## Resinous Flooring for Car Dealerships

Car dealership service bay areas and shop floors present several challenges for their facility managers and owners. These garage floor spaces require high uptime with customized aesthetics for the car dealership's brand. Additionally, they require safe, nonslip flooring characteristics as well as easy to clean properties.

LATICRETE coatings pros understand the facility requirements faced within car dealership service bay areas and commercial garage flooring. These spaces require safety above all else, with long-term durability a must. Not just any flooring solution can handle the demands of such tough garage floor spaces. Car dealership shops and service bays cannot afford facility downtime. Being down means lost dealership revenue.

High performance garage flooring coating systems by LATICRETE offer your car dealership service bay area fast return to service, high uptime, and safe, nonslip characteristics. These customizable coating systems also make garage floor maintenance easy.

Explore the following specialized commercial garage floor coating systems below for car dealership service bay areas and shop floors.

## Resinous Flooring & Vertical Systems have been used successfully in a number of car dealership applications including:

- Garage service bays
- Mechanical areas
- Entries
- Waiting rooms
- Offices
- Bathrooms
- Hallways

Explore SPARTACOTE™ high performance resinous flooring systems below and talk with a SPARTACOTE technical representative to discuss your next project today.
