7. WARRANTY

See 10. FILING SYSTEM:

DS 230.13: LATICRETE Product Warranty

8. MAINTENANCE

Highly alkaline, acidic, ammoniated, or abrasive cleaners are not necessary for daily maintenance and may also degrade the sealer used, adversely affecting stain resistance. Tile and stone routine cleaning with a neutral pH cleaner such as Stone & Tile Floor Cleaner is recommended. For tough or difficult to remove soil use Heavy Duty Tile & Grout Cleaner and a stiff nylon brush. Please note: Prior to using any cleaning material on a tile, stone, etc. installation, test a discrete area or scrap piece of tile to insure desired results.
