DS-36603

3701 Lite Mortar and 3701 Lite Mortar R (Rapid) have carefully selected polymers, portland cement and light weight aggregates. They contain no respirable silica sand and do not require the use of latex admixture, only water. These products weigh half the amount of a conventional thick bed mortar and retain the same coverage rate. Both have excellent performance in vertical/overhead rendering applications and can be used as a mortar bed.
