

# How Do I Perform a Factory Reset on My STRATA\_HEAT™ Wi-Fi Thermostat TDS 297

To perform a factory reset on your STRATA\_HEAT Wi-Fi Thermostat, please follow these step-by-step instructions.

First, press the “accept” button (the check mark icon) on your thermostat. Next, locate the check mark icon on your thermostat and press it. Use the arrows on the thermostat to navigate to the Settings icon. It is represented by a gear symbol.

Once you have selected the Settings icon with your finger, select the “accept” button again. Now, using the arrows, navigate to the Factory Reset icon. This icon is represented by a red circle with a circular arrow symbol inside indicating a reset.

When you have highlighted the Factory Reset icon, press the “accept” (check mark icon) once more. Finally, locate the check mark icon on the screen using the arrows, and press the “accept” button to confirm the Factory Reset.

Congratulations! You have successfully completed a Factory Reset on your STRATA\_HEAT Wi-Fi Thermostat.
