Produces virtually zero electromagnetic field
- No minimum on a straight run length like other systems — easier to layout
- Highly conductive copper wiring provides maximum heat transfer
- Easy to install, lays flat and secure in STRATA.HEAT Mat or STRATA.HEAT Spacing Strips
- Spliceless design, single diameter throughout the length of the wire
- No need to cut out the mat and/or the sub-floor to bury the cold lead

Flexible PVC Outer Jacket
Multi-Strand Copper Conductors
Braided Ground
EFTE Insulation

NEW
NEW
STRATA_HEAT™ WIRE SPACING STRIPS

Refer to Data Sheet 026.1
Installation Instructions DS 044.6
0802-4012-1

STRATA_HEAT™ WIRE SPACING STRIPS are a 12" (30.5 cm) long interlocking plastic strip to hold the STRATA_HEAT WIRE. The spacing strips can be adhered to any subfloor to provide the correct wire spacing for the STRATA_HEAT WIRE. STRATA_HEAT WIRE SPACING STRIPS are sold 40 per box.

FEATURES/BENEFITS:

- Simple to install; saving time and money
- Low-profile wire makes it undetectable under tile and stone floors

PACKAGING:

40 Spacing Strips, 12" (30.5 cm) long each

STRATA_HEAT Thermostats are smart, “Floor Focused”, these new innovative thermostats are specifically designed to work with floor heating systems. Available in a standard touch screen programmable or Wi-Fi compatibility which offers remote control through your smart phone to control and view energy statistics from anywhere. The STRATA_HEAT Thermostats are dual voltage (120V/240V), and easy to use.

FEATURES/BENEFITS:

- Simple smartphone app — optimizes comfort, reduces utility costs and allows for viewing of energy statistics from anywhere
- Uses smartphone GPS location services to learn heating routines — applies most efficient settings to reduce energy usage by up to 25%
- Home automation hub compatible — voice control temperature setting able through home automation digital assistant
- User friendly set-up — intuitive interface makes set-up and operation easy, no complicated programming modes

PACKAGING:

Programmable 120V/240V
WIFI Compatible 120V/240V

LIFETIME Warranty

Shipping Limitation: All shipments via ground only, no air shipment allowed.

www.laticrete.com
Available only from LATICRETE, STRATA_HEAT™ Thermal Pack is a patent pending additive designed exclusively for use in select LATICRETE® adhesives. Utilizing Thermal Diffusion Technology™, heat generated from the STRATA_HEAT Wire is uniformly distributed throughout the adhesive, providing faster floor heat-up and a more comfortable and energy efficient installation.

**FEATURES/BENEFITS:**
- Eliminates cold spots between wires — thermal heat diffusion is increased by 20% — providing uniform warmth for more comfort
- Reduces energy costs by 15% — since heat is transferred faster and more uniformly to achieve desired floor temp — number of heating cycles are reduced, saves money
- Economical and energy efficient — STRATA_HEAT Thermal Pack™ pays for itself in months by lowering electrical utilization costs

**PACKAGING:**
3 Lb (1.36 kg) Bag contains (2) Thermal Packs

Infrared image using standard tile adhesive shows cold spots between wires

Infrared image using STRATA_HEAT™ Thermal Pack™ diffuses heat uniformly throughout — no cold spots

Shipping Limitation: All shipments via ground only, no air shipment allowed.
**LATAPOXY® 310 STONE ADHESIVE**

Refer to Data Sheets 679.0 and 679.3  
See Price Book

A strong, two-component epoxy adhesive for spot-bonding large format tile and stone on vertical surfaces. Easier and faster than traditional methods of veneer installation.

**FEATURES/BENEFITS:**
- For interior or approved exterior applications
- Both standard and rapid version for faster curing
- No drilling, cutting kerfs, or setting pins
- Allows for quick plumb adjustment while stone is in place to compensate for uneven walls and stone thickness variations
- Won't deteriorate over time
- ANSI A118.3 and ISO 13007-1 R2T classification

**PACKAGING:**
- **Full Unit Kit:** 2.6 gal (10 L):
  - All components packed in one carton
  - 1.3 gal (5 L) Part A pail, 1.3 gal (5 L) Part B pail
  - 40 cartons per pallet, Available in standard and rapid version
- **Mini Unit Kit:** 2 gal (8 L):
  - units packed in one carton
  - 8 mini jars of Part A 0.5 qt (0.5 L), 8 mini jars of Part B 0.5 qt (0.5 L), 40 cartons per pallet
  - Available in standard and rapid versions
- **Cartridge Packs:** 2.3 gal (9 L) Cartridge Pack (for use in LATAPOXY® 310 Cordless Mixer):
  - 15 x 20 oz (600 ml) cartridge packs of Part A and Part B per carton, 27 cartons per pallet
  - Available in standard and rapid versions

**MIXING:**
Combine equal volumes of Part A and Part B (1:1).

**LATAPOXY 310 CORDLESS MIXER**

Refer to Data Sheet 683.0  
RT8480310/RT8480500

This dual-component mixer quickly dispenses LATAPOXY 310 Stone Adhesive onto tile, porcelain, and stone veneers.

**FEATURES/BENEFITS:**
- Triples productivity of vertical stone and tile installations
- Install hundreds of square feet per day
- Design and gear systems allow speed and dosing control
- No mixing — just insert the dual component cartridge, screw on the mixing nozzle, and pull the trigger

**PACKAGING:**
- 1 LATAPOXY 310 Cordless Mixer per carton;
- 24 cartons per pallet

**SHIPPING LIMITATION:** All shipments via ground only, no air shipment allowed.
LATAPoxy® BIOGREEN™ 300 ADHESIVE
Refer to Data Sheet 023.0
0304-0001-2

A high strength, chemical resistant, 100% solids epoxy adhesive made with bio-based, sustainable material.

FEATURES/BENEFITS:
- Made with bio-based, sustainable materials
- Prevents curling of moisture-sensitive marbles and agglomerates
- For mesh mount glass mosaics and resin-backed tile and stone
- Will not stain white or light colored marble
- Meets ANSI A118.3 and ISO 13007-1 R2 classification

PACKAGING:
All components packed in one pail; 48 pails per pallet
Makes 1.9 gal (7.2 L) of mortar

SHIPPING LIMITATION: All shipments via ground only, no air shipment allowed.

LATAPoxy 300 ADHESIVE
Refer to Data Sheet 633.0
0300-0001-2

A high-strength, three-part, 100% solids epoxy adhesive formulated for chemical-resistant installations of quarry tile, brick, and packing house tile.

FEATURES/BENEFITS:
- Prevents curling of moisture-sensitive marbles and agglomerates
- For mesh mount glass mosaics and resin-backed tile and stone
- Will not stain white or light colored marble
- Meets ANSI A118.3 and ISO 13007-1 R2 classification

PACKAGING:
All components packed in one pail; 48 pails per pallet
Makes 1.8 gal (6.8 L) of mortar

SHIPPING LIMITATION: All shipments via ground only, no air shipment allowed.

The ultimate, lightweight, polymer fortified, thin-set mortar that is ideal for the installation of Gauged Porcelain Tile Panels/Slabs (GPTP), porcelain and glass tile as well as exterior and submerged applications. 257 TITANIUM™ is designed with key features to facilitate the installation of Gauged Porcelain Tile Panels including long open time, superior transfer for maximum coverage, easy to spread creamy consistency and a lightweight formula for easier handling. 257 TITANIUM contains no respirable crystalline silica levels that exceed the OSHA action level*, and exceeds ANSI A118.15 requirements.

**FEATURES/BENEFITS:**
- Optimal performance for Gauged Porcelain Panels/Slabs
- Equipped with anti-microbial technology
- Lightweight - 25 lb (11.3 kg) bag has coverage of 50 lb (22.7 kg) traditional mortar
- Exceeds ANSI A118.4, A118.11 and ANSI A118.15

**PACKAGING:**
- 25 lb (11.3 kg) bag
- 56 bags per pallet
- Colors: grey or white

**MIXING:**
Mix approximately 4.6 to 4.8 qts (4.4 to 4.5 L) of water per bag

**PRIME-N-BOND™**

PRIME-N-BOND™ is a versatile, ready-to-use, single coat, low VOC primer designed to enhance the adhesion of mortars to many smooth and non-absorptive substrates that can be difficult to bond to. PRIME-N-BOND also improves bonding of self-leveling underlayments (SLUs).

**FEATURES/BENEFITS:**
- Multi-purpose and can be used on a wide range of substrates
- One component, ready to use, no mixing required
- Single coat application
- Formulated with aggregate for an enhanced mechanical bond
- Improves bonding of cement self-leveling products (SLUs)
- Low VOC, low odor, Ideal for interior and occupied areas
- White color will not darken the back of light colored stone

**PACKAGING:**
- 1 gal (3.78 L) pail, 4 pails per carton
- 3.5 gal (13.3 L) plastic pail

**MIXING:**

**MULTI-PURPOSE BONDING PRIMER/ POLYMER FORTIFIED THIN-SET MORTARS**

www.laticrete.com
Premium one-step, polymer-fortified, thin-set mortar that provides unsurpassed strength and versatility. Ideal for interior, exterior, thin porcelain tile and thin porcelain tile panels, and submerged applications on virtually all substrates and applications. For interior and exterior use.

**FEATURES/BENEFITS:**
- Ideal for gauged (thin) porcelain tile panels
- Exceptional bond strength
- Superior for exterior and submerged applications
- Great for difficult-to-bond porcelain tiles, glass mosaics, large format glass, and large, thin porcelain tile
- Easy to trowel; assures proper coverage on both the substrate and the veneer
- Long open time, allowing flexibility on the jobsite
- Exceeds ANSI A118.15 and ANSI A118.11 requirements
- Meets ISO 13007-1 C2TES1P1 classification

**PACKAGING:**
50 lb (22.7 kg) bag
56 bags per pallet
Colors: grey or white

**MIXING:**
Mix approximately 5.5 qt/50 lbs
(5.2 L/22.7 kg) of water per bag

---

One-step, polymer-fortified, thin-set mortar for applications requiring rapid setting. Excellent for exterior applications that require rapid setting. 254R has unsurpassed adhesion and workability.

**FEATURES/BENEFITS:**
- Strong adhesion to exterior glue plywood (interior use only), concrete and porcelain tiles
- Mix with water only
- Can be grouted in 2 to 4 hours
- Superior adhesion for submerged applications
- Exceeds ANSI A118.4 requirements and ANSI A118.11

**PACKAGING:**
25 lb (11.3 kg) bag
104 bags per pallet
Colors: grey or white

**MIXING:**
Mix approximately 3 qt/25 lbs
(2.8 L/11.3 kg) of water per bag

---

This high performance, lightweight, non-sag, polymer fortified adhesive mortar is specifically formulated for use in glass tile applications. Glass Tile Adhesive Lite is ultra-white in color and non-sanded with a smooth easy-to-trowel consistency and extended opting time for ease of installation.

**FEATURES/BENEFITS:**
- Meets ANSI A118.15, the highest ANSI standard for submerged applications
- Lightweight - half the weight of traditional mortars
- Optimal bond strength with minimal shrinkage
- Superior non-sag performance
- Contains no respirable crystalline silica levels that exceed the OSHA action level*

**PACKAGING:**
- 12.5 lb (5.7 kg) bag
- 104 bags per pallet
- Colors: white

**MIXING:**
Mix approximately 2.4 qt (2.3 L) of water per 12.5 lb (5.7 kg) bag

---

A polymer-fortified thin-set cement-like powder. Mix with water to install ceramic tile and stone.

