3. PRODUCT DESCRIPTION
SPARTACOTE Surface Build Top Coat UV is a high-performance top coat providing increased UV and chemical resistance to SPARTACOTE epoxy systems.

Uses
▪ Research facilities
▪ Laboratories
▪ Food & Beverage Facilities
▪ Hospitals

Advantages
▪ Low odor, low VOC’s
▪ Excellent adhesion
▪ Soap and water clean up
▪ Provides UV protection

Suitable Substrates
▪ SPARTACOTE Epoxy Floor Systems

Packaging
▪ 9812-0005-2 Full Kit: 5 gal (18.9L) kit
▪ Part A: 3.1 gal (11.7L) in a 5 gal pail
▪ Part B: 1.9 gal (7.2L) in a 3.5 gal pail

Approximate Coverage

<table>
<thead>
<tr>
<th>Thickness</th>
<th>Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td>15-20 mils (0.4-0.5 mm)</td>
<td>80-100 ft²/gal (2.0-2.4 m²/L)</td>
</tr>
</tbody>
</table>

Shelf Life
Factory sealed containers of this product are guaranteed to be of first quality for one (1) year if stored off the ground in a dry area.

Limitations
▪ Substrate temperature must be between 50°F (10°C) and 90°F (32°C)
▪ Ambient relative humidity must not exceed 90%
▪ Substrate temperature must be 5°F(3°C) above the dew point
▪ Intended for interior applications only

Cautions
▪ FOR PROFESSIONAL USE ONLY
▪ Thoroughly read all technical data sheets, application guidelines, warranty disclaimers and Safety Data Sheets (SDS) prior to use. Application guides are available at www.laticrete.com.
▪ Wear protective gloves, protective clothing and eye protection.
▪ May cause an allergic skin reaction. If skin irritation or rash occurs: get medical advice/attention
▪ Causes serious eye damage. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Call a physician immediately.
▪ If swallowed: Rinse mouth do not induce vomiting. Call a physician immediately.
▪ Keep out of reach of children.

4. TECHNICAL DATA
VOC/LEED Product Information
15 g/L
Specifications subject to change without notification. Results shown are typical but reflect test procedures used. Actual field performance will depend on installation methods and site conditions.

5. INSTALLATION
Surface Preparation
SPARTACOTE Surface Build Top Coat UV is intended for use as a top coat over SPARTACOTE epoxy systems. Ensure that proper re-coat windows are observed. See applicable primer or body coat application guidelines.
product technical data sheet for surface preparation requirements.

**Mixing**
SPARTACOTE Surface Build Top Coat UV is provided in pre-measured units and when mixed will yield 5 gal (18.9 L) of material.

Prior to mixing, mechanically mix Part A separately for 1-2 minutes to disperse any fillers which may have settled. Mix pre-measured unit of Part A with pre-measured unit of Part B for 2-3 minutes.

**Application**
SPARTACOTE Surface Build Top Coat UV may be applied by notched squeegee or SPARTACOTE Resin Broom. Suggested application thickness is 15-20 mils (0.4-0.5 mm). Spread evenly over all surfaces and immediately backroll with a short nap roller or spiked roller to deaerate and help level.

To optimize inter-coat adhesion, appropriate recoat times must be observed. Exposure of the coating to direct sunlight will considerably shorten the recoat times. If recommended recoat times are exceeded, consult a LATICRETE Technical Service Representative; sanding or abrasive blasting may be required.

With all epoxies after priming and before each additional coat, examine the surface for amine blush (oily film). If present, remove by cleaning the surface with acetone.

**Notes**
Mock-ups and field test areas are required in order to validate performance and appearance related characteristics (including but not limited to color, inherent surface variations, wear, anti dusting, abrasion resistance, chemical resistance, stain resistance, coefficient of friction, etc.) to ensure system performance as specified for the intended use, and to determine approval of the coating system.

Variability in job site conditions (including but not limited to surface preparation, sunlight, humidity, dew point, temperature, etc.) during application of SPARTACOTE products may lead to fisheyes, blistering, pinholes, wrinkling, or outgassing of air in the concrete and are not product defects. Double priming, shading or evening application may be required.

**Cure Cycle**

**6. AVAILABILITY AND COST**

**Availability**
LATICRETE materials are available worldwide.

**For Distributor Information, Call:**
- Toll Free: 1.800.243.4788
- Telephone: +1.203.393.0010
For on-line distributor information, visit LATICRETE at laticrete.com

**Cost**
Contact a LATICRETE Distributor in your area.

**7. WARRANTY**
See 10. FILING SYSTEM:
- LATICRETE Product Warranty

**8. MAINTENANCE**
The long-term performance, appearance, and life expectancy of wear surface products are critically dependent upon a good routine maintenance program designed specifically for the installed wear surface. SPARTACOTE floor coating systems are nonporous, causing dirt and contaminants to remain on the surface. The use of properly placed walk-off mats, inside and outside, will help increase the life of the floor. Recommend maintenance program consist of frequent and thorough cleaning utilizing a neutral pH cleaner. The frequency of washing will vary depending on floor usage type, traffic, and age. Please Refer to TDS 420 “SPARTACOTE Floor Maintenance Guide” available at www.laticrete.com for more information.

**9. TECHNICAL SERVICES**

**Technical Assistance**
Information is available by calling the LATICRETE Technical Service Hotline:
- Toll Free: 1.800.243.4788, ext. 1235
- Telephone: +1.203.393.0010, ext. 1235
- Fax: +1.203.393.1948
