1. Identification

Product identifier              Impregnator Pro® Sealer
Other means of identification   None.
Recommended use                 Treatment of natural stone surfaces.
Recommended restrictions        None known.

Manufacturer/Importer/Supplier/Distributor information

Company Name                    LATICRETE International
Address                         1 Laticrete Park, N Bethany, CT 06524
Telephone                       (203)-393-0010
Contact person                  Steve Fine
Website                         www.laticrete.com
Emergency phone number          Call CHEMTREC day or night
                                USA/Canada - 1.800.424.9300
                                Mexico - 1.800.681.9531
                                Outside USA/Canada
                                1.703.527.3887

2. Hazard(s) identification

Physical hazards                Flammable liquids Category 3
Health hazards                  Skin corrosion/irritation Category 2
                                Specific target organ toxicity, single exposure Category 3 narcotic effects
                                Aspiration hazard Category 1
Environmental hazards           Hazardous to the aquatic environment, acute hazard Category 2
                                Hazardous to the aquatic environment, long-term hazard Category 2

OSHA defined hazards            Not classified.

Label elements

Signal word                      Danger
Hazard statement                 Flammable liquid and vapor. Causes skin irritation. May cause drowsiness or dizziness. May be fatal if swallowed and enters airways. Toxic to aquatic life with long lasting effects.
Precautionary statement         Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe mist or vapor. Wash thoroughly after handling. Avoid breathing vapors. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Avoid release to the environment.
                                If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
                                If skin irritation occurs: Get medical advice/attention. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting. Collect spillage.
                                Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up.
                                Dispose of contents/container in accordance with local/regional/national/international regulations.
                                Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment.
3. Composition/information on ingredients

Mixtures

<table>
<thead>

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation

Move into fresh air and keep at rest. If breathing stops, provide artificial respiration. Get medical attention if any discomfort continues.

Skin contact

Flush thoroughly with water for at least 15 minutes. Wash skin with soap and water. Get medical attention if irritation develops and persists.

Eye contact

Flush thoroughly with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention immediately.

Ingestion

Immediately rinse mouth and drink plenty of water. Keep person under observation. If person becomes uncomfortable take to hospital along with these instructions. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Skin irritation. Irritation of nose and throat. Irritating to mucous membranes. Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.

Indication of immediate medical attention and special treatment needed

Treat symptomatically.

General information

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Extinguish with alcohol-resistant foam, carbon dioxide or dry powder.

Unsuitable extinguishing media

Do not use a solid water stream as it may scatter and spread fire.

Specific hazards arising from the chemical

During fire, gases hazardous to health may be formed. Solvent vapors may form explosive mixtures with air.

Special protective equipment and precautions for firefighters

Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions

In case of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Move containers from fire area if you can do it without risk.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate. Do not breathe mist or vapor. Avoid contact with skin and eyes. Local authorities should be advised if significant spillages cannot be contained. Stay upwind. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak. Ventilate closed spaces before entering. Use personal protection recommended in Section 8 of the SDS.
Methods and materials for containment and cleaning up

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop the flow of material, if this is without risk. Prevent entry into waterways, sewers, basements or confined areas. Keep combustibles (wood, paper, oil, etc.) away from spilled material. This product is miscible in water.

Large Spills: Dike the spilled material, where this is possible. Following product recovery, flush area with water. Cover with plastic sheet to prevent spreading. Absorb spillage with non-combustible, absorbent material.

Small Spills: Clean surface thoroughly to remove residual contamination.

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not contaminate water.

7. Handling and storage

Precautions for safe handling

The product is flammable, and heating may generate vapors which may form explosive vapor/air mixtures. Do not handle or store near an open flame, heat or other sources of ignition. Do not breathe mist or vapor. Avoid contact with skin, eyes and clothing. Do not smoke. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Use only in well-ventilated areas. Avoid prolonged exposure. Wash thoroughly after handling. Handle and open container with care.

Conditions for safe storage, including any incompatibilities

8. Exposure controls/personal protection

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure guidelines

Follow standard monitoring procedures.

Appropriate engineering controls

Explosion proof exhaust ventilation should be used. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment. Provide easy access to water supply or an emergency shower.
Individual protection measures, such as personal protective equipment

**Eye/face protection**
- Wear goggles/face shield.

**Skin protection**
- **Hand protection**
  - Wear protective gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.
- **Other**
  - Wear appropriate chemical resistant clothing. Wear appropriate chemical resistant gloves. Protective shoes or boots. Structural firefighters protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations. Wear chemical protective equipment that is specifically recommended by the Personal Protective Equipment manufacturer.