**FEATURES/BENEFITS:**
- For use in interior and exterior floor and wall installations
- Can be used with all types of ceramic tiles, porcelain tile, and stone over concrete
- Can also be used with exterior glue plywood* and other substrates
- Exceeds ANSI A118.4 and A118.11 requirements
  *Interior only

**PACKAGING:**
- 50 lb (22.7 kg) bag
- 56 bags per pallet
- Colors: grey or white

**MIXING:**
Mix approximately 5.5 qt/50 lbs (5.2 L/ 22.7 kg) of water per bag

---

**Approximate Coverage Per 12.5 lb (5.7 kg) bag**

* OSHA action level set forth in OSHA’s Respirable Crystalline Silica (RCS) standard for construction, 29 CFR 1926.1153, as tested by an independent laboratory to be below the OSHA action level for respirable crystalline silica - see laticrete.com/silica
POLYMER FORTIFIED THIN-SET MORTARS

**253R GOLD RAPID**
Refer to Data Sheet 296.3
0253-0050-21-1/0253-0050-22-1

An excellent solution for both interior and exterior applications that require a mortar with rapid setting characteristics.

**FEATURES/BENEFITS:**
- For use in interior and exterior floor and wall installations
- Can be used with all types of ceramic tiles, porcelain tile, and stone over concrete
- Can also be used with exterior glue plywood* and other substrates
- Ready for grouting in 2 to 4 hours
- Exceeds ANSI A118.4 and ANSI A118.11 requirements

*Interior only

**PACKAGING:**
50 lb (22.7 kg) bag
56 bags per pallet
Colors: grey or white

**MIXING:**
Mix approximately 5 qt/50 lbs (4.7 L/22.7 kg) of water per bag

**NON-MODIFIED THIN-SET MORTARS**

**272 MORTAR**
Refer to Data Sheet 259.0
0272-0050-22

A non-modified, cementitious powder for ceramic tile and stone installations.

**FEATURES/BENEFITS:**
- Can be mixed with either water or latex additive
- For increased performance and flexibility, mix with 333 Flexible Additive
- Meets ANSI A118.1 strength requirements

**PACKAGING:**
50 lb (22.7 kg) bag
56 bags per pallet
Color: white

**MIXING:**
Per 50 lb (22.7 kg) bag, mix 2 gal (7.6 L) of 333 Flexible Additive or 1.7 gal (6.5 L) of 3701 Mortar Admix or water

2-YEAR SHELF LIFE

**www.laticrete.com**
This liquid additive creates flexible thin-set mortars with superior bond strength.

**FEATURES/BENEFITS:**
- Mixes with all LATICRETE® pre-bagged, non-fortified, thin-set mortars for installation over concrete, brick, block, cement backer board, existing ceramic tile, cement terrazzo, exterior glue plywood**, gypsum wallboard**, vinyl tile**, linoleum**, plastic laminates**, and non-water soluble cut back adhesives**
- Ideal for remodeling projects
- Extra Heavy service rating per ASTM C627 (TCNA)

**PACKAGING:**
- 2 gal (7.6 L) jug: 3 jugs per carton; 40 cartons per pallet
- 5 gal (19 L) pail: 36 pails per pallet

**MIXING:**
2 gal (7.6 L) of 333 Flexible Additive mixes with approximately 50 lbs (22.7 kg) of LATICRETE thin-set mortars

A white, non-flammable, pre-mixed latex adhesive for interior installations of ceramic tile and stone, on both floors and walls.

**FEATURES/BENEFITS:**
- Creamy and smooth
- For installations over cement backer board**, gypsum wallboard, and exterior glue plywood**
- Water-resistant
- Exceeds ANSI A136.1 Type 1 and Type 2 requirements

**PACKAGING:**
- 3.5 gal. (13.2 L) pail: 48 pails per pallet
- 1 gallon (3.8 L) pail: 4 pails per carton; 30 cartons per pallet

### Approximate Coverage Per gal (3.5 L) pail

MULTIMAX™ LITE
Refer to Data Sheet 328.0
0289-0025-21/0289-0025-22

The ultimate lightweight, versatile, high performance non-sag Large and Heavy Tile mortar.

FEATURES/BENEFITS:
- Exceeds ANSI A118.15
- Lightweight — easy to trowel formula. A 25 lb (11.3 kg) bag provides the same coverage as a 50 lb (22.7 kg) bag of standard mortar
- Contains no respirable crystalline silica levels that exceed the OSHA action level
- Maximum non-sag, non-slump performance
- Build up to 3/4” (19 mm) without shrinkage, or slump
- 40 minute Open Time
- Smooth and creamy consistency
- One mortar for large and heavy tile, thin-bed and wall installations of tile and stone.
- High strength; fiber reinforced
- Meets ISO 13007-C2TES1P1

PACKAGING:
25 lb (11.3 kg) bag
56 bags per pallet
Colors: grey or white

MIXING:
Approximate water required per 25 lb (11.3 kg) bag
Wall and Large and Heavy Format Tile 4.8 – 5.0 qts (4.5 – 4.7 L)
Thin-set 5.2 – 5.4 qts (4.9 – 5.1 L)

A polymer modified large and heavy tile mortar for installation of large format tile and stone on floors and walls. For use over most common substrates including exterior glue plywood.

**FEATURES/BENEFITS:**
- Can be used over Exterior Glue Plywood (EGP) without the use of an additive
- Smooth and creamy consistency
- Superior bond that meets the demands of challenging installations involving large and/or heavy tile
- Excellent large heavy tile performance, 3/4" (19 mm) thick without shrinkage
- Interior and exterior floor and wall installations
- For use with large format ceramic tile, porcelain tile and stone
- Meets ANSI A118.4 and ANSI A118.11 requirements

**PACKAGING:**
- 50 lb (22.7 kg) bag
- 56 bags per pallet
- Colors: grey or white

**MIXING:**
Approximate water required per 50 lb (22.7 kg) bag 4.6 to 4.9 qts (4.4 to 4.6 L) of water

A polymer modified tile and stone adhesive that can be used for both thin bed and Large Heavy Tile applications. Designed to be used alone or mixed with one of three optional LATICRETE® Adhesive System Kits for additional performance enhancements — Non-Sag, Rapid and High Performance (ANSI A118.15).

When used alone (without an additional LATICRETE SELECT-BOND™ system Kit) LATICRETE Adhesive Base provides a one-step installation for ceramic tile, porcelain tile, marble and stone on floors and walls. Approved for use over exterior glue plywood for interior installations.

**FEATURES/BENEFITS:**
- For both thin bed and Large and Heavy Tile applications
- Exceeds ANSI A118.4 H and ANSI A118.11
- Exceeds ISO/EN 13007-2 requirements for C1
- For interior and exterior floor and wall applications
- “Extra Heavy” rating per ASTM C627

**PACKAGING:**
- 25 lb (11.3 kg) bag
- 104 bags per pallet
- Colors: grey or white

LATICRETE® SELECT-BOND™ KITS
Refer to Data Sheet 36580

Designed to be mixed with LATICRETE® SELECT-BOND™ Adhesive to provide a fast setting adhesive for the installation of tile and stone.

FEATURES/BENEFITS:
- Rapid setting
- Ready for grouting in 3 to 4 hours.
- Exceeds ANSI A118.4 H F and A118.11 requirements

LATICRETE SELECT-BOND KIT FEATURES/BENEFITS:
- Replaces a warehouse full of adhesives with a modular adhesive system that takes up only a fraction of the space and cost
- Use LATICRETE SELECT-BOND™ adhesive as your versatile, every day thin-bed and large heavy tile adhesive
- Versatile, easy-to-use systems
- Pre-measured packets
- Water soluble

PACKAGING:
Each kit packaged in a resealable plastic bag containing two packets. Use one packet per 25 lb (11.3 kg) bag of LATICRETE Select-Bond Adhesive.

MIXING:
Packets are premeasured (.25-.33 lb [.11-.14 kg]) and water soluble. Simply drop mix in water — No measuring no mess

3701 LITE MORTAR
Refer to Data Sheet-36590
1060-0030-21

Contains carefully selected polymers, Portland cement and light weight aggregates. 3701 Lite Mortar contains no detectable respirable crystalline silica and does not require the use of latex admix. You will only need to add water to produce thick bed mortar or a vertical repair mortar/screed.

FEATURES/BENEFITS:
- Light weight - half the weight of conventional mortars but with the same coverage
- Excellent for vertical and overhead applications
- Contains no detectable respirable crystalline silica
- Freeze-thaw compliant
- Ease of mixing and application — can be applied up to 3/4” (1.9 cm) on a vertical surface
- Polymer fortified — no need for latex additives

PACKAGING:
30 lb (13.6 kg) bag; 56 bags per pallet

MIXING:
Mixing ratios vary depending on installation method. Please refer to DS-36590.

3701 LITE MORTAR R (RAPID)
Refer to Data Sheet 36603
2060-0030-21-1

Contains carefully selected polymers, Portland cement and light weight aggregates. This Rapid mortar can be used in many different projects, decreasing the cure time significantly. 3701 Lite Mortar R contains no detectable respirable crystalline silica and does not require the use of latex admix. You will only need to add water to produce thick bed mortar or a vertical repair mortar/screed.

FEATURES/BENEFITS:
- Rapid formula — cure time between 1.5 to 2 hours
- Light weight — half the weight of conventional mortars but with the same coverage
- Excellent for vertical and overhead applications
- Contains no detectable respirable crystalline silica
- Freeze-thaw compliant
- Ease of mixing and application — can be applied up to 3/4” (1.9 cm) on a vertical surface
- Polymer fortified — no need for latex additives

PACKAGING:
30 lb (13.6 kg) bag; 56 bags per pallet

MIXING:
Mixing ratios vary depending on installation method. Please refer to DS-36603.
PREMIUM MORTAR BEDS

QUICK CURE MORTAR BED
Refer to Data Sheet 1004.0
0229-0060-21-1

A rapid setting, polymer fortified, blend of carefully selected polymers, Portland cement and graded aggregates.

FEATURES/BENEFITS:
- Ready for foot traffic in as soon as 60 minutes
- No need for latex admix
- Add water for a thick bed mortar or render
- No need for job site measuring and mixing of sand and cement
- High compressive strengths (4000 psi/27.6 MPa)
- Use with HYDRO BAN® Quick Cure for faster shower system installs

PACKAGING:
60 lb (27.2 kg) bag; 56 bags per pallet

MIXING:
Mixing ratios vary depending on installation method. Please refer to DS-1004.0.

3701 FORTIFIED MORTAR
Refer to Data Sheet 100.0
0229-0060-21

A one-step polymer-fortified blend of raw materials, Portland cement, and graded aggregates.

FEATURES/BENEFITS:
- No need for latex admix
- Add water for a thick bed mortar or render
- No need for job site measuring and mixing of sand and cement
- Polymer fortified – no need for latex additives
- Superior compressive strengths (5000 psi/34.5 MPa)
- An alternative to 3701 Mortar Admix combined with 226 Thick Bed Mortar

PACKAGING:
60 lb (27.2 kg) bag; 56 bags per pallet

MIXING:
Mixing ratios vary depending on installation method. Please refer to DS-100.0.

These products form a thick-bed mortar that is strong and resistant to weather, frost, thermal, and physical shock.

**FEATURES/BENEFITS:**
- Can be used to build concrete patches, stucco, and plaster mortars
- Can be used to level, ramp or slope

**PACKAGING:**
- **3701 Mortar Admix:**
  - 5 gal (18.9 L) pail
  - 36 pails per pallet
- **226 Thick Bed Mortar:**
  - 60 lb (27.3 kg) bag
  - 56 bags per pallet

**MIXING:**
For use as a thick-set mortar: Mix approximately 5 gal (18.9 L) of Admix per 7 x 60 lb (27.3 kg) bags of mortar.

Mixes with 3701 Mortar Admix to provide a conventional floor mortar bed.

