

SAFETY DATA SHEET

1. Identification

Product identifier	D9FA5;I5F8¦ '9dcImDUHWY Part A	
Other means of identification	None.	
Recommended use	Adhesive.	
Recommended restrictions	None known.	
Manufacturer/Importer/Supplier/	Distributor information	
Company Name	LATICRETE International	
Address	1 Laticrete Park, N	
	Bethany, CT 06524	
Telephone	(203)-393-0010	
Contact person	Steve Fine	
Website	www.laticrete.com	
Emergency phone number	Call ChemTel day or night	
	USA/Canada - 1.800.255.3924	
	Mexico - 1.800.099.0731	
	Outside USA/Canada	
	1.703.527.3887	
2. Hazard(s) identification		
Physical hazards	Not classified.	
Health hazards	Skin corrosion/irritation	Category 1B
	Serious eye damage/eye irritation	Category 1
	Sensitization, skin	Category 1
	Reproductive toxicity	Category 2
Environmental hazards	Hazardous to the aquatic environment, acute hazard	Category 2
	Hazardous to the aquatic environment, long-term hazard	Category 2

Not classified.

OSHA defined hazards

Label elements

Signal word	Danger
Hazard statement	Causes severe skin burns and eye damage. Causes serious eye damage. May cause an allergic skin reaction. Suspected of damaging fertility or the unborn child. Toxic to aquatic life with long lasting effects.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment.
Response	If exposed or concerned: Get medical advice/attention. If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Collect spillage.

Storage	Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name		CAS number	%
Fatty acids, tall-oil, reaction products with tetraethylenepentamine		68953-36-6	7 - 10
4-Nonylphenol, branched		84852-15-3	1 - 3
Benzyl alcohol		100-51-6	1 - 3
m-Phenylenebis(methylamine)		1477-55-0	1 - 3
2-Piperazin-1-ylethylamine		140-31-8	1.5 - 2.5
Isophorone diamine		2855-13-2	0.4 - 2
Tetraethylene pentamine		112-57-2	0.5 - 1.5
Composition comments	All concentrations are in percent by weigh percent by volume.	nt unless ingredient is a gas. Gas	s concentrations are i
4. First-aid measures			
nhalation	Remove victim to fresh air and keep at reattention if any discomfort continues.	st in a position comfortable for b	reathing. Get medica
Skin contact	Take off immediately all contaminated clo Wash contaminated clothing before reuse		
Eye contact	Immediately flush eyes with plenty of wat present and easy to do. Continue rinsing.		
ngestion	Rinse mouth. Do not induce vomiting. If v doesn't get into the lungs. Get medical at		
Most important symptoms/effects, acute and lelayed	Rash. Corrosive effects. Symptoms may vision. Permanent eye damage including		s, swelling, and blurre
ndication of immediate nedical attention and special reatment needed	Provide general supportive measures and Chemical burns: Flush with water immed adhere to affected area. Call an ambulan	ately. While flushing, remove clo	thes which do not
General information	Ensure that medical personnel are aware protect themselves.	of the material(s) involved, and	take precautions to
5. Fire-fighting measures			
Suitable extinguishing media	Alcohol resistant foam. Water fog. Dry ch	emical powder. Carbon dioxide (CO2).
Insuitable extinguishing nedia	Do not use water jet as an extinguisher, a	as this will spread the fire.	
Specific hazards arising from he chemical	Heating may cause the release of ammon	nia vapors.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and f	ull protective clothing must be we	orn in case of fire.
Fire fighting	In case of fire and/or explosion do not bre		om fire area if you ca
equipment/instructions	so without risk. Use water spray to cool u	nopened containers.	

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills in original containers for re-use. For waste disposal, see Section 13 of the SDS.
Environmental precautions	Avoid release to the environment. Do not discharge into drains, water courses or onto the ground. Environmental manager must be informed of all major releases.
7. Handling and storage	
Precautions for safe handling	Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Do not get in eyes, on skin, on clothing. Persons susceptible to allergic reactions should not handle this product. Use with adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Keep container tightly closed. Store in a cool and well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US. ACGIH Threshold Limit Components	Values Type		Value

appropriate engineering ontrols	or other engineering controls	ions. If applicable, us to maintain airborne	se process enclos e levels below reco	be used. Ventilation rates ures, local exhaust ventilation, ommended exposure limits. If s to an acceptable level. Provide

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles). Face-shield. Wear a full-face respirator, if needed.
Skin protection	We are appreciate to provide the state of the second state of the
Hand protection	Wear appropriate chemical resistant gloves.
Skin protection	
Other	Wear appropriate chemical resistant clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Physical state	Solid.
Form	Paste.
Color	Light red.
Odor	Ammonia.
Odor threshold	Not available.
рН	Not applicable.
Melting point/freezing point	Not applicable.
Initial boiling point and boiling range	Not available.
Flash point	Non flammable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	1.5 g/cm3
Solubility(ies)	
Solubility (water)	Insoluble.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
10. Stability and reactivity	
Reactivity	Corrosive to certain metals. Copper Aluminum. Zinc.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Heat, flames and sparks. Contact with incompatible materials.
Incompatible materials	Alkaline metals. Oxidizing agents. Strong acids.
Hazardous decomposition products	Carbon dioxide (CO2). Carbon monoxide. Nitrogen oxides.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause respiratory irritation.
Skin contact	Causes skin burns. May cause an allergic skin reaction.
Eye contact	Causes serious eye damage.
Ingestion	May cause burns of the gastrointestinal tract if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics	Rash. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity	May cause discomfort if swallowed.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.	
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.	
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).	
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.