**Respiratory protection**
- If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use. In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment.

**Thermal hazards**
- Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations**
- Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and immediately after handling the product. When using, do not eat, drink or smoke. Launder contaminated clothing before reuse. Remove and isolate contaminated clothing and shoes.

### 9. Physical and chemical properties

**Appearance**  Liquid.
**Physical state**  Liquid.
**Form**  Liquid.
**Color**  Colorless.
**Odor**  Mild hydrocarbon.
**Odor threshold**  Not available.
**pH**  Not available.
**Melting point/freezing point**  Not available.
**Initial boiling point and boiling range**  339.8 °F (171 °C)
**Flash point**  125.6 °F (52.0 °C) Closed Cup
**Evaporation rate**  Not available.
**Flammability (solid, gas)**  Not available.

**Upper/lower flammability or explosive limits**
- **Flammability limit - lower (%)**  Not available.
- **Flammability limit - upper (%)**  Not available.
- **Explosive limit - lower (%)**  Not available.
- **Explosive limit - upper (%)**  Not available.

**Vapor pressure**  Not available.
**Vapor density**  Not available.
**Relative density**  0.761

**Solubility(ies)**
- **Solubility (water)**  Slightly soluble.

**Partition coefficient**
- **(n-octanol/water)**  Not available.

**Auto-ignition temperature**  Not available.
**Decomposition temperature**  Not available.

**Viscosity**  Not available.

**Other information**
- **VOC (Weight %)**  748 g/l
10. Stability and reactivity

Reactivity
The product is non-reactive under normal conditions of use, storage and transport.

Chemical stability
Stable under normal temperature conditions. Risk of ignition.

Possibility of hazardous reactions
Hazardous polymerization does not occur.

Conditions to avoid
Heat, sparks, flames, elevated temperatures.

Incompatible materials
Strong oxidizing agents. Strong acids.

Hazardous decomposition products
Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.

11. Toxicological information

Information on likely routes of exposure

Inhalation
Vapors may cause drowsiness and dizziness.

Skin contact
Causes skin irritation.

Eye contact
May cause eye irritation on direct contact.

Ingestion
Ingestion may cause irritation and malaise.

Symptoms related to the physical, chemical and toxicological characteristics
Skin irritation. Irritation of nose and throat. Irritating to mucous membranes.

Information on toxicological effects

Acute toxicity
May cause discomfort if swallowed.

n-Butyl acetate (CAS 123-86-4)

Acute

Inhalation
LC50 Rat
Oral
LD50 Rat

Skin corrosion/irritation
Causes skin irritation.

Serious eye damage/eye irritation
May cause eye irritation.

Respiratory or skin sensitization

Respiratory sensitization
Not classified.

Skin sensitization
Not a skin sensitizer.

Germ cell mutagenicity
Not classified.

Carcinogenicity
Not classified.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not listed.

Reproductive toxicity
Not classified.

Specific target organ toxicity - single exposure
May cause drowsiness or dizziness.

Specific target organ toxicity - repeated exposure
Not classified.

Aspiration hazard
May be fatal if swallowed and enters airways.
**Further information**

Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain.

**12. Ecological information**

**Ecotoxicity**

Toxic to aquatic life with long lasting effects.

**Persistence and degradability**

No data is available on the degradability of this product.

**Bioaccumulative potential**

No data available for this product.

| Partition coefficient n-octanol / water (log Kow) | n-Butyl acetate (CAS 123-86-4) | 1.78 |

**Mobility in soil**

No data available.

**Mobility in general**

The product is insoluble in water.

**Other adverse effects**

No data available.

**13. Disposal considerations**

**Disposal instructions**

Dispose of this material and its container at hazardous or special waste collection point. Do not incinerate sealed containers. Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

**Hazardous waste code**

Waste codes should be assigned by the user based on the application for which the product was used.

**Waste from residues / unused products**

Dispose of in accordance with local regulations.

**Contaminated packaging**

Dispose of in accordance with local regulations. Empty containers should be taken to an approved waste handling site for recycling or disposal.

**14. Transport information**

**DOT**

- **UN number**: UN3295
- **UN proper shipping name**: Hydrocarbons, liquid, n.o.s. (Naphtha (petroleum), hydrotreated heavy, n-Butyl acetate)