**FEATURES/BENEFITS:**
- Pre-mixed, economical alternative to 226 Thick Bed Mortar
- For interior applications such as shower pan fills in bathrooms

**PACKAGING:**
- **209 Floor Mud:**
  - 60 lb (27.3 kg) bag; 56 bags per pallet

**MIXING:**
Mix approximately 0.7 gal (2.7 L) 3701 Mortar Admix or water per 60 lb (27.3 kg) bag.

**2-YEAR SHELF LIFE**
PERMACOLOR® Select is an advanced high performance cement grout that offers the industry’s first dispersable dry pigment solution. PERMACOLOR Select is designed for virtually all types of residential and commercial installations and offers optimum performance on the most demanding exterior or interior applications. Easy to mix, grout, and clean, PERMACOLOR Select is fast setting and is suitable for joints 1/16" to 1/2" (1.5 mm - 12 mm) wide on floors or walls.

**FEATURES/BENEFITS:**
- Exceeds ANSI A118.7 and achieves ISO 13007-3 CG2WAF
- No sealing required — equipped with STONETECH® Sealer Technology
- Vibrant consistent color — resists efflorescence
- High strength; fiber reinforced — crack and shrink-resistant
- Fast setting — ready for foot traffic in as little as 3 hours

Each PERMACOLOR® Select Color Kit contains two Color Packets.
Use 2 Color Packets when mixing with 25 lb (11.3 kg) PERMACOLOR Select
Use 1 Color Packet when mixing with 12.5 lb (5.7 kg) PERMACOLOR Select

**COLORS:**
PERMACOLOR Color Kit: Available in all 40 LATICRETE colors (10 x carton) plus top competitor colors! Each PERMACOLOR Select Color Kit contains 2 Color Packets. See Grout and Sealant Color Chart on page 78.

**PACKAGING:**
PERMACOLOR Select Grout Base:
25 lb (11.3 kg) and 12.5 lb (5.6 kg) plastic bags

**Introducing thousands of customizable color options with PERMACOLOR® Select® ANYCOLOR™!**

With PERMACOLOR® Select AnyColor™, we can now color-match almost any color you can imagine including the vast Benjamin Moore® or Sherwin-Williams® palettes.

Visit www.laticrete.com/ANYCOLOR for more details.

Approximate Coverage
Refer to page 79 for grout coverage.

Easy to Mix
Simply select a Color Kit from 80 PERMACOLOR Select stocked Colors, then mix with PERMACOLOR Select Base, and you’re ready to grout.

*Also available in DUST LOCK™ Technology version, dramatically reducing respirable silica dust while mixing.*
PERMACOLOR® SELECT NS GROUT BASE

Refer to Data Sheet 116.0
26H5-0408-2

Tiles come in thousands of colors. Now your grout does too.

With PERMACOLOR Select ANYCOLOR™, we can match your grout to over 10,000 colors available in the Benjamin Moore®† and Sherwin-Williams®† palettes.

An ultra premium, factory prepared, polymer fortified unsanded portland cement base grout designed for highly-delicate surfaces, such as high polish marble and soft glass. PERMACOLOR® Select NS Grout Base should be mixed with water and LATICRETE® COLOR KITS — the industry’s first dispersible dry pigment solution. Formulated from a blend of high strength portland cement, polymers and achieves ANSI 118.7. Provides a grout joint that is dense, hard and durable in a multitude of colors. Use on joints up to 1/4" (6 mm) between soft bisque glazed wall tile, non-vitreous clay tile, marble, stone and porcelain or glass.

FEATURES/BENEFITS:
- Mix with water and desired PERMACOLOR Select Color Kit
- Equipped with STONETECH Sealer Technology
- Contains anti-microbial technology
- Excellent for wet and dry areas
- Non-dusting, non-spalling and non-yellowing
- Non-shrinking
- Easy maintenance

COLORS:
See Grout and Sealant Color Chart on page 78 for a list of available colors

PACKAGING:
8 lb (3.6 kg) box, 4 per carton, 44 cartons per pallet

Each PERMACOLOR® Select Color Kit contains two Color Packets. Use 1 Color Packet when mixing with 8 lb (3.6 kg) PERMACOLOR Select NS.
CEMENTITIOUS GROUTS

PERMACOLOR® GROUT
Refer to Data Sheet 250.0
25XX-0025-2 / 25XX-0408-2

One of the best performing cement-based grouts, for both floors and walls, and joint widths of 1/16" (1.5 mm) to 1/2" (12 mm).

FEATURES/BENEFITS:
- Consistent color
- High strength; fiber reinforced
- Easy to install; just mix with water — no additive required
- For both interior and exterior applications
- Meets ANSI A118.7
- Meets ISO classification CG2WA

COLORS:
Available in 40 LATICRETE colors. See Grout and Sealant Color Chart on page 78 for a list of available colors.

PACKAGING:
25 lb (11.3 kg) bag: 104 bags per pallet

1776 GROUT ENHANCER
Refer to Data Sheet 265.0
See Price Book

For use with 1500 Sanded Grout or 1600 Unsanded Grout.

FEATURES/BENEFITS:
- When used in place of water, eliminates shading and blotching caused by minerals and organic particles in domestic water
- Extra Heavy service rating per ASTM C627 (TCNA)

PACKAGING:
47 oz (1.4 L) bottle: 6 per carton
48 cartons per pallet
64 oz (1.9 L) bottle: 6 per carton
48 cartons per pallet
5 gal (18.9 L) pail: 36 pails per pallet

Approximate Coverage

### 1500 Sanded Grout

For dense, durable grout joints between 1/16” (1.5 mm) and 3/8” (9 mm). Designed for use with 1776 Grout Enhancer or water.

**Features/Benefits:**
- Meets ANSI A118.6 specification
- Extra Heavy service rating per ASTM C627 (TCNA)
- Eliminates shading and blotching caused by minerals and organic particles in domestic water
- Anti-microbial properties

**Colors:**
See Grout and Sealant Color Chart on page 78 for a list of available colors.

**Packaging:**
- 25 lb (11.3 kg) bag: 104 bags per pallet

For dense, durable grout joints between 1/16” (1.5 mm) and 3/8” (9 mm). Designed for use with 1776 Grout Enhancer or water.

**Features/Benefits:**
- Can be used on soft or polished stones and glass
- Extra Heavy service rating per ASTM C627 (TCNA)
- Eliminates shading and blotching caused by minerals and organic particles in domestic water

SPECTRALOCK® PRO Premium TRANSLUCENT GROUT† is a patented, extreme high performance epoxy grout that offers a unique opaque color that diffuses light and makes any design look more vibrant. It also has increased durability and stain resistance with superior ease of use and cleaning.

**FEATURES/BENEFITS:**
- Very durable
- Unique glass beads transfer light
- Stainproof‡ and easy to install
- Never needs sealing
- Use interior or exterior
- Exceeds ANSI A118.3 standards

**PACKAGING** (all-in-one kits):
- **Mini Unit:**
  Liquid components, Part "G" glass beads (2lbs.), gloves, sponge, and cleaning packets packed in one pail 4 units per carton/45 cartons per pallet
- **Full Unit:**
  Equals four SPECTRALOCK PRO Premium Grout Mini Units
  Liquid components, gloves, sponge, and cleaning packets packed in one pail/80 pails per pallet

**COLORS:**
SPECTRALOCK Grout Part C powders are available in 40 colors. See Grout and Sealant Color Chart on page 78 for a list of available colors.

**PACKAGING** (liquids only kits):
- **Mini Unit:**
  Liquid components, gloves, sponge, and cleaning packets packed in one pail
  4 units per carton/45 cartons per pallet
- **Full Unit:**
  Equals four SPECTRALOCK PRO Premium Grout Mini Units
  Liquid components, gloves, sponge, and cleaning packets packed in one pail/80 pails per pallet
- **Commercial Unit:**
  Equals four SPECTRALOCK PRO Premium Grout Full Units
  Liquid components, gloves, sponge, and cleaning packets packed in one carton/44 cartons per pallet

*Note: SPECTRALOCK® Grout Part C filler powder required; sold separately*

---

SPECTRALOCK PRO Premium Grout is a patented, high performance epoxy grout that offers color uniformity, durability and stain resistance with extraordinary ease of use.

**FEATURES/BENEFITS:**
- Improved non-sag formula
- Durable; maintains color uniformity
- Stainproof‡ and easy to install; never needs sealing
- Can be used on floors and walls
- Working time = 80 minutes
- Exceeds ANSI A118.3 standards

**COLORS:**
SPECTRALOCK Grout Part C powders are available in 40 colors. See Grout and Sealant Color Chart on page 78 for a list of available colors.

**PACKAGING** (liquids only kits):

SPECTRALOCK® 1 is a patent pending, professional grade pre-mixed grout that offers all the benefits of SPECTRALOCK epoxy grout without the hassle of mixing. It provides exceptional durability, extreme versatility, and excellent color consistency – even in the most demanding applications.

**FEATURES/BENEFITS:**
- Locks in color and blocks out stains
- Strongest pre-mixed grout on the market (meets ANSI A118.3)*
- No mixing required
- Resealable package
- No sealing required
- Low VOC and low odor – contains no epoxy resins

**COLORS:**
Available in 40 LATICRETE colors. See Grout and Sealant Color Chart on page 78 for a list of available colors.

**PACKAGING**
1 gal (3.8 L) pail, 14 lb (6.3 kg)

READY-TO-USE™ Grout is an advanced professional-grade, ready-to-use premixed grout that delivers superior color consistency combined with excellent stain resistance.

**FEATURES/BENEFITS:**
- Easy to use and clean
- No mixing required
- No sealing required
- Maximum stain resistance
- Inhibits the growth of stain-causing mold and mildew in the grout joints
- Tough, durable and crack resistant
- Non-sag formula for walls and floors
- For maximum stain resistance use SPECTRALOCK® PRO Premium Grout*

**COLORS:**
Available in 40 LATICRETE colors. See Grout and Sealant Color Chart on page 78 for a list of available colors.

**PACKAGING**
1 gal (3.8 L) pail, 14 lb (6.3 kg)
SEALANT

A siliconized acrylic latex sealant for interior use on ceramic tile and stone. For use in bathrooms, kitchens, and floors.

**FEATURES/BENEFITS:**
- Resists staining, mold, mildew
- Cleans up easily with water
- Matches all 40 LATICRETE® grout colors
- Available in sanded and unsanded finishes

**COLORS:**
See Grout and Sealant Color Chart on page 78 for a list of available colors

**PACKAGING:**
- 10.5 oz (310 ml) cartridges
- 6 cartridges per carton
- 240 cartons per pallet

PREMIUM ACRYLIC CAULK

A siliconized acrylic latex sealant for interior use on ceramic tile and stone. For use in bathrooms, kitchens, and floors.

**FEATURES/BENEFITS:**
- Resists staining, mold, mildew
- Cleans up easily with water
- Matches all 40 LATICRETE® grout colors
- Available in sanded and unsanded finishes

**COLORS:**
See Grout and Sealant Color Chart on page 78 for a list of available colors

**PACKAGING:**
- #2 Unit Pail Kit (complete unit):
  - Unit net weight 28.5 lb (12.9 kg)
  - 48 pails per pallet
- #2 Unit Pail (liquid only):
  - Unit net weight 10.5 lb (4.8 kg)
  - 48 pails per pallet
- #4 Unit Carton (liquid only):
  - Unit net weight 16 lb (7.3 kg)
  - 56 cartons per pallet

**MIXING:**
Use SPECTRALOCK® Grout Part C Powders

A 100% silicone sealant for use in coves, corners, changes in plane, and expansion joints in exterior and interior applications of tile and stone.

