3. PRODUCT DESCRIPTION
By adding the STRATA_HEAT THERMAL PACK additive to LATICRETE® modified thin-set, you get uniform heat diffusion throughout!

Uses
Heat Conductive Thinset Additive to be used exclusively with LATICRETE Thinsets (253, 254 and 4-XLT). Mix (2) THERMAL PACKS for 50lb. (22.7 kg) of thinset and mix with the appropriate amount of water.

- Minimizes cold spots between wires making floors more comfortable
- Reduces thermostat cycle times
- Pays for itself in a matter of months

Advantages
- Increases thermal heat transfusion by 20%
- Wires transfer heat quicker, shutting down the system sooner, reducing energy costs by 15%
- Lowers kilowatt usage – saves homeowner on electric bills

Suitable Substrates
Please refer to the appropriate Data Sheet for our recommended thinsets for suitable substrates.
- 253 Gold (DS-296.0)
- 254 Platinum (DS-677.0)
- 4-XLT (DS-080.0)

Packaging
Each 3 lb. (1.36 kg) bag contains (2) THERMAL PACKS

Approximate Coverage
Please refer to the appropriate Data Sheet for our recommended thinsets for coverage information.
- 253 Gold (DS-296.0)
- 254 Platinum (DS-677.0)
- 4-XLT (DS-080.0)

Shelf Life
Factory sealed containers of this product are guaranteed to be of first quality for five (5) years* if stored at temperatures >32°F (0°C) and <110°F (43°C).

Limitations
LATICRETE recommends STRATA_HEAT THERMAL PACKS to be used in these (3) thinsets: 253 Gold, 254 Platinum and 4-XLT. We do not recommend use in any of our lightweight thinsets.

Note: Surfaces must be structurally sound, stable and rigid enough to support ceramic/stone tile, thin brick and similar finishes. Substrate deflection under all live, dead and impact loads, including concentrated loads, must not exceed L/360 for thin bed ceramic tile/brick installations or L/480 for thin bed stone installations and L/600 for all exterior veneer applications where L=span length

Adhesives/mastics, mortars and grouts for ceramic tile, pavers, brick and stone are not replacements for waterproofing membranes. When a waterproofing membrane is required, use a LATICRETE® Waterproofing Membrane (see Section 10 FILING SYSTEMS).

Applicable Standard
Please refer to the LATICRETE Data Sheet for our recommended thinsets for the applicable standards. With the use of the STRATA_HEAT THERMAL PACK mixed into our thinsets they will still achieve the applicable standards that are listed for the appropriate LATICRETE thinset selected.
- 253 Gold (DS-296.0)
- 254 Platinum (DS-677.0)
- 4-XLT (DS-080.0)

Physical Properties
Refer to all appropriate Data Sheets for physical properties

5. INSTALLATION
Please refer to the steps below when using STRATA_HEAT™ THERMAL PACKS:

1. For 50lbs. of thinset: Use approximately 6.1-6.6 quarts (5.7-6.2L) of water for the selected LATICRETE thinset for (2) STRATA_HEAT THERMAL PACKS and 50 lbs (22.5 kg) of the selected thinset.
   For 25lbs of thinset: Use approximately 3-3.3 quarts (2.9-3.1L) of water for the selected LATICRETE thinset for (1) STRATA_HEAT THERMAL PACK and 25 lbs (11.3 kg) of the selected thinset.
2. Remove the STRATA_HEAT THERMAL PACK(S) from the outer bag and then remove protective plastic sleeve to expose the water soluble THERMAL PACK. This THERMAL PACK is a water-dispersible pack and the outer bag should dissolve when in contact with the water.
3. When using 50 lbs. (22.5 kg) of LATICRETE thinset, drop two (2) THERMAL PACKS directly into the appropriate measured water content in a clean mixing container.
   When using 25 lbs. (11.3 kg) of LATICRETE thinset, drop one (1) THERMAL PACKS directly into the appropriate measured water content in a clean mixing container.
4. Very slowly agitate the pack(s) and mix with a drill mixer until the THERMAL PACK contents are dispersed evenly throughout the container within the water. Then add your selected LATICRETE thinset and follow the standard instructions for your selected thinset.

Application
Apply the chosen LATICRETE thinset as you would normally following the selected thinset’s set of instructions.

Surface Preparation

6. AVAILABILITY AND COST
Availability
LATICRETE® and LATAPOXY® materials are available worldwide.

For Distributor Information, Call:
  Toll Free: 1.800.243.4788
  Telephone: +1.203.393.0010
For on-line Distribution information, visit LATICRETE at www.laticrete.com

Cost
Contact a LATICRETE/LATAPOXY Distributor in your area.

7. WARRANTY
See 10. FILING SYSTEM

8. MAINTENANCE
Non-finish LATICRETE and LATAPOXY installation materials require no maintenance but installation performance and durability may depend on properly maintaining products supplied by other manufacturers.

9. TECHNICAL SERVICES
Technical Assistance
Information is available by calling the LATICRETE Technical Service Hotline:
  Toll Free: 1.800.243.4788, ext. 235
  Telephone: +1.203.393.0010, ext. 235
  Fax: +1.203.393.1948

Technical and Safety Literature
To acquire technical and safety literature, please visit our website at www.laticrete.com.

10. FILING SYSTEM
Additional product information is available on our website at www.laticrete.com. The following is a list of related documents:
- DS 230.13: LATICRETE Product Warranty
- DS 230.05: LATICRETE 5 Year System Warranty
- DS 230.15: LATICRETE 15 Year System Warranty for Steel or Wood Framed Exterior Facades
- DS 230.99: LATICRETE Lifetime System Warranty
- TDS 152: “Bonding Ceramic Tile, Stone or Brick Over Wood Floors”
- TDS 157: “Exterior Installation of Tile and Stone Over Occupied Space.”

Specifications are subject to change without notification.
Technical data shown in product data sheets are typical but reflect laboratory test procedures conducted in laboratory conditions. Actual field performance and test results will depend on installation methods and site conditions. Field test results will vary due to critical job site factors. All recommendations, statements and technical data contained in this data sheet are based on tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not be construed as a warranty or guaranty of any kind. Satisfactory results depend upon many factors beyond the control of LATICRETE International, Inc. User shall rely on their own information and tests to determine suitability of the product for the intended use and user assumes all risk, loss, damage, expense and liability resulting from their direct use, indirect use or consequential to their use of the product. LATICRETE shall not be liable to the buyer or any third party for any injury, loss or damage directly or indirectly resulting from use or inability to use the product.
