Globally Proven Construction Solutions
Resinous Flooring & Vertical Systems for Veterinary Clinics and Dog Kennels

Veterinary clinics, dog kennels and animal holding facilities are demanding spaces for flooring. They require high uptime for the animals and people they serve as well as safe, nonslip characteristics.

Veterinary professionals and their administrators seek top quality, solutions-based, floor coating system approaches for their dog kennel flooring that are also long-lasting and easy to clean.

LATICRETE offers a number of specialized coating systems to enhance the quality and durability of the various rooms found within dog kennels and animal clinics and even outdoor kennel environments. These proven dog kennel floor coating systems are safe, easy to install, and provide peace-of-mind with the technical expertise to back them up.

These easily maintainable systems are available in a variety of finishes and textures with custom colors available. Industry leading coating systems and a network of seasoned technical representatives and approved installers ensure the long-lasting performance of your healthcare flooring and wall project.

SPARTACOTE™ Resinous Flooring & Vertical Systems have been used successfully in a number of veterinary clinic and dog kennel applications including:

- Operating rooms
- Recovery rooms
- Lobbies and hallways
- Kennels
- Laboratories
- Play and walkway areas

Explore SPARTACOTE™ high performance resinous flooring systems below and talk with a SPARTACOTE technical representative to discuss your next project today.