**FEATURES/BENEFITS:**
- Can be used in swimming pools and other wet areas
- Conforms to ASTM C920 and ASTM C794 adhesion properties
- Ideal for bathrooms, kitchens, floors and other areas where sealant (caulk) is needed

**COLORS:**
Available in 40 colors plus Clear. See Grout and Sealant Color Chart on page 78 for a list of available colors

**PACKAGING:**
10.3 oz (305 ml) cartridges
6 cartridges per carton, 240 cartons per pallet

Increases adhesion for porous stone, submerged, and permanent wet areas.

**FEATURES/BENEFITS:**
- Ultimate bond for decorative wear surfaces
- Easily roller applied
- Provides a barrier between decorative wear surfaces and substrate below
- Required for applications where LATASIL™ will be used with porous stone, submerged and permanent wet areas

**PACKAGING:**
8 oz (240 ml) bottle; 5 bottles per carton; 50 cartons per pallet

### Grout and Sealant Color Guidelines

Grout and sealant samples are guides only. LATICRETE does not warrant color matching to this color chart or to any color guide produced. Actual shade and texture will depend on job site conditions, lighting, installation techniques and types of tile or stone used, and may vary from this grout color chart, grout color channel kits and grout color swatch on product packaging. Verify actual appearance and compatibility with a test area before installing. Blend grouts with different control numbers. Follow ANSI A108.10/MMSA Bulletin #9 grouting practices. No claims for color shade variations will be honored.

Calculated coverage indicated is approximate, based on “nominal” tile size and is provided for purposes of estimation only. Actual coverage will vary depending on job site conditions, actual tile size and installed grout joint size. Add 10% for waste, spillage and clean-up, and another 10% – 15% when grouting unglazed quarry tile. Expanded coverage tables at www.laticrete.com/coverage.

1500 Sanded & 1600 Unsanded:

44 - BRIGHT WHITE  40 - LATTE  70 - STERLING SILVER  89 - SMOKE GREY  88 - SILVER SHADOW
90 - LIGHT PEWTER  99 - MUSHROOM  24 - NATURAL GREY  17 - MARBLE BEIGE  23 - ANTIQUE WHITE

Grout and sealant Color Guidelines:

Grout and sealant samples are guides only. LATICRETE does not warrant color matching to this color chart or to any color guide produced. Actual shade and texture will depend on job site conditions, lighting, installation techniques and types of tile or stone used, and may vary from this grout color chart, grout color channel kits and grout color swatch on product packaging. Verify actual appearance and compatibility with a test area before installing. Blend grouts with different control numbers. Follow ANSI A108.10/MMSA Bulletin #9 grouting practices. No claims for color shade variations will be honored.

Calculated coverage indicated is approximate, based on “nominal” tile size and is provided for purposes of estimation only. Actual coverage will vary depending on job site conditions, actual tile size and installed grout joint size. Add 10% for waste, spillage and clean-up, and another 10% – 15% when grouting unglazed quarry tile. Expanded coverage tables at www.laticrete.com/coverage.

Approximate ft² (m²) coverage per 1 Gallon (3.8 L) unit.

Grout and sealant samples are guides only. LATICRETE does not warrant color matching to this color chart or to any color guide produced. Actual shade and texture will depend on job site conditions, lighting, installation techniques and types of tile or stone used, and may vary from this grout color chart, grout color channel kits and grout color swatch on product packaging. Verify actual appearance and compatibility with a test area before installing. Blend grouts with different control numbers. Follow ANSI A108.10/MMSA Bulletin #9 grouting practices. No claims for color shade variations will be honored.

Calculated coverage indicated is approximate, based on “nominal” tile size and is provided for purposes of estimation only. Actual coverage will vary depending on job site conditions, actual tile size and installed grout joint size. Add 10% for waste, spillage and clean-up, and another 10% – 15% when grouting unglazed quarry tile. Expanded coverage tables at www.laticrete.com/coverage.
Maximum Protection for You and Your Surfaces

Protect you, your customer and your porous surfaces with STONETECH® BulletProof® Sealer — the water-based, maximum stain protecting sealer that’s safe and effective.*
The premium, water-based penetrating sealer, designed to provide maximum protection against the toughest oil and water-based stains on the most porous natural stone, tile, masonry, and grout surfaces.

**RECOMMENDED SURFACES:**
For porous natural stone, tile, masonry and grout such as Marble, Granite, Basalt, Limestone, Bluestone, Travertine, Sandstone, Flagstone, Quartzite, and Saltillo Tile. Best suited for the most porous stone surfaces.

**FEATURES/BENEFITS:**
- Offers maximum stain protection
- Best protection for the most porous natural stone, tile, masonry and grout
- Preserves the original look of the surface
- Water-based formula is better for you and the environment
- For interior and exterior use
- Professional grade

The heavy duty, water-based penetrating sealer that provides advanced stain protection on a variety of stones, all while preserving the natural look of the stone.

**RECOMMENDED SURFACES:**
Natural stone and masonry surfaces such as Marble, Granite, Limestone, Slate, Bluestone, Quartzite, Travertine, Sandstone, Flagstone, and Saltillo Tile.

**FEATURES/BENEFITS:**
- Offers advanced stain protection
- Protects natural stone, tile, masonry, and grout
- Preserves the original look of the surface
- Water-based formula
- For internal and exterior use
- Professional grade

STONETECH® STONE, TILE & GROUT SEALER

The water-based, penetrating sealer that protects against stains on natural stone, tile, masonry and grout.

RECOMMENDED SURFACES:
Natural stone such as Polished Marble, Homogeneous Granite, Polished Limestone, Slate, and Polished Travertine.

FEATURES/BENEFITS:
- Offers stain protection
- Protects natural stone, tile, masonry, and grout
- Preserves the original look of the surface
- Water-based formula
- For internal and exterior use

See data sheet 230.25ST for warranty information.

The water-based sealer, designed to protect quartz, porcelain tile and medium to dense surfaces from oil and water based stains, all while preserving the natural look of the surface.

**RECOMMENDED SURFACES:**
Quartz, engineered stone and tile surfaces such as: Quartz, Polished Marble, Polished Granite, Porcelain Tile, and Ceramic Tile.

**FEATURES/BENEFITS:**
- Provides oil, water, and stains protection
- Designed for quartz, tile, and engineered stone
- Preserves the original look of the surface
- Water-based formula
- For interior and exterior use
- Suitable for food areas

SEALERS

STONETECH®
SALT WATER-RESISTANT SEALER

The water-based, penetrating sealer formulated to protect exterior surfaces from salt degradation due to salt water and de-icing salt exposure.

RECOMMENDED SURFACES:
Best suited for porous substrates. Treatment around salt water pools: Natural Stone, Porous Tile, Concrete Pavers, Terracotta, and Grout. Protection against de-icing salts: Poured Concrete, Aggregate, Pavers, and Flagstone. Not intended for use on surfaces that have previously been exposed to salt water and/or de-icing salts.

FEATURES/BENEFITS:
- Maximum protection against salt water and de-icing salt damage
- Protects porous natural stone, masonry and grout
- Weather and UV-resistant
- Water-based formula
- For exterior use

US ITEM #  PACKAGE SIZE  CASE
ST334-0401   gal (3.8 L)    4
ST334-0105   5 gal (18.9 L) 1
ST334-1202   2 oz (59 ml)   12

STONETECH HEAVY DUTY EXTERIOR SEALER

The solvent based sealer designed for exterior surfaces offers advanced stain protection and weather resistance on natural stone, masonry and grout.

RECOMMENDED SURFACES:
Natural stone and masonry surfaces such as Granite, Slate, Travertine, Sandstone, Tumbled Stone, and Concrete.

FEATURES/BENEFITS:
- Advanced protection against water-based stains
- Protects natural stone, masonry, and grout
- Minimizes efflorescence and repels water
- Provides weather resistance
- Solvent-based formula
- For exterior use

US ITEM #  PACKAGE SIZE  CASE
ST308-0632   quart 32 oz (473 ml) 6
ST308-0401   gal (3.8 L) 4
ST308-0105   5 gal (18.9 L) 1
ST308-1202   2 oz (59 ml) 12

May be subject to Volatile Organic Compound sales restrictions at the state, county and/or city level. Please see www.laticrete.com for further guidance.
STONETECH® ADVANCED GROUT SEALER

The quick and easy-to-use grout sealer, that offers maximum stain protection to keep cement-based grout looking new.

RECOMMENDED SURFACES:
Cement-based grout for Natural Stone, Ceramic, and Porcelain Tile.

FEATURES/BENEFITS:
- Offers maximum stain protection
- Fast acting — Apply as early as 2 hours after grouting
- Easy to use — Continuous flow spray allows for wall-to-floor application
- For interior and exterior use
- Solvent based formula

STONETECH HEAVY DUTY GROUT SEALER

The water-based, penetrating sealer is designed specifically for cement-based grouts and offers advanced protection against oil and water-based stains.

RECOMMENDED SURFACES:
Cement-based grout for Natural Stone, Ceramic, and Porcelain Tile.

FEATURES/BENEFITS:
- Offers advanced protection against oil and water based stains
- Fast acting — Apply as early as 2 hours after grouting
- Easy to use — Continuous flow spray allows for wall-to-floor application
- For interior and exterior use
- Solvent based formula

STONETECH® GROUT RELEASE

The easy-to-use, pre-grout coating that offers maximum protection on natural stone and masonry to prevent grout stains and haze, making grout installation clean-up quick and easy.

RECOMMENDED SURFACES:
Natural stone, masonry and concrete such as Marble, Limestone, Travertine, Slate, Sandstone, and Tumbled Stone. Not recommended for use on ceramic and porcelain tile or dense (low absorbency) stone.

FEATURES/BENEFITS:
- Maximum protection on natural stone and masonry
- Makes grout installation clean-up easier
- Prevents grout staining and grout haze
- Water-based formula
- For interior and exterior use

STONETECH STAIN PROTECTING GROUT ADDITIVE

STONETECH® Stain Protecting Grout Additive allows you to grout and seal in one easy step and ensure a lasting stain-resistant finish.

RECOMMENDED SURFACES:
For use with cement based sanded and unsanded grouts which allow for use of latex additives.

FEATURES/BENEFITS:
- Grout and seal in one easy step
- Offers protection against oil and water based stains
- Simply replaces water when mixing grout
- Will not alter grout color
- Water-based formulae

STONETECH® QUARTZ & TILE CLEANER

The ready-to-use, daily cleaner that removes dust, dirt, spills and light stains from quartz, engineered stone and tile surfaces.

RECOMMENDED SURFACES:
For quartz, engineered stone and tile surfaces such as Quartz, Polished Marble, Polished Granite, Porcelain Tile, and Ceramic Tile.

FEATURES/BENEFITS:
- For quartz, tile, and other engineered stone
- Daily cleaner — removes everyday spill and light stains
- No rinse, water-based formula
- Leaves a clean fresh scent
- Suitable for food areas
- Low VOC — Better indoor air quality
- Great for Cambria®, Silestone®, Zodiaq®, and Caesarstone® brand surfaces

STONETECH LUXURY VINYL & LAMINATE CLEANER

This no-rinse, daily cleaner is designed to quickly and safely remove tough dirt, grease, dust and everyday spills on all vinyl and laminate floors and countertops without dulling the surface.

RECOMMENDED SURFACES:
Luxury Vinyl Plank (LVP), Luxury Vinyl Tile (LVT), Laminate, Linoleum, and Resilient.

FEATURES/BENEFITS:
- Daily, pH neutral cleaner — quickly and safely removes tough dirt, grease, and daily spills
- No-rinse, easy-to-use formula — just spray and wipe
- Streak-free, residue-free, and non-dulling — leaves a clean, even finish on your floors and countertops
- No harsh chemicals (free of ammonia, parabens, phthalates, and more) — safe for use around you, your family and pets
- Low VOC — Better indoor air quality
- Leaves a clean, fresh scent

STONETECH® STAINLESS STEEL PRO CLEANER

The professional grade cleaner that clings onto stainless steel surfaces to eliminate grease, dust, smudges, and fingerprints and leave a streak-free finish.

