- Systems warranties

Globally Proven Construction Solutions
Proven Coating System Installations for Retail and Shopping Malls

Resinous Flooring & Vertical Systems for Retail and Shopping Malls
Retail and shopping malls present challenges for commercial flooring solutions. These spaces require high uptime with customized, beautiful aesthetics for commercial retail tenets and shopping mall owners. Additionally, these floors must possess safe, nonslip flooring characteristics as well as easy to clean properties for all the foot traffic they see on a daily basis.

LATICRETE commercial epoxy floor coatings pros understand the facility requirements faced within commercial retail and shopping mall environments. These spaces demand regular cleaning and maintenance, and long-term durability. Not just any flooring solution can handle the requirements of such tough floor spaces. Shopping malls and commercial retailers cannot afford facility downtime because being down means lost revenue.

High performance commercial resinous flooring solutions by LATICRETE offer your shopping mall and retail space fast return to service, high uptime, and safe, nonslip flooring characteristics. These customizable coating systems also make floor maintenance easy. Commercial resinous flooring solutions offer all of these benefits as well as customizable colors and textures.

Specialized Coating Systems for Patios, Walkways, and Storage Areas