RECOMMENDED SURFACES:
Stainless Steel. Do not use on colored Concrete, dyed Granite, and acid-sensitive stones such as Marble, Limestone, and Travertine.

FEATURES/BENEFITS:
- Cleans, polishes, and protects
- Leaves a streak-free finish
- Removes finger prints, smudges, water spots, and oily residues
- Professional grade — no hard scrubbing or buffing needed
- Foaming-action sprayer — avoids drips and over-spray

ENHANCERS

STONETECH® HIGH GLOSS FINISH & SEALER

The water-based, enhancing sealer that leaves a high shine, heavy duty finish to stone, porous tile, masonry, and grout.

RECOMMENDED SURFACES:
Natural stone, porous tile, masonry, and grout surfaces such as Slate, Textured Limestone, Textured Travertine, Concrete, Saltillo Tile, Bluestone, Sandstone, and Flagstone. Not intended for use on glazed, honed, polished, or non-absorbing surfaces, wood floors and decks, showers, countertops, or near pool areas.

FEATURES/BENEFITS:
- Leaves a brilliant shine and deepens color
- Protects against water and oil based stains
- Provides a heavy duty coating
- Water-based formula — better for you and the environment
- For interior use, on textured stone, porous tile, masonry, and grout

STONETECH SEMI GLOSS FINISH & SEALER

The water-based, enhancing sealer that leaves a semi gloss, heavy duty finish on stone, porous tile, masonry, and grout.

RECOMMENDED SURFACES:
Natural stone, porous tile, masonry, and grout such as Slate, Textured Limestone, Textured Travertine, Concrete, Saltillo Tile, Bluestone Sandstone, and Flagstone. Not intended for use on glazed, honed, polished, or non-absorbing surfaces (Ceramic Tile, Porcelain Tile), wood floors and decks, showers, countertops, or near pool areas.

FEATURES/BENEFITS:
- Leaves a subtle shine and deepens color
- Protects against water and oil based stains
- Provides a heavy duty coating
- Water-based formula — better for you and the environment
- For interior use, on textured stone, porous tile, masonry, and grout

SPARTACOTE FLEX XPL CLINICAL PLUS
Refer to Data Sheet 35249.0

A high solids, low VOC polyaspartic coating for both decorative and protective applications. Engineered to allow for extended working times and easier application combined with antimicrobial properties. Mix with SPARTACOTE™ FLEX XPL Part B at a 2:1 (by volume) mix ratio.

FEATURES/BENEFITS:
- Walk on in 2-4 hours, 24-hour return to service
- UV stable and is suitable for both interior and exterior applications
- Anti-microbial protection inhibits the growth of bacteria

COLORS:
Pigment Base: Available in 13 standard SPARTACOTE colors. Custom colors available upon request. See Polyaspartic PIGMENT Color Chart on page 128 for a list of available colors.

SPARTACOTE® FLEX XPL LOW GLOSS
Refer to Data Sheet 36591

A high solids, low VOC and minimal odor polyaspartic coating for both decorative and protective applications. SPARTACOTE™ FLEX XPL Low Gloss enhances any SPARTACOTE resinous flooring system by provide an attractive less reflective finish when used as a topcoat. Mix with SPARTACOTE FLEX XPL Part B at 2.3:1 (by volume) mix ratio.

FEATURES/BENEFITS:
- Attractive low gloss finish
- Walk-on 6-8 hrs/24-hour return to service
- UV Stable

PACKAGING:
SPARTACOTE FLEX XPL LOW GLOSS
Individual Units:
Part A: 2.3 gal (8.7) in a 3.5 gal (13.2 L) pail

SPARTACOTE™ FLEX SB
Refer to Data Sheet 086.4

Is a 72% solids, two-part polyaspartic aliphatic polyurea coating for both decorative and protective applications. This UV stable material may be applied in a variety of applications as a prime, mid or top coat depending on the system. 1:1 mixing ratio. NOTE: SPARTACOTE™ FLEX SB may not be available in all locations.

FEATURES/BENEFITS:
- Walk on in 2-4 hours, 24-hour return to service
- UV stable
- Low temperature cure (-30 F˚/-34 C˚)

SPARTACOTE™ POLYASPARTIC PIGMENTS

Refer to Data Sheet 086.2

Designed for use with SPARTACOTE™ polyaspartic coating products, SPARTACOTE Polyaspartic Pigments are available in 13 standard SPARTACOTE colors. These resin based pigments are dispersed directly into short-filled Part A Pigment base to create.

FEATURES/BENEFITS:
- 13 standard colors, including safety colors
- UV stable, suitable for exterior applications
- Excellent color hide and retention
- Easy to use on-site color dispersion system

MIXING:
1 qt for 0.75 gal (0.9 L for 2.8 L) short filled Part A.
1.25 gal for 3.75 gal (4.7 L for 14.2 L) short filled Part A

VAPOR REDUCTION COATINGS

VAPOR BAN™ ER is a rapid curing, single-coat epoxy moisture vapor barrier designed for controlling the moisture vapor emission rate from new or existing concrete slabs.

FEATURES/BENEFITS:
- Rapid cure (3-4 hours)
- Exceeds ASTM F3010
- Oil tolerant
- Tintable with SPARTACOTE Epoxy Pigments
- Accepts direct broadcast of chip or quartz

PACKAGING:
VAPOR BAN™ ER:
2.4 gal (9.1 L) Kit Contains:
Part A 1.0 gal (3.7 L)/Part B 1.4 gal (5.3 L)

VAPOR BAN ER Pigment Base:
2.2 gal (8.3 L) Kit Contains:
Part A 1.0 gal (3.7 L)/Part B 1.2 gal (4.5 L)
For use with 0.2 gal (0.8 L) SPARTACOTE Epoxy Pigments

Product | Item Number

VAPOR BAN ER Pigment Base Kit | 9223-0022-1
SPARTACOTE™ Moisture Vapor Barrier is a single-coat, 100% solids, liquid applied two component pre-measured epoxy coating specifically designed for controlling the vapor emission rate from new and existing concrete slabs. Designed for use with SPARTACOTE Epoxy Pigments, its also available in clear.

FEATURES/BENEFITS:
- Exceeds ASTM F3010 standard
- Can be applied over new concrete in as little as 5 days
- Compatible with SPARTACOTE resinous coating systems
- UL GREENGUARD Gold Certified

COLORS:
Pigment Base: Available in 9 standard colors. Custom colors available upon request. See SPARATACOTE Epoxy PIGMENTS Color Chart on page 132 for a list of available colors.

PACKAGING:
Mini Unit Kit* – 2.5 gal (9.4 L) Kit Contains:
Part A: 0.8 gal (2.8 L) packaged in steel pail/Part B: 1.7 gal (6.6 L) packaged in steel pail

Full Unit Kit* – 6.5 gal (24.6 L) Kit Contains:
Part A: 2.2 gal (8.3 L) packaged in steel pail/Part B: 4.3 gal (16.3 L) packaged in steel pail

SPARTACOTE™ MOISTURE VAPOR BARRIER Pigment Base:
Mini Unit Kit* – 2.5 gal (3 L) Kit Contains:
Part A: 0.8 gal (2.8 L) packaged in steel pail/Short Filled Part B: 1.4 gal (5.3 L) packaged in steel pail to receive 1 qt (0.9 L) SPARTACOTE Epoxy Pigment

Full Unit Kit* – 6.5 gal (22.7 L) Kit Contains:
Part A: 2.2 gal (8.3 L) packaged in steel pail/Short Filled Part B: 3.8 gal (14.3 L) packaged in steel pail to receive 0.5 gal (1.9 L) SPARTACOTE Epoxy Pigment

**SPARTACOTE™ GENERAL PRIMER**  
Refer to Data Sheet 622.6

SPARTACOTE™ General Primer is a general purpose primer designed for use under SPARTACOTE resinous coating systems. It provides good adhesion to a variety of substrate including concrete, steel, cement board and CMU.

**FEATURES/BENEFITS:**
- Low VOC, low odor
- Moisture tolerant
- Strong intercoat adhesion

**PACKAGING:**
- 5 gal (18.9 L) Kit  
  - Part A: 3.3 gal (12.5 L) in a 5 gal (18.9 L) pail  
  - Part B: 1.7 gal (6.4 L) in a 3.5 gal (13.2 L) pail

**SPARTACOTE WB EPOXY PRIMER**  
Refer to Data Sheet 085.8

A fast drying low odor, waterborne, catalyzed polymer primer for concrete substrates. The product provides excellent adhesion to new or existing concrete and is intended for use in conjunction with SPARTACOTE resinous coatings as a multicoat system. Available in Clear as well as, Light Grey and Black.

**FEATURES/BENEFITS:**
- LEED eligible low VOC formula
- Excellent intercoat adhesion
- Fast re-coat times

**PACKAGING:**
- Part A: 1.5 gal (5.7 L) in 3 gal (11.4 L) pail  
- Part B: 1 gal (3.8 L) pail

**MIXING:**
Combine three Parts A with two Part B by volume (3:2)

*SPARTACOTE™ General Primer is a kit of two pails. Individual pails (Part A or Part B) cannot be purchased separately, and cannot be returned separately.*
**SPARTACOTE™ SURFACE BUILD CLEAR**
Refer to Data Sheet 623.0

SPARTACOTE™ Surface Build Clear is a high performance two part epoxy designed specifically for quartz broadcast systems. It offers excellent abrasion and chemical resistance.

**FEATURES/BENEFITS:**
- Unique multi-colored patterns
- Low VOC, low odor
- Excellent abrasion and chemical resistance
- Easy quartz broadcast application

**PACKAGING:**
5 gal (18.9 L) Kit
- Part A: 3.3 gal (12.5 L) in a 5 gal (18.9 L) pail
- Part B: 1.7 gal (6.4 L) in a 3.5 gal (13.2 L) pail

---

**SPARTACOTE SURFACE BUILD PIGMENT BASE**
Refer to Data Sheet 615.0

SPARTACOTE Surface Build Pigment Base is a general purpose, semi self leveling epoxy coating. It exhibits good abrasion, wear and chemical resistance making it a versatile multi-functional epoxy. Designed to be used with SPARTACOTE Surface Build Pigments, it can be tinted Light Grey, Dark Grey, Black and Beige.

**FEATURES/BENEFITS:**
- Low VOC, low odor
- High solids composition
- Exceptional strength and flexibility
- Semi self-leveling

**PACKAGING:**
Short filled 5 gal (18.9L) kit
- Part A: 2.7 gal (10.2 L) in a 5 gal (18.9 L) pail
- Part B: 1.7 gal (6.4 L) in a 3.5 gal (13.2 L) pail

**COLORS:**
See PIGMENT Color Chart on page 135 for a list of available colors.

SPARTACOTE™ SURFACE BUILD PIGMENTS
Refer to Data Sheet 623.4

SPARTACOTE™ Surface Build Pigments are a color concentrate for use with SPARTACOTE Surface Build Pigment Base. Available in 4 standard colors.

FEATURES/BENEFITS:
- Low VOC
- Vibrant, consistent color
- Easy mixing

PACKAGING:
0.6 gal in a 1 gal (2.3 L in 1 3.8 L) pail

COLORS:
- Black
- Light Grey
- Medium Grey
- Sand Beige

SPARTACOTE SURFACE BUILD TOP COAT UV
Refer to Data Sheet 623.2

SPARTACOTE Surface Build Top Coat UV is a high performance top coat providing increased UV and chemical resistance to SPARTACOTE epoxy coating systems.

FEATURES/BENEFITS:
- Low VOC, low odor
- Provides additional UV protection
- Excellent intercoat adhesion
- Soap and water clean up

PACKAGING:
5 gal (18.9L) kit
- Part A: 3.1 gal (11.7 L) in a 5 gal (18.9 L) pail
- Part B: 1.9 gal (7.2 L) in a 3.5 gal (13.2 L) pail

SPARTACOTE™ EPOXY MEMBRANE
Refer to Data Sheet 622.3

SPARTACOTE™ Epoxy Membrane is a flexible epoxy membrane designed to bridge surface cracks in concrete. It can be used as an underlayment in any SPARTACOTE epoxy, urethane or polyaspartic resinous coating system.

FEATURES/BENEFITS:
- Exceptional strength and flexibility
- Designed for horizontal and vertical applications
- Easy to apply

PACKAGING:
5 gal (18.9 L) kit
- Part A: 3.0 gal (11.4 L) in a 5 gal (18.9 L) pail
- Part B: 2.0 gal (7.6 L) in a 3.5 gal (13.2 L) pail

Product Item Number
SPARTACOTE Epoxy Membrane 9800-0005-2

SPARTACOTE COVE GEL
Refer to Data Sheet 622.5

SPARTACOTE Cove Gel is an epoxy system designed for the installation of integral cove bases from 1/16” to 1/4” (1.5 to 6 mm) thick. It can be used in conjunction with SPARTACOTE epoxy, urethane and polyaspartic systems to create a seamless coating which extends protection from the floor up the wall.

FEATURES/BENEFITS:
- Low VOC, low odor
- Seamless transition between floors and walls
- Easy to apply

PACKAGING:
5 gal (18.9 L) kit
- Part A: 3.2 gal (12.1 L) in a 5 gal (18.9 L) pail
- Part B: 1.8 gal (6.8 L) in a 3.5 gal (13.2 L) pail

*SPARTACOTE Cove Gel is a kit of two pails. Individual pails (Part A or Part B) cannot be purchased separately, and cannot be returned separately.
SPARTACOTE™ Vertical HB
Refer to Data Sheet 622.8

SPARTACOTE™ Vertical HB is a multi-functional pigmented high build novolac epoxy coating for wall and ceiling applications. Available in a white gloss finish.

**FEATURES/BENEFITS:**
- Excellent adhesion on walls and ceilings
- Low VOC, low odor
- Excellent stain resistance

**PACKAGING:**
5 gal (18.9 L) kit
- Part A: 3.7 gal (14 L) in a 5 gal (18.9 L) pail
- Part B: 1.3 gal (4.9 L) in a 3.5 gal (13.2 L) pail

SPARTACOTE Urethane Floor Sealer WB
Refer to Data Sheet 626.0

SPARTACOTE Urethane Floor Sealer WB is a two component water born aliphatic coating. It offers the exceptional chemical and wear resistance inherent of urethanes. It also provides additional resistance to UV discoloration. Available in both a satin and matte finish.

**FEATURES/BENEFITS:**
- Low VOC, low odor
- Excellent chemical and abrasion resistance
- Excellent UV resistance
- Soap and water clean up

**PACKAGING:**
2 gal (7.6 L) kit
- Part A: 1.5 gal (5.7 L) in a 3 gal (11.4 L) pail
- Part B: 0.5 gal (1.9 L) in a 1 gal (3.8 L) can

SPARTACOTE™ URETHANE CEMENT

Refer to Data Sheets 14.4, 14.5 and 35237.0

A seamless flooring system typically installed at 1/8” to 1/4” (3 to 6 mm) in thickness depending on the application. It consists of a Part A and Part B liquid as well as a Part C filler and additional pigment pack. The system is intended for heavy duty environments and designed to withstand thermal shock, impact, abrasion and chemical exposure.

FEATURES/BENEFITS:
- Attractive matte finish
- Excellent thermal shock, chemical and abrasion resistance
- Low VOC, low odor
- Resistant to fungi per ASTM G-12

PACKAGING:
- Part A: 1 gal (3.8 L)/5 gal (18.9 L)
- Part B: 1 gal (3.8 L)/5 gal (18.9 L)
- Part C ATS Filler: 56 lb (25.40 kg)
- Part C SL Filler: 40 lbs (18.1 kg)
- Cove Base Filler: 28.5 lbs (12.9 kg)
- Top Coat Filler: 6.5 lbs (2.95 kg)
- Urethane Cement Pigment: 1 lb (0.45 kg)

Product | Item Number
--- | ---
1 gal Part A | 9250-0001-1
1 gal Part B | 9252-0001-1
ATS Part C Slurry Powder | 9254-0001-1
SL Part C Slurry Powder | 9254-0040-1
Cove Base Filler | 9249-0028-1
Top Coat Filler | 9255-0001-1

SPARTACOTE URETHANE CEMENT PIGMENT

A powder pigment packs designed for use within SPARTACOTE Urethane Cement systems to provide an attractive matte finish. Available in 6 standard colors.

FEATURES/BENEFITS:
- Attractive matte finish

Color | Item Number
--- | ---
Black | 9265-0001-1
Red | 9264-0001-1
Tan | 9263-0001-1
Green | 9262-0001-1
Medium Grey | 9261-0001-1
Dark Grey | 9260-0001-1
SPARTACOTE™ FAST FIX™ is a fast setting, two component hybrid urethane concrete repair material, with ultra-low viscosity properties allowing for deep penetration into concrete. Use either neat or with a kiln-dried sand to form a high strength concrete repair. Ready to grind smooth within 15 minutes following application. Also available in a low odor formulation.

**Features/Benefits:**
- High strength, permanent bond
- Use neat or with aggregate
- Excellent wetting properties
- Can be ground smooth in 15 minutes

**Packaging:**
2 gal (7.6 L) Box Kit Contains:
- Part A: 1 gal (3.8 L)/Part B: 1 gal (3.8 L)

Individual Items:
- Part A/Part B: 5 gal (18.9 L) steel pail with pour spout

SPARTACOTE Epoxy Fill Coat is an epoxy based material designed for filling surface defects, pinholes and voids in concrete substrates. It can be troweled or squeegeed for use in both horizontal and vertical applications.

**Features/Benefits:**
- Low VOC, low odor
- Designed for horizontal and vertical applications
- Easy to apply by trowel or squeegee

**Packaging:**
2 gal (7.6 L) kit
- Part A: 1.4 gal (5.3 L) in a 3.5 gal pail
- Part B: 0.6 gal (2.3 L) in a 3.5 gal pail

*SPARTACOTE Epoxy Fill Coat is a kit of two pails. Individual pails (Part A or Part B) cannot be purchased separately, and cannot be returned separately.*
Decorative vinyl and mica color chips (flakes), are specially blended chip media to be used within SPARTACOTE™ decorative resinous coating systems. This unique product is random in shape, sized within a standardized range and custom blended in 13 SPARTACOTE colors to match any decor.

**FEATURES/BENEFITS:**
- Good flexibility and strength
- Easy to install
- Non-flammable
- Compatible with SPARTACOTE resinous coatings

**PACKAGING:**
- Vinyl Chip: 40 lb (18.1 kg) box
- Mica Chip: 10 lb (4.5 kg) box

Colored quartz aggregates are composed of uniformly shaped and sized color quartz granules color-coated with a UV stable urethane coating. Select from one of ten decorative SPARTACOTE™ blends to provide a customized look that will enhance appearance while providing increased traction and durability.

FEATURES/BENEFITS:
- UV Stable
- Optimal size/shape uniformity
- Extreme abrasion and impact resistance
- Outstanding slip resistant qualities

PACKAGING:
- 50 lb bag (22.7 kg)

SPARTACOTE® METALLIC PIGMENTS
Refer to Data Sheet 085.7

SPARTACOTE™ METALLIC PIGMENTS use synthetically produced aluminum platelets coated with metal oxides to produce beautiful color intensity and luster. Designed to be added directly into SPARTACOTE coating products, these materials may be applied using a variety of methods depending on the desired final appearance.

FEATURES/BENEFITS:
- Provides incredible depth and radiance
- High reflectivity
- UV Stable
- Easy field blending and application
- Unlimited application potential

PACKAGING:
- 8 oz (237 ml) bottle

www.laticrete.com
A full line of traction additive materials for use within SPARTACOTE™ coating systems. This material is extremely lightweight. A viable alternative to heavier aggregates, SPARTACOTE GRIP can be dispersed and suspended directly into coatings or broadcast depending on application.

**FEATURES/BENEFITS:**
- Improves flooring system traction
- Suspends evenly into top coats
- Improves durability
- Preserved finish and clarity

**PACKAGING:**
- 40 mesh (largest) in a 16 fl. oz jar
- 60 mesh in a 16 fl. oz jar
- 100 mesh (smallest) in a 16 fl. oz jar

A specialized additive for use in extreme heavy-traffic situations during the top coating phase of a project. SPARTACOTE DIAMOND TOPP™ will leave a light sandpaper texture and matte finish.

**FEATURES/BENEFITS:**
- Texture, non-slip surface
- Matte finish
- High chemical and stain resistance

**PACKAGING:**
- 3 lb (1.4 kg) unit
- 50 lb (22.7 kg) unit

SPARTACOTE™ Urethane Cement
L&M™ DEBOND® is a non-staining, low VOC, concrete form release for application to all types of concrete forms.

**FEATURES/BENEFITS:**
- Reduces concrete build-up and bugholes
- Non-residual, non-staining
- Effective on all types of forms
- Low odor

**PACKAGING:**
- 1 gal (3.8 L)
- 5 gal (18.9 L)
- 55 gal (208 L)
- 275 gal (1040 L) totes

L&M™ DEBOND GOLD is a non-staining, low VOC, concrete form release for application to all types of concrete forms, but especially for use in demanding pre-stress and precast applications.

**FEATURES/BENEFITS:**
- Premium quality release for prestress and precast plants
- Helps eliminate concrete build-up and bugholes
- Non-residual, non-staining
- Low VOC

**PACKAGING:**
- 5 gal (18.9 L)
- 55 gal (208 L)
- 275 gal (1040 L) totes

**APPROXIMATE COVERAGE**

For pipe plants, block plants, paving equipment:
Coat lightly before each use.

FORM COATINGS/CURING COMPOUNDS
www.laticrete.com
L&M CURE W2™ is a water-based, emulsified wax, liquid membrane forming curing compound for freshly finished concrete. L&M CURE W2 has a white pigment which reflects the sun’s rays to help keep the concrete surface cooler, and helps maximize water retention.

FEATURES/BENEFITS:
- Good moisture retention properties
- Very low odor for interior applications
- Recommended for exterior pavements
- Water-borne

PACKAGING:
- 5 gal (19 L)
- 55 gal (208 L)

APPROXIMATE COVERAGE
- Surface and texture porosity determines coverage rate.

L&M™ DRESS & SEAL™ is a sprayable, acrylic copolymer that cures, seals, and dustproofs concrete. L&M DRESS & SEAL is a tough impervious acrylic which retains moisture, curing the concrete for maximum hardness.

May be subject to Volatile Organic Compound sales restrictions at the state, county and/or city level. Please see TDS 280 at www.laticrete.com for further guidance.

**FEATURES/BENEFITS:**
- Protects sound concrete from dusting when used as directed
- Easy to spray formula
- Excellent curing and sealing properties
- Enhances the look of colored, stamped concrete

**PACKAGING:**
- 1 gal (3.8 L)
- 5 gal (18.9 L)
- 55 gal (208 L)

---

L&M DRESS & SEAL 30™ is the highest solids version of our popular L&M DRESS & SEAL products. L&M DRESS & SEAL 30 is a ready to use, acrylic copolymer that cures, seals, and dustproofs concrete.

May be subject to Volatile Organic Compound sales restrictions at the state, county and/or city level. Please see TDS 280 at www.laticrete.com for further guidance.

L&M™ LUMISEAL PLUS™
Refer to Data Sheet 172.6

L&M™ LUMISEAL PLUS™ is a solvent based, non-yellowing, blush resistant curing and sealing compound. When used as a sealer, LUMISEAL PLUS is designed to provide an attractive high gloss finish on concrete substrates. May be subject to Volatile Organic Compound sales restrictions at the state, county and/or city level. Please see TDS 280 at www.laticrete.com for further guidance.

FEATURES/BENEFITS:
- Excellent curing and sealing properties
- Enhances the look of colored, stamped concrete
- Excellent for exposed, decorative concrete
- Clear, High gloss finish

PACKAGING:
- 1 gal (3.8 L)
- 5 gal (18.9 L)
- 55 gal (208 L)

L&M DRESS & SEAL WB™
Refer to Data Sheet 173.1
8-13-305-1035/8-13-305-1036/8-13-305-1037

L&M DRESS & SEAL WB™ formulations are water-based, acrylic copolymer solutions that cure, seal and dustproof concrete without yellowing. May be subject to Volatile Organic Compound sales restrictions at the state, county and/or city level. Please see TDS 280 at www.laticrete.com for further guidance.

FEATURES/BENEFITS:
- Water-based formulation that protects sound concrete from dusting when used as directed
- Easy to spray formula
- Excellent curing and sealing properties
- Enhances the look of colored, stamped concrete

L&M LUMISEAL FX™
Refer to Data Sheet 172.5

L&M LUMISEAL FX™ is a high solids, water-based, non-yellowing, blush resistant curing and sealing compound. When used as a sealer, LUMISEAL FX is designed to provide an attractive medium gloss finish on concrete substrates.

FEATURES/BENEFITS:
- Easy to apply
- Low odor
- Excellent curing and sealing properties
- May be used indoors or outdoors
- May be used on FGS PERMASHINE polished concrete
- Compatible with previously sealed concrete

PACKAGING:
- 4 x 1 gal (3.8 L)
- 5 gal (19 L)
- 55 gal (208 L)

APPROXIMATE COVERAGE
Typical Coverage Rates (depending on texture and porosity)

- Top coat for polished concrete: 800-1,000 ft²/gal (20 to 25 m²/liter)
L&M™ AQUAPEL™ is a new generation, 100% reactive, waterborne silane-siloxane sealer.

FEATURES/BENEFITS:
- Easy to apply
- Protects against salt and water intrusion
- Improves the life of concrete
- Prevents pop-outs, pitting, scaling, and spalling
- Low VOC

PACKAGING:
4 x 1 gal (3.8 L)
5 gal (18.9 L)
55 gal (208 L)

L&M™ AQUAPEL PLUS™ is a sealer designed for increased long-term protection on porous concrete, elevated structural traffic bearing concrete slabs, and on normal concrete with severe exposure to salt and water.

FEATURES/BENEFITS:
- Easy to apply, high solids formulation
- Protects against salt and water intrusion
- Use on horizontal or vertical surfaces
- Improves the life of concrete
- Prevents pop-outs, pitting, scaling, and spalling
- Low VOC

PACKAGING:
5 gal (18.9 L)
55 gal (208 L)

**L&M™ FGS HARDENER PLUS™**

Refer to Data Sheet 174.9
8-04-155-1535/8-04-155-1534

L&M™ FGS HARDENER PLUS™ is a proprietary, chemical hardening solution that is formulated to increase the wear resistance and surface strength of concrete floors that have been mechanically ground, smoothed, and polished.

**FEATURES/BENEFITS:**
- Low VOC and low odor
- Easy to apply and fast drying
- Increases abrasion and impact resistance

**PACKAGING:**
- 5 gal (18.9 L)
- 55 gal (208 L)

L&M™ VIVID DYE™ is translucent, decorative concrete dye designed to penetrate and color any cementitious surface. Ideal for use in L&M FGS Permashine polished concrete as a base color or touch up color.

FEATURES/BENEFITS:
- 22 standard colors available
- Easy to apply and fast drying
- Mix with acetone
- Custom colors available

PACKAGING:
Available in 8 oz plastic bottles, mixes with 1 gallon of acetone.
8 oz (0.2 L) Plastic Bottle, mixes to 1 gal
32 oz (0.9 L) Plastic Bottle, mixes to 5 gal

APPROXIMATE COVERAGE
L&M™ VIVID DYE™ coverage rates will vary significantly from floor to floor based on the roughness or texture of the concrete, porosity and the mix design.

L&M VIVID DYE WB PLUS™ is a water-based, translucent dye for concrete surfaces. It is formulated using extremely fine molecules of color designed to penetrate and color any cementitious surface. L&M VIVID DYE WB PLUS was created for use with the L&M FGS PERMASHINE® polished concrete floor system, and can be used as a base color or touch-up color for acid stained concrete or as a coloring agent.

FEATURES/BENEFITS:
- 22 standard colors available
- Easy to apply and fast drying
- Custom colors available

PACKAGING:
Available in 8 oz plastic bottles, mixes with 1 gallon of water.
8 oz (237 ml) Plastic Bottle
32 oz (946 ml) Plastic Bottle

APPROXIMATE COVERAGE
L&M VIVID DYE WB PLUS™ coverage rates will vary significantly from floor to floor based on the roughness or texture of the concrete, porosity and mix design.

L&M™ CHEM HARD™, chemically reacts with soft free lime and calcium carbonate compounds in concrete to densify and create, chemically resistant surfaces.

FEATURES/BENEFITS:
- Low VOC and low odor
- Easy to apply
- Economical
- Seals, hardens, and densifies concrete surfaces

PACKAGING:
5 gal (18.9 L)
55 gal (208 L)

L&M™ CHEM HARD™
Refer to Data Sheet 175.0
804-151-1171 / 804-151-1169

L&M LION HARD™ is a low VOC, environmentally friendly lithium silicate concrete floor densifier, hardener, and sealer. This product penetrates bare concrete surfaces and transforms them into dust free floors that get better with age.

FEATURES/BENEFITS:
- Low VOC and low odor
- Easy to apply
- Environmentally-friendly
- Seals, hardens, and densifies concrete surfaces

PACKAGING:
5 gal (18.9 L)
55 gal (208 L)

APPROXIMATE COVERAGE
Two coats recommended 300 ft²/gal (7.3 m²/L)

Typical Application Rates: Coverage dependent upon surface texture and porosity. Typical rate is 600-800 ft²/gal (14.7-19.6 m²/L) on hard troweled, dense concrete. One coat normally recommended. For best results on porous concrete surfaces, apply second coat after the first coat has dried completely and any dried residue has been removed.

Polished concrete: Apply two coats, the first at 400-600 ft²/gal (9.8-14.7 m²/L) and the second at 600-800 ft²/gal (14.7-19.5 m²/L) for maximum hardness and surface durability, per instructions.
L&M™ SEAL HARD™
Refer to Data Sheet 174.6
8-04-153-1179/8-04-153-1182

L&M™ SEAL HARD™ seals, hardens, densifies, and dustproofs concrete surfaces.

FEATURES/BENEFITS:
- Seals, hardens and densifies the surface
- Non-slip, certified high traction
- Low VOC and low odor
- Dramatic long-term maintenance cost reduction
- 10 year warranty against dusting

PACKAGING:
- 5 gal (18.9 L)
- 55 gal (208 L)

APPROXIMATE COVERAGE
- 200 ft²/gal (4.9 m²/L)

L&M EMERYPLATE FF™
Refer to Data Sheet 175.4
9-37-703-1282

L&M EMERYPLATE FF™ is a high strength dry shake for industrial concrete floors requiring additional abrasion and chemical resistance. L&M EMERYPLATE FF consists of 100% pure, scientifically graded polyhedral shaped isostructures of emery/corundum and aluminum oxide for hardness, as well as iron oxide for toughness.

FEATURES/BENEFITS:
- “Rust Free” for use on interior or exterior floors
- Outperforms iron oxide aggregates in wear resistance
- Excellent abrasion resistance
- Lowers maintenance costs

PACKAGING:
- 55 lb (25 kg) bag

APPROXIMATE COVERAGE
- Heavy duty 1.0 lb-1.5 lb/ft² (4.9-7.3 kg/m²)

Two coats required. Additional coats may be necessary under certain porous conditions.
Apply second coat after first coat has completely dried.
Second coat: 300 ft²/gal (8.6 m²/L)
L&M™ EMERYTOP 400™ is an abrasion resistant, heavy duty floor topping. This flowable, natural emery aggregate floor topping produces a long-lasting and resilient floor.

**FEATURES/BENEFITS:**
- Excellent abrasion and chemical resistance
- Extraordinarily tough aggregate
- Chemically enhanced cement paste
- Flowable consistency
- Fast turnaround for weekend shutdowns

**PACKAGING:**
- 55 lb (25 kg) bag
- 3,000 lbs (1,361 kg) Super sack

L&M™ CRYSTEX™ is a ready-mixed, high strength, highly fluid, controlled expansion grout with superior dynamic load stability. L&M CRYSTEX contains a balanced blend of ingredients, which controls positive expansion in all directions.

FEATURES/BENEFITS:
- Extended work time; easy placement
- Precision, high strength
- Dynamic load stability

PACKAGING:
55 lb (25 kg) bag

APPROXIMATE COVERAGE
One bag yields approximately 0.5 ft³ (13.5 L)

L&M DURAGROUT™ is a ready-mixed, non-shrink, non-metallic, flowable, high-strength structural grout.

FEATURES/BENEFITS:
- High strength
- Can be mixed at varying range of consistencies
- Easy to place

PACKAGING:
55 lb (22.7 kg) bag

APPROXIMATE COVERAGE
One bag yields approximately 0.4 ft³ (12.5 L)
L&M™ EPOGROUT 758™

Refer to Data Sheet 176.9
9-19-410-1165

L&M™ EPOGROUT 758™ is a three-component, flowable, epoxy-based grout that produces high performance strength and chemical inertness. L&M EPOGROUT 758 is scientifically formulated with a high aggregate to resin ratio to provide high strength while allowing easy flowable placement.

FEATURES/BENEFITS:
- Easy to place
- Fast cure, high early strengths
- Fast turnaround projects
- High compressive strength

PACKAGING:
- 63.5 lb (28.8 kg) Single Unit
- 6.9 lb (3.1 kg) pail Resin (A)
- 1.6 lb (0.7 kg) pail Hardener (B)
- 55 lb (25 kg) bag Aggregate

APPROXIMATE COVERAGE

One bag yields approximately 0.5 ft³ (0.01 m³)
L&M DURACRETE™ is a single component, polymer-reinforced, high-strength, cement-based patching and resurfacing mortar. L&M DURACRETE is designed to repair, slope, and level structurally sound interior and exterior concrete surfaces that are pitted, worn, scaled, or spalled.

FEATURES/BENEFITS:
- Excellent abrasion resistance
- Excellent bond strength
- May be mixed with coarse aggregate
- Long lasting concrete repairs
- Versatile indoor and outdoor use

PACKAGING:
50 lb (22.7 kg) bag

L&M™ E-CON™ is a concentrated, odorless, water-based polymer liquid that, when placed on fresh concrete, helps to control the rate of evaporation and extend workability. L&M E-CON is ideal for achieving superior quality flatwork in challenging conditions such as high and low temperatures, low humidity, high winds, and direct sunlight.

**FEATURES/BENEFITS:**
- Low VOC/no odor
- Easy application
- Prevents surface crusting
- Reduces plastic shrinkage cracks

**PACKAGING:**
- 4 x 1 qt (1 L)
- 4 x 1 gal (3.8 L)
- 5 gal (18.9 L)
- 55 gal (208 L)
- 275 gal (1,040 L)

**APPROXIMATE COVERAGE**
- Roughened concrete: 200-400 ft²/gal (4.9-9.8 m²/L) after dilution
- Plaster or smooth concrete: 300-400 ft²/gal (7.4-9.8 m²/L)

L&M™ E-CON™
Refer to Data Sheet 172.9
8-22-454-2100/8-22-451-1204/8-22-451-1205
8-22-451-1202/8-22-451-1206

L&M EVERBOND™ is a versatile acrylic polymer emulsion that can be used either as a bonding adhesive or as an admixture that enhances portland cement-based mixes, giving these mixes improved flexural, tensile, and bond strength.

**FEATURES/BENEFITS:**
- Excellent bond strength
- Versatile bonding agent
- Excellent freeze/thaw resistance
- Excellent flexural strength

**PACKAGING:**
- 4 x 1 gal (3.8 L)
- 5 gal (18.9 L)

L&M EVERBOND™

L&M™ JOINT TITE 750™

Refer to Data Sheet 176.5
7-40-752-1474/7-40-752-1475/7-40-752-1472

L&M™ JOINT TITE 750™ is a self-leveling, 100% solids, two component, rapid curing, polyurea control joint and crack filler. L&M JOINT TITE 750 is designed to fill interior random cracks, damaged control joints, saw cut control joints, and construction joints in industrial concrete floors. L&M JOINT TITE 750 is designed specifically for commercial, retail, and manufacturing floor applications which receive high volume vehicle traffic, such as fork lift or hard rubber wheel carts.

**FEATURES/BENEFITS:**
- Rapid cure
- Accepts dye
- Excellent shore hardness
- Versatile material used in concrete cracks, joints, and spalls

**APPARENT COVERAGE**
Linear Feet (Meters) per Gallon (3.8 L)

**Note:** Does not figure in waste for overfill.

**PACKAGING**
The L&M JOINT TITE 750 system consists of two component units packaged as follows: 10 gal (37.9 L) Unit: 5 gal (18.9 L) of “A” side and 5 gal. (18.9 L) of “B” side. Also available in a 20 oz (600 ml) dual cartridges with static mixing nozzle.

LATASIL™

Refer to Data Sheet 6200.1
62XX

A 100% silicone sealant for use in coves, corners, changes in plane, and expansion joints in exterior and interior applications of tile and stone. LATASIL™ silicone sealant is now available in 40 colors, plus clear.

LATASIL 9118 PRIMER

Refer to Data Sheet 6528.1
9118-0601-2

A single component, primer adhesive designed to increase the adhesion of porous stone or permanently wet/underwater applications.

LATASIL™ sealants are available in all 40 colors:

Note: Great color availability subject to change. Visit www.laticrete.com for the most current color selections. See page 78 for color chart.
EMERYTOP 400™ is the World’s Toughest Floor. Guaranteed.

www.laticrete.com
The SUPERCAP® System combines our industry leading, patented pump truck technology and innovative products to deliver perfectly flat, dry floors.

Ensure your substrate is ready to accept tile or stone finishes with LATICRETE® or SUPERCAP® surface preparation products. Preparing your surface for stone, tile, porcelain, carpeting or specialty finish materials guarantees a long-lasting, durable installation. Easily prepare and protect your installation from water vapor transmission with LATICRETE NXT™ self leveling, skim coat, and vapor reduction products. Select the SUPERCAP system for high-volume or high-elevation projects.
**YOU’LL SEE VERY TANGIBLE BENEFITS.**

**Time savings**
The underlayment goes down at least 50% quicker, the cure is fast and following trades can be back working on a perfectly flat floor in 24 hours. That adds up to real time savings and you know what that means.

**Cost effective**
The volume and efficiencies that SUPERCAP® offers lead to fewer man hours and lower costs. Because of our mobile blending unit, we can complete a floor at about a third less cost. And that doesn’t even factor in the lower costs for following trades doing their jobs faster.

**Jobsite safety**
No more loading the building, staging thousands of small bags and creating respirable silica dust. A small crew manning a hose is the only thing you’ll see in the building.

**Pumps 30,000 lbs (13068 kg) an hour, equivalent to 600 small bags an hour**
That’s some serious volume never before achieved. Just think how much labor and equipment you would need to match that. Along with tying up the loading dock and building lift.

**SUPERCAP® Warranty**
SUPERCAP will perform for years to come. Our products have a 10 year limited warranty and we offer a 25 year limited system warranty – covering product, labor and materials.
Great for flat floors, shortening schedules and safer job sites. With our system of premium self-leveling underlayment (SLU) and patented mobile blending unit, we can correct concrete deflection to an extremely flat specification at a blistering rate. Which allows the following trades to maximize their efficiency too. And we do it without tying up lifts or creating harmful dust, making for a safer job site. It’s the only system like this in North America.

NEW SUPERCAP® offers a medium/coarse-sanded, pumpable and pourable, low alkali cement-based, premium SLU that can be polished and is suitable as a high-strength wear surface.

SUPERCAP® SC650-MC
2,500 lb. (1134 kg) super sack
50 lb. (22.7 kg) bag sanded

SUPERCAP SC500
2,300 lb. super sack (1043.3 kg)
50 lb. bag (22.7 kg) sanded

SUPERCAP SC500-PLUS

SUPERCAP SC500-LW

Visit: laticretesupercap.com for more details
UL Greenguard Gold Certification ensures that our products have met the rigorous and comprehensive standards for low emissions of volatile organic compounds.

SUPERCAP® PRIMER PLUS

264 gallon (1000 L) heavy-duty intermediate bulk container (IBC) 5 gallon (18.9 L) pail

Is a premium quality, water-based solution which penetrates deep into the substrate and maximizes bond strength. Can be used on a wide range of substrates including concrete, VCT, exterior glue plywood, quarry tile, ceramic tile and stone. A single product designed for many applications.

SUPERCAP MOISTURE VAPOR CONTROL (MVC)

Available in Full and Mini Unit Kit (2 Pails): 6.5 Gal (24.6 L) and 2.5 Gal (9.4 L)

Is a single-coat, 100% solids, liquid applied 2-part epoxy coating specifically designed for controlling the moisture vapor emission rate from new or existing concrete slabs prior to installing SUPERCAP® underlayment. SUPERCAP Moisture Vapor Control (MVC) exceeds ASTM F3010

SUPERCAP® SKIMCOAT

10 lb. (4.5 kg) plastic, tin tie resealable bags/4 bags per carton

SUPERCAP Skimcoat is a premium quality, fast-drying, cement-based underlayment designed for skim-coating, smoothing and leveling prior to the application of floor coverings.

SUPERCAP® goes beyond OSHA’s new silica dust regulations.

Shimming and scribing is reduced by as much as 75% because of our extremely flat floors.

---

**Notes:**

- **E** = Recommended for exterior and interior applications.
- **I** = Recommended for interior applications only.
- **N** = Not recommended for these applications.

1. Structurally sound, clean, free of dust, laitance, dirt, oil, grease, wax, sealers and curing compounds; floor systems over which tile or stone will be installed shall be in conformance with the International Residential Code (IRC) for residential applications, the International Building Code (IBC) for commercial applications, or applicable building codes; concrete must be 28 days old w/ 7 day damp cure unless using 3701 Latex Thin-Set Mortars or 254 Premium Mastic.

2. For existing resilient flooring, ceramic tile, terrazzo, and non-water soluble cutback adhesive, see LATICRETE  TDS 266.0.

3. Requires gauging with a LATICRETE ® Latex Additive (see recommended combinations above) for all applications unless using 3701 Mortar Admix – see data sheet 231.0.

4. Exterior use requires gauging with 333 Flexible Additive (residential and light commercial installations) and that are not continuously submerged – see data sheet 246.0 or STRATA_MAT™ for light commercial installations – see data sheet 273.0.

5. Use on an approved, waterproofed and properly bedded cementitious bond breakers (tile, brick, or stone). Floors only (interior and exterior).

6. Requires gauging with 3701 Mortar Admix – see data sheet 231.0.

7. Requires gauging with 3701 Mortar Admix – see data sheet 266.0.

8. Requires gauging with 3701 Mortar Admix – see data sheet 230N.

9. Requires surface to be abraded with a carborundum disk and cleaned thoroughly prior to application.

10. Requires gauging with 333 Flexible Additive – see data sheet 266.0.

11. Requires surface to be abraded with a carborundum disk and drilled through prior to application.

12. A two-acrylate system may require bond testing or mechanical ablation to ensure curing compounds, sealers or other primer/binder systems are removed. See Technical Data Sheets for guidelines and surface preparation requirements.

13. Refer to TDS 230N for preparation and installation guidelines.

14. Use with NXT Finish Adhesive.

15. Requires mixing with NXT Finish Adhesive.

16. Requires gauging with LATAPOXY® Waterproofing Mortar – see Technical Data Sheet TDS 285.0.

17. Large and heavy installations that are not continuously submerged or installed over diamond metal lath which has been mechanically fastened into the studs, or other potential bond breakers are removed – see TDS 230N for guidelines and surface preparation requirements.

18. Contact LATICRETE Technical Services Dept. for exterior applications.
The TWA Hotel at New York’s JFK Airport Soars to New Heights

If any one word describes the old TWA terminal at New York’s John F. Kennedy International Airport, it is “cool.” Constructed in 1962, under the auspices of architect Eero Saarinen and Howard Hughes (the film noir dubbed “The Jynx”), the TWA Flight Center evoked every element of 1960s style and the dawn of the jet age. The terminal was designed by New York Landmark and is on the National Register of Historic Places.

The original Flight Center is flanked by two new low-rise hotel buildings with 512 guestrooms. The TWA Flight Center is the only hotel inside JFK. The project general contractor, Turner Construction—New York, turned to Pyramid Floor Covering and the LATICRETE SUPERCAP® System to help with both delivering flat floors to build out on and to save critical time.

Construction supervisors said, “JFK is a very complex location to operate in, we challenge tremendously. No fixed stationary pumps, no hand mixing, no small general contractor, Turner Construction – New York, turned to Pyramid Floor Covering and the LATICRETE SUPERCAP® System to help with both delivering flat floors to build out on and to save critical time.”

The SUPERCAP System combines LEED contributing, GREENGUARD certified, low alkali, self-heving cement-based technology with a computer-controlled mobile blending unit.

150-Year-Old Cathedral of the Holy Cross Receives First-Ever Renovation

The Cathedral of the Holy Cross has been a staple in Boston’s Catholic community and has played host to many significant events in U.S. history including 1964’s requiem mass to mourn the assassination of President John F. Kennedy, Pope John Paul II’s first trip to the United States in 1979 and an interfaith service where President Obama addressed the nation after the 2013 Boston Marathon bombing.

Generations of use had taken a toll on the cathedral and with any historic structure, the renovation process can be full of surprises. The project teams needed to be capable of creatively finding solutions that could repair any bumps that came up along the way with ease and respect to the original building.

The flooring portion of this project included the installation of 20,000 square feet (1,858 m²) of 18" x 18" (45.7 x 45.7 cm) tile and the floor needed to be perfectly flat. By using a combination of STRATA, NXT, HYDRO BAN® Board, the installers were able to level the floor, set the subfloor and set the tile.

Most of the products selected for use have received multiple certifications and declarations for sustainable living, including Health Product Declarations (HPD), Environmental Product Declarations (EPD) and UL GREENGUARD Certifications for low chemical emissions.

PRODUCT USED:
- STRATA™, SPECTRALOCK® PRO Premium Grout®
- HYDRO BAN Board, PERMACOLOR® Select®, MULTIMAX™ Lite, NXT Level
